

CNN and democrats failed to destroy Trump

“I win an election easily, a great ‘movement’ is verified, and crooked opponents try to belittle our victory with FAKE NEWS. A sorry state!” -Donald Trump

“Intelligence agencies should never have allowed this fake news to ‘leak’ into the public. One last shot at me. Are we living in Nazi Germany?” -Donald Trump

Russia, Russia, Russia...the Democrat controlled media has found a fake news story they believe will stick, and they’re not going to let it go. What is their bottom line? Two things...destroy Donald J. Trump by delegitimizing his win, and start a war with Russia.

The Democratic socialists still believe that Comey and Russia stole the election from Hillary Clinton. They still believe they won! They’ve protested in the streets and laid the blame on just about everything and everyone but themselves.

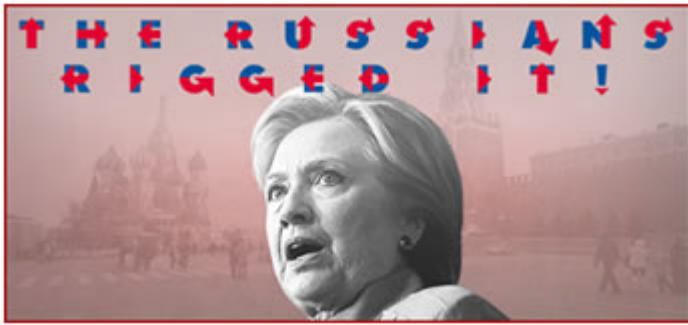

They cannot believe that the American electorate turned out in droves to absolutely destroy their candidate and give the presidency to an outsider who hates globalism! As long as Donald J. Trump is in office, the leftist media will try their best to destroy him.

Accepting Defeat with Grace

George Washington Carver said, “Ninety-nine percent of the failures come from people who have the habit of making excuses.”

To bear defeat with dignity, to accept criticism with poise, to receive honors with humility—these are marks of maturity and graciousness. Obviously, this quote by author, William

Arthur Ward has totally been ignored by the

Democratic socialist left.

While the election may be over, Hillary Clinton supporters are not taking the results well. Can you guess who isn't on their blame list? Of course, the unlikeable Hillary Clinton whose supporters cannot accept defeat, are now blaming Russia.

Who is Really Colluding with Russia?

While Obama was taking part in a global nuclear security summit in South Korea, he was caught on tape asking Russian President Dmitry Medvedev for “space.” He told Medvedev that he would have more flexibility to deal with contentious issues like missile defense after the 2012 U.S. presidential election. [Here's the exchange caught on an open mic](#). Think maybe Putin hacked the 2012 election for Obama? Ahem.

And what about the uranium deal brokered through government agencies by then Secretary of State, Hillary Clinton. Leaders of the Canadian mining industry, who have been major donors to the charitable endeavors of former President Bill Clinton and his family, built, financed, and eventually sold off to the Russians, a company that would become known as Uranium One. The sale gave the Russians control of one-fifth of all uranium production capacity in the United States. Even the [NYT's](#)

[reported this story!](#)

Uranium One's chairman used his family foundation to make four donations to the Clinton Foundation totaling \$2.35 million, and then another half million for a Moscow speech by Bill Clinton for a Russian investment bank with links to the Kremlin that was promoting Uranium One stock.

To top it off, the outgoing Obama Administration just approved a large shipment of uranium to Iran...from Russia! [[Link](#)]

Tell me who is actually in bed with the Russians?

Warmongers, McCain and

Graham

Through an endless barrage of ugly propaganda, the U.S. government and the mainstream American socialist press have put the world on course for a potential nuclear showdown with Russia. This risk has been undertaken all because of fake news and media hype regarding Vladimir Putin.

Two Republicans, John McCain and Lindsey Graham, and a Democrat, Amy Klobuchar, all voiced their support for action to be taken against Russia for “meddling with the presidential election” in November. There is no proof! They are insane! Do we really want a nuclear war with Russia?!

McCain, Graham, and Klobuchar are claiming that there is support from 99% of both Republicans and Democrats for actions against Russia, and particularly against Vladimir Putin personally.

