

# Cockeyed Politics in America and Around the World

Every day you read a newspaper or watch the evening news, somebody unhinges themselves from reality. Somebody shoots someone or stabs them or tries to run them over. Somebody robs a bank or a convenience store. Dozens of people shoot each other in Chicago on weekends so it's become a killing zone with no solutions. We've got our own governors allowing illegal aliens to gain fraudulent CDL permits to drive 18-wheelers when those drivers can't spell their own name, i.e., they are illiterate. Out on the road, those same illegals KILL American citizens with those big trucks. I know because I've carried a CDL since 1978 and have driven thousands of miles for United Van Lines across America—with no accidents.

At the same time, California's Governor Gavin Newsom, gave those illegal aliens licenses, yet wants to be the next president of the United States. Instead of the "rule of law", Newsom supports lawlessness. Governor Tim Walz of Minnesota over-saw the single greatest financial ripoff of Americans in the 21st century. He tried to become Vice President. When you look at the endless murders in Illinois with Governor Pritzker, who also wants to run for president, you can't help but scratch your head and wonder what the heck is going on in America. What happened to truth, justice, God, family and The American Way?

Let's face it; politics and politicians in America and around the world provide a never-ending story of stupidity, money-grubbing, lying thieves, murderers, and enormous incompetence. Russia's Putin comes to mind.

During Biden's "invited" four-year invasion of America, he allowed 15 to 20 million illegal aliens from all over the world to make our country their new home. He and/or his handlers didn't care if they were rapists, robbers, killers, pedophiles, drug dealers, mentally ill and terrorists. Biden should be thrown in jail for violating his oath of office, as well as getting thousands of Americans killed.

Biden's actions got Laken Riley killed, along with another 270,000 deaths from drug overdoses that he engineered into our country. It's crazy, but you can't make this stuff up.

Now, with I.C.E. agents trying to rid our country of 25 million illegal aliens, you've got I.C.E. officers being shot at, doxxed, run down with cars, and attacked on the streets—FOR UPHOLDING OUR LAWS. In fact, yesterday, a woman in Minneapolis attempted to run over an I.C.E. officer with her SUV. He shot her. She died. Really stupid move on her part. When the police stop you...you stop, roll down your window, place your hands on the wheel, and do exactly as they order you. It's the law!

Yet, the mayor of Minneapolis, Jacob Frey, who also maintains an illegal "Sanctuary City" for criminal illegal aliens, condemned the shooting. Hey, I saw the video. She was about to run over an I.C.E. agent instead of stopping when she was ordered to stop. She put his life in danger, and, he defended himself.

What's so crazy about the entire episode is the fact that it's been playing out across this country where I.C.E. agents are upholding the law to protect us, the American citizens of our country.

During Biden's pathetic moments in the White House, he introduced a \$25 million "Maduro Wanted" reward for capture and bringing to justice Venezuela's dictator who was responsible for hundreds of thousands of pounds of drugs run into our country to kill off over 270,000 American kids. Maduro also killed and imprisoned countless Venezuelans. He turned that once prosperous country into a narco-terrorist den of thieves.

But when Trump captured him this past week, House minority speaker Hakeem Jeffries and Senate minority leader Schumer condemned Trump for doing what Biden mandated.

Whether it's top leaders in Congress or unhinged demonstrators in Minneapolis or Portland, Oregon, we're sliding into a Third World Banana Republic.

Come on! Governor Tampon Tim Walz should be sent to prison for giving away \$9 billion of your tax dollars. He covered it up for years. He squashed all whistle blowers. He's a total fraud. Instead, he's blaming Trump. Walz needs to resign. He needs to be in handcuffs.

Then you've got NPR's incredible bias reporting. They interviewed an author that wrote a book about America's "White Supremacy" problem. The fact remains, the reality remains, and truth remains that all minorities in America live the highest standard of living in the world. They enjoy the finest K-12 education. They enjoy endless perks for education, medical care, affirmative action, D.E.I., WIC, ADC, EBT and dozens of other programs that benefit them. You will NEVER see such positive treatment in places like China, India, North Korea, et al.

Who do you know who wants to move to China, India, Russia, Columbia or Venezuela? Answer: maybe Whoopi Goldberg.

After the author's interview on how bad America treats minorities, another woman interviewed at "how bad" republicans

and Trump are doing on the economy. She trashed everything Trump's done in the past 12 months. First, he had to undo every nightmare that Biden created. Second, he had to bring real economics to the forefront. It takes time to undo four years of economic chaos with 9 percent inflation and \$5.00 a gallon for gas.

Note: this past week, I spent \$2.14 cents for a gallon of gas to fill up my car in Lakewood, Colorado. As the price of fuel declines, the cost of our groceries will continue to decline. Notice you can buy a dozen eggs for under \$4.00 now.

But the kicker for the "Cockeyed Politicians" and those who voted for them must be awarded to New York Mayor Zohran Mamdani, a Ugandan refugee, a communist, a Muslim who cheered 9/11, a Muslim who believes in honor killings and female genital mutilation, and a Muslim who placed his hand on the Quran to be sworn into office when he DOES NOT stand with our U.S. Constitution. Not only that, he pushes for "collectivism" rather than "rugged individualism." Which translates to his approval of 42,000,000 people in America subsisting on food stamps while they sit on their "collective asses" doing nothing to improve their own lives--but instead, suck off your "rugged individualism."

If ever there was a politician that will destroy the framework and the foundation of America, foreign Islamist Zohran Mamdani is your man. He supports extermination of all Jews as mandated by the Quran that he used to swear into office. He accepts that women possess 1/2 the value of a man. If allowed, he will push for Sharia Law—which stands into total opposition to our U.S. Constitution. Pretty soon, you'll see 50,000 Muslims butts up in the air in the streets of New York City. One comic said, "They're mooning Allah."

From this journalist's perspective, it looks like democrats want to destroy America, while republicans want to maintain reason, logic, understanding and adherents to the U.S.

Constitution.

Essentially, we've got a wolf by the ears. We can't keep him, and we can't let him get away. (Thomas Jefferson) Among all those cockeyed politicians, who will win for America, and maintain our nation as a Constitutional Republic? The wolf you feed. (Vote for)
