

Congress at home in April – Get out in huge numbers

Next month your U.S. House of Representative congress critter will be in your district to allegedly work on your behalf and 'be closer to constituents and their needs'.

Dates for the House according to their latest calendar are: April 10 – 14th and 17- 21st.

The Senate does not have their April calendar posted that I could find. But, you can easily [call your counterfeit senators district office](#) and find out his/her calendar for April.

Many town halls since January have been packed with socialists aka liberals and Marxists, aka progressive liberals. They are Trump haters and made sure they climbed in the face of their Republican congressman. Some got pretty ugly.

[Rep. Vern Buchanan Holds Off Thousands of Leftists Who Storm His Town Hall: 'The Bottom Line Is' Donald Trump 'Won the Election'](#)

"Most of the questions that Buchanan fielded were almost identical to those on a sheet circulated on social media by local progressive activists—and pushed by national groups as well, as part of a larger national agenda to undermine the president's landslide electoral college victory over Democrat Hillary Rodham Clinton. Many of the leftist activists at the town hall wore pink "pussy hats," woolen knitted caps—even though it was 75 degrees outside. The "pussy hats" were a staple in the women's marches nationwide the day after Trump's inauguration." See how organized they are? We must do the same or lose the war.

Anyone surprised by this hasn't been following things closely

enough or they would recognize how well orchestrated this 'resistance' is and much of it is being financed by one evil SOB named George Soros. Cheered on by the Marxists and socialists in the Outlaw Congress as well as global, America-haters like Hildebeast Clinton and the former illegitimate 'president' Barry Soetoro (aka Obama) and his minions.

Those same groups and many others across this country who know NOTHING about the founding of this republic, NOTHING about the Declaration of Independence, the U.S. Constitution or what real freedom and liberty means to each individual American. All they know is the propaganda pumped into their heads in the government indoctrination centers they call public schools and then onto college campuses to further cement their hatred of our beloved republic.

There was big hay and a push to get all those duped Americans – especially the 'snowflakes' to send a post card to President Trump on the Ides of March (15th). Show your hatred of Trump, tell him to get lost, drop dead and worse. Their goal was to bury the White House in hateful post cards.

Countering by patriotic Americans who understand the dire circumstances we are in and that President Trump is trying to kill the century long effort to suck us into a world government ask everyone to send a post card to President Trump at the White House on March 16th showing their support. I haven't seen any numbers, but then it's a bit too soon. The advantage of a post card is that it doesn't have to go to a warehouse location to be zapped which can delay mail to the White House for weeks.

Well, now is the time for conservative Americans to plan for next month while your Congress critter is close to home. Remember: All bills of expenditure must originate in the U.S. House – not on President Trump's desk. While he has submitted 'his' budget request it's the House that does the spending and by God, it's long past time to STOP spending for anything

other than AMERICA and the hell with the catcalls about isolationism.

Americans are barely making it. Senior citizens social security is double taxed and ye those 70 million remain silent. Taxes killing us and for what? THIS CRAP:

– A mango-production program for Pakistani farmers that was abandoned after one year and caused many farmers to default on loans taken out in anticipation of increased productivity: \$30 million

– A project to convert three Air Force radar stations from diesel to wind energy that has since been abandoned: \$14 million

– The construction of an IHOP in the up-and-coming neighborhood of Columbia Heights (which Coburn refers to as “pancakes for yuppies”): \$800,000

– A promotional video for an Alaskan bridge that very well might not get built, titled ‘The Knik Arm Crossing, Bridge to Our Future’: \$57,390 (out of \$15.3 million spent this year on the bridge)

– Pension payments to dead federal employees: \$120 million

– A fourth visitors center on the 54-mile Talimena Scenic Drive that runs between Talihina, Oklahoma (Pop. 2,522) to Mena, Arkansas (Pop. 5,637): \$529,689

– Funding for video game preservation at the International Center for the History of Electronic Games: \$100,000

– Aid to China, the U.S.’s biggest lender, for social and environmental programs: \$17.8 million – Our mortal enemy and you and I are forced with a gun to our head to give them \$17.8 million bux and then turn right around and borrow the

money from them with all that interest shoved down our throats. Now, tell me YOUR congress critter isn't insane or thoroughly corrupt.

