

# COVID Experimental Injections: Prosecute Now

By: Devvy

February 27, 2023

As the number of dead pile up – increasingly in the early teens to mid-twenties range for athletes, so too, is the number of severe injuries many will suffer the rest of their lives along with those now permanently disabled who can no longer work or even function without assistance.

Yes, there's been hearings here in Texas with health and safety committee members headed up by Sen. Bob Hall but those injections are still being given in the state. Sen. Ron Johnson [R-WI] brought together those injured and maimed in front of the public and media to tell their gut-wrenching, heart-breaking stories of what happened to them after getting one or more of those experimental gene therapy injections.

And that's exactly what they are: experimental. Again, both Moderna & Pfizer in their SEC (Securities & Exchange Commission) filings (Dec. 31, 2019) clearly state – [go to page 14-15](#):

“To our knowledge, there is no current precedent for an mRNA-based immunotherapy such as the type we are developing being approved for sale by the FDA, European Commission or any other regulatory agency elsewhere in the world.

“Although we expect to submit BLAs for our mRNA-based product candidates in the United States, and in the European Union, **mRNA therapies have been classified as gene therapy medicinal**

**products**, other jurisdictions may consider our mRNA-based product candidates to be new drugs, not biologics or gene therapy medicinal products, and require different marketing applications. Securing regulatory approval requires the submission of extensive preclinical and clinical data and supporting information to the various regulatory authorities for each therapeutic indication to establish the product candidate's safety and efficacy.

"Any product candidates we develop may not be effective, may be only moderately effective, or may prove to have undesirable or unintended side effects, toxicities or other characteristics that may preclude our obtaining marketing approval or prevent or limit commercial use."

The FDA then gave them permission using EUA, Emergency Use Authorization, when there never was any emergency. It was hysteria birthed and screeched non-stop by the prostitute media 24/7 using optics and the fear factor. The human world then became their guinea pigs. The number of COVID cases is a big, fat lie based on use of PCR testing. The PCR test is a manufacturing technique, NOT a diagnostic tool.

So what is gene therapy? A vaccine?

[What Is Gene Therapy?](#) A New Type of Therapy for Genetic Diseases, Feb. 7, 2022. (Emphasis mine): "Gene therapy is a type of treatment being developed to **fight diseases that are caused by genetic defects**. This is a relatively new medical intervention that is **mainly in the experimental phase**, including human trials and animal trials, for the treatment of some conditions, such as cystic fibrosis.<sup>1</sup>

"Gene therapy aims to change the unhealthy proteins that are produced as a result of disease-causing genes....**Possible Tumor** – A new DNA sequence that's inserted into a person's genes could potentially lead to a mutation that could cause cancer to form."

So, gene therapy is a medical intervention to fight diseases caused by genetic defects. Well, the world has been told COVID-19 is a virus not a genetic defect. I am not a doctor, scientist or lawyer but I'm not stupid, either.

[Idaho doctor reports a '20 times increase' of cancer in vaccinated patients](#), Sept. 19, 2021 – “Post-vaccine, what we are seeing is a drop in your killer T-cells, in your CD8 cells,” said Dr. Ryan Cole. BOISE, Idaho (LifeSiteNews) – “A doctor has found an increase in cancers since the COVID-19 inoculation rollout.

“On March 18, Dr. Ryan Cole, a board-certified pathologist and owner and operator of a diagnostics lab, reported to the public in a video produced by Idaho state government’s “Capitol Clarity” project, that he is seeing a massive ‘uptick’ in various autoimmune diseases and cancers in patients who have been vaccinated.

“This doctor trained at the Mayo Clinic and runs the largest independent testing laboratory in Idaho. “Since January 1, in the laboratory, I’m seeing a 20-times increase of endometrial cancers over what I see on an annual basis,” reported Dr. Cole.”

[Dr. Ryan Cole: Cancer Biopsy Results – “Every Malignant B-cell Has Spike Protein In It”](#), Feb. 12, 2023 – “Dr. Ryan Cole’s biopsy results may explain the shocking rise in mysterious, aka turbo cancers – He explains there is spike protein “Inside Every Single Cancer Cell”. What’s inside of every cancer cell? Spike protein. Every malignant B-cell has spike protein in it.”

[Cells Don’t Lie: Cancer is on the Rise Due To Genetically Modifying mRNA Injections](#)

*“The spike protein is a toxin,”* says pathologist Dr. Ryan Cole and it is also almost certainly causing cancer in many cases. *“We know that the spike protein can induce cancer pathways.*

*It's happening. Cancers are on the increase across the board,"* says Cole. Edify Research and Consulting recently published a report on the rise of cancer due to mRNA injections.