The US has expelled 35 Russian diplomats as punishment for alleged interference into the presidential election. It will also close two Russian compounds used for intelligence-gathering, in Maryland and New York, as part of a slew of retaliatory measures. President Barack Obama had vowed action against Russia amid US accusations it directed hacks against the Democratic party and Hillary Clinton's campaign. The US State Department declared the 35 Russian diplomats from the Washington DC embassy and the consulate in San Francisco "persona non-grata," giving them and their families 72 hours to leave the US.

President Obama's actions are obviously designed to strangle Trump's presidency while it is still in the cradle. He took this audacious action with less than one month left before turning the keys of the White House over to the new president, and put Trump in the position to either reverse the actions or let it stand. The socialist media will make it difficult for our new president either way he goes.

BuzzFeed and CNN

The political establishment went nuclear on President-elect Donald Trump with a double-barreled blast of "leaked" "intelligence" reports by CNN and BuzzFeed. The documents contain explosive bull dung, and unverified opposition research that alleged intel ties between Russia and Trump, and also claims Russia holds sexual blackmail material over Trump.

If these journalists were true journalists who wanted the truth, and not leftist socialist journalists itching for anything to destroy Donald J. Trump, then they would have found that the original documents did not conform to CIA or UK intelligence requirements.

So, scrape BuzzFeed and CNN off the bottom of your shoes and

move on.

This tripe has been around for months, but guess who decided to fetch this garbage from across the pond and make sure it was taken to the FBI?!

Senator John McCain Deeply Involved

Oh yes, there you have it, [Senator McCain, who disowned Trump before the election, admitted he handed this 35-page dossier document outlining claims of Kremlin blackmail to FBI](#). He claims that he received it and gave it directly to FBI Director James Comey because he was “unable to make judgment about accuracy.” Right John, we really believe that!

[McCain actually sent someone on a plane to the UK](#) to retrieve this made-up piece of slander so he could give it to the FBI. He later made the statement, “Comey already had it. I wasn’t the first guy that gave it to him. I was wearing my citizen hat, my good citizen hat, sensitive material, who knows if it’s true, potential problem.” Oh yeah, great citizen that you are Senator...[you’re a lout](#), and you know it.

[Rick Wilson](#), Buzz Feed and CNN ... claimed Trump wouldn’t say anything bad about Putin because Putin is blackmailing Trump with this garbage, and the media is using it to say that Putin hijacked the election, and that’s why Hillary lost.

Remember, Buzz Feed published the entire [35-page dossier of memos](#). None of it was verified. None of it was established.

None of it was approved. None of it was confirmed. They admitted this when they published it. It's totally made up. It is a series of memos [written by a former spook at MI6, the U.K. version of the CIA](#). And it turns out that the [guy who was actually commissioned to do this, works for an outfit hired by Planned Parenthood](#). The guy is embedded deeply in liberal Democrat politics. The whole thing is made up.

According to a report from the [Wall Street Journal](#), former British intelligence officer Christopher Steele prepared the dossier. In hiding, [Steele is now claiming he fears for his life](#).

If anyone was blackmailable it was Hillary. Hillary cheated Bernie Sanders, the DNC emails were hacked, the Clinton Foundation monies are questionable, Benghazi, Syria...and on and on. [[Link](#)]

The media is dangerously close to implosion. They're used to being able to use innuendo and allegations to destroy people, and it's not working against Donald J. Trump. Trump not only survives, but actually grows stronger and more powerful after each one of these attacks. They are just days away from losing everything because they cannot get Trump. Everything they've used against Trump has been totally ineffective, and Trump and his team know this.

Russia Categorically Denies Involvement

Russia has denied any involvement with hacking and reports on Trump. And, so far, she has ignored the slaps in her face from

the Obama administration, and for that, we can thank Putin. “The information is not true and is nothing other than a total fabrication,” Kremlin spokesman Peskov said, responding to allegations Moscow had a compromising report on Donald Trump. “You have to react to this with a certain humor, but there’s also a sad side to this. Hysteria is being whipped up to maintain a political witch hunt.”

Barack Obama previously dismissed Russia as a merely “regional power acting out of weakness.” ([Washington Post](#), 3-25-14) And Hillary Clinton actually compared Putin to Hitler on March 5, 2014. (Washington Post) Of course their words belie their actions with Russia.