– Seed money for the “drug-themed” Mellow Mushroom Pizza Bakery in Austin: \$484,000

– “Celebrity Chef Fruit Promotion Road Show in Indonesia”: \$100,000

– Funding for Pakistan’s Rafi Peer Theatre Workshop to create “130 episodes of an indigenously produced Sesame Street”: \$10 million Research funding for the American Museum of Magic to “better understand its various audiences and their potential interest in the history of magic entertainment”: \$147,138

– Energy efficient home improvement tax credits for children, prisoners, and other people who do not own homes: \$1 billion research funding for a study to determine if cocaine makes Japanese quail engage in sexually risky behavior: \$175,587

– \$387,000 given by the unconstitutional National Institute of Health to give Swedish style massages to rabbits

– \$856,000 paid for a study to get mountain lions on a treadmill. A two year “study” that took eight months for the big cats to climb aboard

– \$331,000 grant given so couples could poke voo-doo dolls

– \$146 Million in subsidies for sports stadiums

– U.S. Fish & Wildlife spent \$10,000 to watch grass grow

– \$371,026 spent to find out if mom loves dogs as much as kids

- \$307,524 to teach synchronized swimming for sea monkeys
- Feds waste millions trying to convince Afghans to grow soy beans they don't eat: \$34 million

Completely unconstitutional in 2016: [“\\$66,550,000 for the National Endowment for Democracy \(NED\)](#), a private, nonprofit foundation that aims to help grow and strengthen democratic institutions around the world. The \$66.6 million earmark in FY 2016 is a 110.8 percent increase over the \$31.6 million earmarked in FY 2015. Since FY 1997, NED has received six earmarks worth a total of \$212.7 million.” Your checkbook is overdrawn \$19 TRILLION plus and you keep writing hot checks.

That's what you fight commute traffic for while your paycheck shrinks because of more and more federal 'income' taxes to pay for the outrageous spending above? [But, remember this:](#) Not a penny of your federal income tax funds a single function of the federal government.

It ALL does to pay down the national debt created by YOUR Congress critter and mine over the decades and for transfer payments to international banking concerns like the IMF, BIA and World Bank. NO WHERE in the U.S. Constitution does it authorize Congress to steal the fruits of your labor for this world government spending.

All the spending above and all the proposed spending for more unconstitutional expenditures like foreign aid is all BORROWED money with that principle and interest slapped on our backs, our children, grand children until the day the whole rotten system collapses.

BILLION of dollars in grossly unconstitutional spending that was supposed to stop if voters gave Republicans the majority in the U.S. House who control the people's purse. Like hell. They did nothing but allow such monstrous waste to go on while playing politics. When the national debt is \$19.8 TRILLION

dollars do you keep spending for all of the above? If your bank account is overdrawn do you keep writing rubber checks?

If you're the U.S. Congress you do because they can just keep borrowing from the magical money machine called the 'Fed'. The head of the beast.

"Has the Federal Reserve gone completely insane?" No. Everything is by design by the shadow government who control Washington, DC and the prostitutes who 'represent' us in the U.S. Congress. With the exception of a handful like Rep. Thomas Massie [R-KY].

NOW is the time to get together with your group or organization. Make a list of the top items Congress MUST cure instead of treat with more Band Aids:

Build the wall. Every effort must be made to shut down both our northern and southern borders before another 9/11 and worse.

[5th Circuit Reinstates Texas' Alien Harboring Law](#)

Demand your critter re-introduce Dirty Harry Reid's old bill from 1993 – the strongest anti-illegals bill I've ever read. THIS IS A PRIORITY THAT WILL SELF-DEPORT MILLIONS OF ILLEGALS. [How to Self-Deport Millions of Illegals](#) – That bill also shreds the big lie about anchor babies. A must read.

These people are in violation of federal law. Attorney General Sessions needs to go after them so tell your congress critter at a meeting to write a formal letter to Sessions and get the ball rolling. They are NOT immigrants. They're illegal aliens.

[Even in the heart of Trumpland! Families in staunchly conservative Staten Island and Alabama create an 'underground railroad' to keep immigrants from being deported](#)

Round-ups in California are in full swing. Illegals who have NO right to be on U.S. soil, but here's yet another judge who doesn't give a damn about our immigration laws: [CA Chief Justice Demands ICE Stop 'Stalking, Courthouses' And Arresting Illegal Aliens](#)

Massive hiring is now going on for more Border Patrol agents, but deportations must be stepped up; Trump has been working on it. [Trump Relocating Immigration Judges to Speed Deportations](#) Individuals who smuggle themselves across our border are NOT U.S. citizens and NOT entitled to constitutional protections.