*(Wendi Strauch Mahoney) "Cole says it doesn't matter who the manufacturer is, "they all make the spike protein." Dr. Cole has been a pathologist for 26 years and has "never seen anything like this." Cole examines blood and performs biopsies on tissue regularly. "Cells don't lie, clots don't lie, damaged organs don't lie,"* said Cole in his October 22 interview with Jan Jekielek on Epoch Times TV. Trained at the Mayo Clinic, Cole practices *"high-volume pathology."* He believes he has done more biopsies than most biologists—around 500,000, a number that represents the *"career of three biologists."* Cole said in an introductory video in the report:

*"Lymphomas, leukemias, blood cancers [are on the rise] because that spike goes to the bone marrow. The lipid nanoparticle carries the mRNA to your dividing stem cells. Because it doesn't stay in the arm, it can go into any cell in your body, and it turns that cell into a spike factory. It inhibits the ability of your DNA to repair itself. It binds to our mitochondria and destroys the energy of our brain cells. [It] Destroys the energy of our liver cells and destroys the energy of any cell that gets into your own immune system, attacks those cells. That spike protein causes mechanisms of cancer in many people. And I've been seeing that in the lab. I've been having it confirmed by oncologists, radiologists, radiation oncologists, and pathologists all around the world as I travel,"*

*"In another interview with Steve Kirsch on October 16, Cole also states he is seeing people pass away 5 to 6 months after the injection. "The spike protein causes inflammation in the blood vessels, and blood vessels are in every organ of the body,"* adds Cole. He contends it is the chronic inflammation in the vessels that can cause chronic disease over time,

whether it is coronary disease, cancer, or other potentially fatal diseases. It is important to note that the spike protein present from natural infection clears much more quickly from the human body than does the spike protein from the mRNA injections.”

**Despicable.** Have they no shame going after a doctor who is trying to warn the public about the dangers of those experimental gene therapy injections? Disinformation? You people disgust me. [Statement of charges served on physician license of Ryan Cole](#)

OLYMPIA, WA – “In January 2023, Washington Medical Commission (WMC) issued a statement of charges against the Washington physician license of Ryan Cole, MD (Lic. #00048229). Dr. Cole resides in Idaho, but holds a Washington license to practice as a physician and surgeon.

“The statement of charges alleges that Dr. Cole made numerous false and misleading statements related to COVID-19 and treated patients with COVID-19 or seeking to prevent getting COVID-19 in a manner that was beneath the standard of care.”

Saving lives is beneath the standard of care because it goes against the **official political narrative** and isn't a **money maker for the pharmaceutical industry**? You can call them (no threats just facts) and give your opinion about punishing a great doctor and surgeon for his courage *purely for political reasons and CYA*: Washington Medical Commission, (360) 236-2750. [Halt Covid Vaccine, Prominent Scientist Tells CDC, May 8, 2021](#) by Jennifer Margulis. “In a public comment to the CDC, molecular biologist and toxicologist Dr. Janci Chunn Lindsay, Ph.D., called to immediately halt Covid vaccine production and distribution. Citing fertility, blood-clotting concerns (coagulopathy), and immune escape, Dr. Lindsay explained to the committee the scientific evidence showing that

the coronavirus vaccines are not safe.

“On April 23, 2021, the CDC’s Advisory Committee on Immunization Practices held a meeting in Atlanta, Georgia. The focus of this ACIP meeting was blood clotting disorders following Covid vaccines. Dr. Janci Chunn Lindsay spoke to the CDC during the time set aside for public comment.

“Hi, my name is Dr. Janci Chunn Lindsay. I hold a doctorate in biochemistry and molecular biology from the University of Texas, and have over 30 years of scientific experience, primarily in toxicology and mechanistic biology.

“In the mid-1990s, I aided the development of a temporary human contraceptive vaccine which ended up causing unintended autoimmune ovarian destruction and sterility in animal test models. Despite efforts against this and sequence analyses that did not predict this.

“I strongly feel that all the gene therapy vaccines must be halted immediately due to safety concerns on several fronts”.  
Janci Chunn Lindsay: Covid vaccines could induce cross-reactive antibodies to syncytin, and impair fertility as well as pregnancy outcomes. First, there is a credible reason to believe that the Covid vaccines will cross-react with the syncytin and reproductive proteins in sperm, ova, and placenta, leading to impaired fertility and impaired reproductive and gestational outcomes.