Russia is unlike any other country on the planet. They are the one country that could wipe the United States off the face of the Earth in 45 minutes. Russia currently has the largest arsenal of nuclear warheads in the world, with 8,000 weapons (the U.S has up to 7,315). Yet, with the insane and lying rhetoric that the Democratic administration has been using against Russia as of late, you wouldn’t realize this.

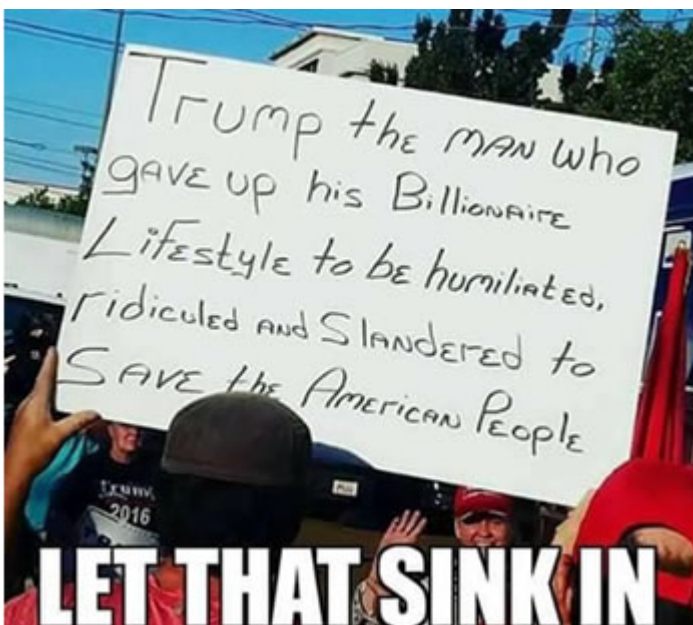

Decades ago, the left always took the side of the Soviets over any Republican, and they also hated American intelligence. Today, they hate the Russians and love American intelligence. Why? Because it's all about what suits them for their political purposes.

President Trump Responds to Fake News

Trump's [January 11th, 2017 press conference](#) made total mincemeat out of the main stream media. If you missed this gargantuan slap down of CNN, you need to listen. President-elect Trump directly called BuzzFeed a "failing piece of garbage," and further rightly calling CNN "fake news."

It's astounding how quickly this CNN fake news fell apart – in less than 24 hours. All because of the Alternative Media.

We now have a strong leader, a leader withchutzpah who never cowers when the fake news

folks attack. The media's tactics won't work this time. Trump will use social media and press conferences to counter their lies. It's so nice to see a leader with a spine of steel who speaks the truth.

Conclusion

The idea that the Russians tampered with this election is still out there, and it's not going to stop. The entire left, which includes the media will keep trying to convince people of it, even when there's not a shred of evidence and that's been proven. It didn't happen, but they will keep lying about it, and that's not to say the Russians do not try. We believe the Russians did get into the Democrat National Committee computer and did get into John Podesta's email and did release what they found, but that didn't spread disinformation. Everything they told us, or Assange told us, that we learned about in Podesta's email account, everything happened to be true!

The Russians didn't run a disinformation campaign, and they certainly didn't tamper with voting machines. If anyone tampered with them, it was George Soros and the Democrats. The Russians had nothing to do with the election that mattered regarding the results. So, all this pontificating regarding Russian hacking is fake news that the brainwashed folks who listen to the MSM will believe.

Global Government in Peril.

Remember these five things:

1. Putin hates the New World Order. [[Link](#)]
2. Great Britain exited the European Union – Brexit won. [[Link](#)]

3. Marine Le Pen has reawakened France and may win. [[Link](#)]
4. Italy on track to leave EU, bows PM hopeful [[Link](#)]
5. Hungarian referendum, EU humiliated as 95% say no. [[Link](#)]

God's Word tells us there will be a "Globalist Order," but the people have pushed back, and we very well may have a reprieve because of the sacrifices of those who love freedom.

Very shortly, President Donald J. Trump will move into our White House. I can hardly wait. Please continue to pray for him for wisdom and protection.
