

Confessions of an American Journalist About America – Part 2, Where Are We Headed?

It's beyond my rational mind to understand that our President Joe Biden, Vice President Kamala Harris, Homeland Security Chief Mayorkas and Congress have spent over \$150 billion on distributing illegal aliens across America and caring for their welfare in the past 3 1/2 years, BUT when it comes to rescuing our own American citizens from the disaster of Hurricane Helene along much of the East Coast—we're out of money.

It's beyond my comprehension that our Congress imported 125,000 illiterate Somalians into Minneapolis, Minnesota, only to watch them defraud our welfare EBT food stamp system of \$200 million while electing Ilhan Omar, a devout Muslim who follows only Sharia Law of the Qur'an-- to our United States Congress. She hates Jews, she despises our Constitution, she defrauded our immigration laws by marrying her brother to bring him here, and she openly does everything she can to undermine the American people. Her citizenship should be revoked and she should be deported to Somalia.

After 3 1/2 years of inviting over 15 million illegal aliens into our country, it astounds me that Joe Biden, under cover of darkness and total illegality, has flown over 320,000 illegal aliens into airports across the country to dump those

illegal aliens into our country at our cost. He's resumed that program that dumps 15,000 to 20,000 illegal aliens onto towns like Springfield, Ohio. If that's not treason, I don't know what is! Additionally, throughout his treasonous presidency and vacuous five decades in Congress, he told reporters over the weekend that Kamala Harris and he play from the same song sheet. In other words, they're both undermining the laws of our Constitution in concert.

Then you look at Detroit's Squad Member Rashida Talaib, a devout Palestinian Muslim, who wrapped herself in the Palestinian flag upon being elected, denouncing Israel, and calling for all Muslims to support Hamas. How anti-American can you get? She needs to be stripped of her citizenship and deported to Iran to get a taste of what it's like under Sharia Law as to treatment of women. Maybe she could experience FGM and/or become one of the 20,000 annual honor killings in the Muslim world, because she's too outspoken for a woman. Muslims want their women to be shrouded in a Burka physically or emotionally.

Does anyone understand that legal and illegal immigration destroys the fabric of our American culture? If not, why not? What more proof do we need as we watch American Muslim Hamas supporters tearing at the foundation of our country? They're defacing statues of President George Washington, Thomas Jefferson and Ben Franklin. If given a chance and their growing numbers, those Hamas Muslims would destroy our society. They mean to tear down the structure and the very essence of our Constitutional Republic. Are our elected leaders THAT stupid?

What astounds this journalist stems from the fact that our own governors and mayors vote for Sanctuary Cities to protect lawbreakers. Then, once overwhelmed by 45,000 illegal aliens in Denver, Mayor Johnston wants U.S. taxpayers to pay for their care. Ironically, we suffered 10,000 homeless in Denver for the past 10 years. Now, we face 45,000 illegals in our

streets, and our own 10,000 to equal 55,000 homeless. If Harris and Walz reach the White House, that number could/will very well DOUBLE to 110,000 homeless. What do we do then?

It's like we're in a race by half of Congress, and all those who support Harris-Walz to see how fast they can destroy America. Does anyone think we're going to survive another 15 to 20 million more illegals from 2025 to 2029 with Harris in the White House? Do you?

What about the lands of America? What about the desecration of our culture? What about the very essence of being an American citizen?

As I traveled across America this past summer, it's beyond sickening to see our lands littered with every form of trash, junk, hazardous materials and worse. Aldo Leopold said, "Conservation is getting nowhere because it is incompatible with our Abrahamic concept of land. We abuse land because we regard it as a commodity belonging to us. When we see land as a community to which we belong, we may begin to use it with love and respect." With any kind of respect, we need to outlaw Monsanto and all other chemical and GMO companies poisoning the good earth.

At some point, we need a national glass, plastic, and can deposit-return law at 50 cents a container. It's the ONLY way we will ever stop tossing trillions of metal, plastic and glass containers onto the land. I estimate at least 10 million car carcasses left in the woods to rust in all 50 states. Another 10 million tractors and farm equipment pieces have been left to degrade over the next 1 billion years. It's embarrassing that our fast food industry does little to police the millions of plastic bags, plastic cups and pizza boxes that litter every mile of most roads across America. We need to teach our young to respect the land, to respect their responsibility to the land, and to pick it up when they see it spewed across highways.

How about the desecration of our culture? What do you think is happening as we import tens of millions from 180 different countries/cultures/languages from around the world, illegally? Do you honestly think they will absorb and/or contribute to our civilization? At what point do their numbers overwhelm our numbers, so much so, we become strangers in our own land? That's already happening in cities like Miami, NYC, LA, San Francisco, Chicago and Denver.

With in excess of 30 to 40 million illegal aliens in our country, what is the value of United States citizenship in the eyes of Harris-Biden, Congress and all of our sanctuary city governors, mayors and city councils? What happens when they out-vote us? What happens when they decide our elections? What happens when they turn our country into little Haiti's that become larger Haiti's inside our country? Just one look at the weekend "kill rate" in Chicago or New Orleans should give you an idea that we're already in deep trouble.

Finally, where are we headed? Let's face it, you've been watching the news as to the massive war coming with Iran-Israel-Lebanon-Yemen. Do you notice that incompatible religions simply war against each other until one wins and the other suffers slaughtering? Do you think we'll be able to stop Muslim conflict breaking out in America? Let's face it; Muslims provoke war to establish Sharia Law wherever they land. Sharia Law is deadly to all living beings. Europe today has condemned itself to eternal Islamic decay. Canada, too. In fact, yes, America, too. We're too damned stupid, apathetic and uninvolved to see it coming. Europe didn't see it coming, but it's upon them like the Bubonic Plague, and Islam is devouring Europe.

If Harris-Walz reach the White House, all Americans of every color, creed and ethnic group are in for one hell of a nasty ride.
