

Congressmen Who Vote For Unconstitutional Laws Are Traitors!

By Andrew Wallace

November 30, 2024

Congress continues to operate as a CRIMINAL ENTERPRISE by ignoring the Constitution and financing invaders, which is also Constitutional Treason. Congress continues to fund countless unconstitutional departments and functions of the federal government to centralize power and impoverish the people.

Those members of Congress (the majority) who vote for Unconstitutional laws should be indicted tried and put in prison. Guilty members of Congress should also be removed from office for violation of their oath to the Constitution. These criminals have no redeeming qualities, They lie and cheat by passing laws benefiting those who bribe them (the Parasitic Super-Rich Ruling Class, PSRRC).

Remember that Congress controls the money and can stop any program by denying funding, regardless of who is President.

Some of their specific major crimes are as follows:

1. Allowing the unconstitutional Federal Reserve Bank to exist.
2. Allowing Fiat Currency to exist, rather than Constitutional gold and silver money which would stop wars for profit and

inflation, etc.

3. Allowing unconstitutional FEMA to exist, when its functions are a proper responsibility of the states.

4. Allowing corrupt FBI to exist when the Constitution specifies that the Militia of the Several States is to enforce laws of the union. (Congress passed the unconstitutional Dick Act to convert the Militia into the National Guard.)

5. No law passed by Congress can override the Constitution (as does the Dick Act and countless "laws").

6. The Biden administration spent billions of dollars (contrary to law) for transportation, housing, food, and medical care for illegal invaders, while our own needy citizens did without. Money spent on invaders was not authorized by Congress and was stolen from other programs. Much of the money was stolen from the FEMA budget, which then denied services to disaster victims. Everything about FEMA is unconstitutional, and support of invaders is also Constitutional Treason. But who will charge these traitors and put them in jail? Very few people have the millions of dollars required to prosecute the criminals in government, much less face severe retribution up to death (think J.F.Kennedy, Robert Kennedy, and Trump).

7. Trump's promises will save us from almost immediate destruction, but not for long. Trump's announced actions near term will not drain the swamp or prevent devaluation and a Great Depression much worse than in the thirties because our fiat currency would be valueless. If Trump would follow the Constitution in every detail he could save the Republic! Now we have the expense of deporting all invaders, which will be substantial but less than allowing them to remain. Our country has no need for invaders with no education, no skills, don't speak English and bring only disease and crime. Unless President Trump enforces the Constitution in every detail, his

deficit will exceed two to three trillion dollars!

8. Congress has the blood of over 100,000 American service members and millions of innocents on their hands in wars for profit that had nothing to do with national security. These deaths occurred in 30 conflicts after World War Two. Congress funded these wars so the military industrial complex and Congress could profit. More than one hundred thousand Military members died and many more were wounded so members of Congress and others could get blood money. No other reason.

9. Russia invaded Ukraine because of our broken promises. We promised that if Russia would leave East Germany, we would not extend our influence further East. We lied, as usual. The CIA initiated a coup replacing the Ukrainian president who was favorable to Russia. Under new "leadership", Ukraine attacked its own people in Donbas region, blaming the Russians (false flag). Putin can't allow NATO in Ukraine any more than we could have Russian missiles in Cuba. This almost caused Nuclear War, and the same thing is happening in Ukraine. Everything the government and media tell you about Ukraine is a damn lie! There has been no peace because wars make money for the military industrial complex. Putin is right not to trust our government because they are damn serial killers. England and the United States opposed peace in Ukraine. "Our" government is deliberately attempting to cause a Nuclear War by giving missiles (with their operators) to Ukraine to attack Russia. Congress could stop this trip to nuclear war by not funding it. Congress can stop any federal action by refusing to fund it and by jailing officials who spend money not authorized by Congress.

10. Most members of Congress, bureaucrats of the Administrative State (US government), and the Parasitic Super-Rich Ruling Class are enemies of the Republic. These are collectively known as The Swamp, a criminal enterprise.

11. Anyone old enough to remember the founding of Israel in

1948 and its history of Palestinian abuse and theft of land or have read about it knows why the Arabs hate Israel. Hamas made a brutal attack on Israel knowing that Israel would use it as an excuse to decimate the Palestinians and take their land as is their wont. Israel did not disappoint. The result will be enduring hatred of Israel resulting in its eventual destruction. The United States is also guilty of genocide for giving Israel the weapons and money required (foreign aid is unconstitutional). Israel can only survive as long as we give them money and military support. It is not in the best interest of the United States to support Israel genocide.

12. Congress continues to fund unconstitutional wars for profit and to fund unconstitutional foreign aid. The United States can only be defeated from within or by nuclear weapons (this is an accepted fact). So why do we pay for offensive conventional forces such as aircraft carriers which are not needed to protect our country but to project power? It has been said that with modern weapons, aircraft carriers are floating caskets that are not needed to defend the United States.

13. Congress should terminate the CIA and FBI for being corrupt since their founding and are a danger to the Republic.

14. Newsmax reported on November 3, 2024, that the United States had 250,000 troops stationed in 150 countries. The residents in most countries don't want our military in their countries. When there is a problem, we can't defend those troops. Again Congress has failed in their oversight responsibilities and in funding these troops.

You will notice that to encourage readership that I deliberately leave many details out of my writing that are not required for understanding. Supporting facts are readily available.

God Bless You and the Republic
