

Consequences Of 25 Million Illegal Aliens In America

By Frosty Wooldridge

June 9, 2025

One look at New York City's illegal alien invasion might not create any reaction—other than illegals rioting in the streets over the weekend. But if you look at Boulder, Colorado's illegal alien invasion, Jewish people might find themselves terrified at the prospects of more Muslim illegal aliens lying in wait to set them on fire. Or, what about that Muslim who machine-gunned 13 people at Boulder's King Sooper's three years ago? All died. Or, how about one look at the plethora of Mexican flags now flying in the streets of Los Angeles—you might get the idea that our country buckles under an invasion of illegal aliens.

Millions of them now enjoy entrenchment into our society to such a degree that they feel entitled to riot, block traffic, kill and burn our cities to the ground.

Can you imagine what's it's going to be like when we start seeing Islam's black flag flying all over our streets across America? Heck, if you travel to Detroit, Michigan, that's what you will witness—black Islamic flags. How do I know? I traveled to Detroit to see them, personally. Does the chant, "Death to America" coming from Detroit ring in your ears?

Today, in 2025, our past four presidents and Congress have allowed in excess of 25,000,000 (million) illegal aliens to

take up residence in the United States.

Before Biden, the mainstream media reported 12 million illegal aliens within America. After four years of Biden/and his handlers, we understand from the Border Patrol that 12 million more entered from over 150 countries. That's 24 million illegals. Another 2 to 3 million illegal aliens, known as "gotaways", avoided capture as they slipped into our country. That's 26 to 27 million. Then, you have to figure another 10 to 20 million of their babies. That's at least 36 to 50 million people who don't belong in our country.

What are the consequences? The costs scream off the charts. The hidden costs boggle a rational person's mind. The long-term costs will upend our society in ways that will remind you of every country that's fallen into the dustbin of history.

As to the financial costs, we're talking into the billions, if not trillions of dollars. If anyone thinks we will still be financially viable with a \$36 trillion national debt that will soon be \$40 trillion, you've got another thought coming. We're in DEEP doo-doo.

Have you heard of cash-transfers by legal and illegal refugees? "In 2024, immigrants in the US sent over \$81 billion in remittances back to their home countries, according to the World Bank. Another source indicates the figure was \$79.15 billion."

That's your money flying out of your country. At the same time, you paid for millions of illegal kids' educations K-12.

Every year, you also pay for 400,000 "anchor babies", their births, their care, their food, their housing, their schooling, their ESL courses--to the tune of trillions of dollars over the past 50 years.

You paid for billions in shoplifting because you make up for it with your purchases: "In the US, retailers lose over \$13

billion annually to shoplifting. This equates to more than \$35 million per day." Entire foreign gangs engage in shoplifting. Our Congress imports entire criminal enterprises in those millions of illegal aliens.

How many cars are stolen annually? "In 2023, over one million cars were stolen in the United States. Specifically, 1,020,729 vehicles were reported stolen, according to the National Insurance Crime Bureau (NICB)."

What about our citizenship? How has it been betrayed by 1.4 million illegals leeching off Medicaid as reported last week by OMB? That's a lot of cash and services going out to people who did not earn it and are in violation of our laws.

Remember this statement: "Corruption is a mechanism by which third world countries operate." When you import millions of people from the third world, you too, become a third world country because of their sheer numbers. When they lack ethics, morality, honesty and integrity--stealing and ripping off the system is cultural.

How many illegal aliens are in U.S. prisons? "In 2023, an estimated 67,813 illegal immigrants were incarcerated in the United States."

What did those 67,813 illegal aliens do to reach prison? They raped, killed, tortured, burglarized, shoplifted, and worse--American citizens. What comes to mind? Well, that 22 year old University of Georgia co-ed Laken Riley would be alive today if not for Biden's open borders or New York City's Sanctuary status. Hundreds and thousands of Americans would not have suffered rape, robbery or death at the hands of those illegals.

What about all the jobs illegals steal from Americans or lower our wages? Oh, you hear that illegals pick the crops. Only 1 percent of illegals pick crops. They are better at picking your pocket. Oh, they do the jobs that Americans won't do.

False, every job in every town where there are no illegal aliens--gets worked and completed by the American citizens of that town. The free market always ups the wages to cover the job.

ts playing out in Los Angeles right now, with all those Mexican flags flying in her riot-torn streets? We're talking Mexican conquest of Los Angeles. Over 4,000,000 illegals inhabit California and LA to the point that the schools must teach in Spanish to detriment of taxpayers and our own students. California's schools have been downgraded to slum-level academics. In other words, illiteracy wins and education loses. LA's American kids suffer.

At the same time, U.S. House Rep Maxine Waters (D-CA) and House Rep Norma Torres (D-CA) incited more rioting. Both should be thrown out of Congress for betraying their oath of office to the U.S. Constitution. Both are anti-America and anti-laws of America.

What you're seeing is a loss of the rule of law in America. Decent and loyal American citizens don't throw rocks at our DHS, FBI and Border Patrol officers. Law-abiding Americans

support our immigration laws and the men/women who enforce them.

Without our laws, and without solid borders, America simply becomes a “destination” for criminals from all over the world. Notice how MS-13 gangs have killed off 270,000 of our kids with drug overdoses in the past four years under Biden. Or, we become a swirling mega-boiling pot of incompatible, illiterate and dangerous religions, world-views and ethnic conflict.

We didn't stop the Black Lives Matter riots. Result: deaths of police officers, billions of dollars burned up, and total loss of the rule of law. If we don't stop the riots in Los Angeles, it only emboldens all those street rioters to do even more damage to our country.

It means a total breakdown in American society. It means incompetent mayors like LA's Karen Bass or California's Governor Newsom cannot be trusted with administering our laws. Same with that buffoon Governor Walz in Minnesota. Same with that useless Chicago Mayor Johnson or Denver's Mayor Johnston. Useless, all of them!

You must ask yourself: do you want a Mayor Bass or Newsom or Walz or Johnson to run your town? Do you want lawlessness to take over? Do you want another 25 million more illegal aliens? Do you want their gangs in your neighborhood? Do you want them killing or raping your daughter? How do you think the parents of Laken Riley or Kate Steinle or Jocelyn Nungaray feel? How do those parents of those 270,000 drug deaths feel?

Finally, do you want the fabric of American society to dissolve under this immigration invasion?