NO more refugees. We cannot afford it. [Refugees Will Cost Taxpayers an Estimated \\$4.1 Billion in FY 2017](#) – All BORROWED with the debt slapped on we the people. This is VERY disappointing. You can send President Trump a post card and tell him NO: [Trump Budget Includes 'Significant Funding of . . . Refugee Program'](#)<>

Sure. To pay for their free medical care while you can barely pay your own premiums and someone else's through subsidies: [Diseased Refugees Obtain SSN's and Passports Upon Arrival in US](#)

The majority are Muslims who do NOT assimilate into our society or culture but rather demand WE flush our history and culture to suit them. ["Stealth Invasion: Muslim Conquest Through Immigration and Resettlement Jihad"](#) [These 73 sitting Democrats voted to ban visas from some Muslim countries. That law still exists.](#)

Obviously Obamacare. The whole thing is another Republican mess they've had eight years to work on and when the ball is thrown to them it's been nothing but chaos. Premiums and

deductables are killing people and the economy. A whole new, massive entitlement program was created by forcing John Smith to pay for a stranger's health care clear across the country. No, I am not cold hearted, but it NEVER works in the long run.

This is a critically important issue to understand when it comes to who and how our health care delivery system in this country was ruined and yet not a word about it from Republicans regarding repealing Obamacare and a so-called replacement:

Trade: Get us out of NAFTA, the WTO/GATT and all other 'free' trade agreements and treaties. Bring the jobs home to America and work for fair trade with countries that don't want to kill us.

Tax reform? Forget it. [McConnell hits brakes on tax reform](#)

Bottom-feeder, RINO, Mitch McConnell doesn't give a damn about the rape of your paycheck or social security check. He and his wife [are quite wealthy](#) and will want for nothing until they drop dead. The ONLY acceptable tax reform is to eliminate federal income taxes, period. That means getting rid of the head of the beast commonly and erroneously referred to as the 'Federal' Reserve. We will NEVER have financial freedom and prosperity until the unconstitutional 'Federal' Reserve is abolished. Ron Paul's [old 2007 bill must be reintroduced](#), passed and sent to President Trump. Anything else is just a continuation of the grand larceny perpetuated against we the people for over 100 years.

Don't just cut spending, we demand Congress abolish unconstitutional cabinets like the Federal Department of Education , the EPA, USAID and other programs stealing us blind. Tell your congress critter to work to get [Rep. Massie's bill passed](#). Get America's children out of the hands of the globalists.

So many more issues that need to be addressed and I'm sure you have your list. As your senator if you can get in the door: We DEMAND you gutless wonders start impeaching activist federal judges. Like the Maryland and Hawaii black robes who have blocked Trump's second bill to stop individuals coming into this country from countries that hate us and the fact that there is no way to vet 99% of those coming into our country.

While your critter is in your district next month, call and make an appointment. Tell the staffer you and x number of his/her constituents have the right to spend some time with the congressmn/woman to let him/her know what YOU want. Members of the Democratic/Communist Party USA are out in full force and so must we, too.

I know it's a workday, but try to find out if your congress critter will have time on a Saturday or will there be town halls while they're in town. If we don't make our voices heard loud and clear, the opposition will be there, make no mistake.

If you can't get time off work, perhaps a retired parent, aunt, uncle or friends who are retired who can ask for a meeting. We the people got out in the tens of millions to get Trump elected, now WE have to follow up no matter how busy our personal life schedules are – it's up to us.

Politely remind your congress critter of two things: (1) The

2018 election begins with the primaries in February next year, and (2) We the people are no longer suckers. We will vote for a challenger if you don't do what has to be done constitutionally, not what's politically correct or what you think might get you elected again.

Like so many other writers I spend an enormous amount of time reading on the Internet. Truly, these two columns say it all. They perfectly sum up the situation. If you can't read them now, please bookmark and maybe read at lunch or over the weekend. Share with friends and on social media. Both authors hit the nails right on the head.