“MIT scientist also concerned about blood-clotting, fertility issues. Stephanie Seneff, Ph.D., an expert in protein synthesis, believes that Dr. Lindsay’s hypothesis is correct. “I absolutely share these concerns,” Dr. Seneff, who is a senior research scientist at MIT, wrote to me in a sobering email.

“The potential for blood clotting disorders and the potential for sterilization are only part of the story. There are other potential long-term effects of these vaccines as well, such as

autoimmune disease and immune escape, whereby the vaccines administered to immune-compromised people accelerate the mutation rate of the virus so as to render both naturally acquired and vaccine-induced antibodies no longer effective.”

“Like Dr. Lindsay, Dr. Seneff believes we need to immediately halt Covid vaccine campaigns. “This massive clinical trial on the general population could have devastating and irreversible effects on a huge number of people,” Seneff explains.”

All ignored by the CDC. Fertility clinics will be doing a booming business down the road. Scientists have been trying to produce a safe vaccine for coronaviruses for over 20 years and *have never succeeded*.

[Autopsies Reveal Medical Atrocities of Genetic Therapies](#), Feb. 17, 2023 – Burkhardt Group Conclusions confirm Dr. Bhakdi’s warnings

All these highly educated, highly trained doctors and scientists world-wide with decades of experience – they must all be conspiracy theorists, “anti-vaxxers”, MAGA cult members or stupid. We’re talking about crimes against humanity here. The suffering and agony of the victims, their families and friends. We’re talking about TRILLIONS of dollars over the long term. I wrote last year COVID-19 was formulated to be endemic and now that is finally being mentioned by some media. Those bioweapons and worthless boosters x 3 or 4 billion people year in and year out. Cha-ching.

[Prosecute Now](#) is Dr. David Martin’s web site. Regular readers know who he is and all his work exposing the fraud and criminal activities involving COVID-19 and those experimental injections. There’s a video on his site every American – including gutless politicians and judges – should watch: [Doctor testifies under oath of perjury that COVID was created as a bio weapon](#). “Cardiologist, Nuclear Cardiologist, Physicist, PhD, MD and JD, Dr. Fleming under oath describes

the Spike protein bio weapon timeline and the parties involved in its development.”

**The people responsible for all this are lunatics and maniacs in the truest sense of the word.**

I am thankful my late husband and I left Sacramento, CA and moved to my small city in W. Texas in 2006. We have a real meat/chicken (like the “old” butcher shop) store. I KNOW where the cattle come from and whether they’re grass fed and other critically important things people should know before they put something in their body.

[mRNA Vaccines in Livestock and Companion Animals Are Here Now](#), Jan. 13, 2023. Oh, that will spin your head.

**It’s not going to stop until those responsible are indicted, tried and I believe will be convicted of many crimes.** They should all be indicted: EcoHealth Alliance, Inc., Peter Daszak, Janet Daszak, Ralph Baric, Dr. Robert Redfield, former head of the CDC who skedaddled when the heat started with lawsuits, new CDC liar, Director Rochelle Walensky, CEO’s of Pfizer, Moderna, Dr. Death Fauci and many others.

[COVID litigation conference next month in Atlanta](#), Feb. 15, 2023 – “In March, VSRF is partnering with the Mendenhall Law Group to host the [Covid Litigation Conference 2023](#) (CLC 2023) from March 25-26 in Atlanta, Georgia. Over the next 10 years, Covid lawsuits are expected to see huge growth, an unfortunate development that reflects the need to bring justice in the courts for hundreds of thousands of people negatively impacted by harmful Covid-19 policies.

“Our speaker list continues to expand and includes Mary Holland (Chief Counsel of Children’s Health Defense), Tricia Lindsay (Tricia Lindsay Law), Robert Barnes (Barnes Law, LLP), Warner Mendenhall (Mendenhall Law Group), Jeff Childers (Childers Law), and Bobbie Ann Flower Cox (Cox Lawyers, PLLC).

In July 2021, I wrote about Martin's efforts regarding criminal prosecution under the federal RICO Act (Racketeer Influenced and Corrupt Organizations) as well as what I researched at the state level: [Little RICO Acts.](#)

I have finished a project which took *a lot of time* but talking about these crimes as people continue dying or develop horrible medical conditions isn't going to change anything. The guilty must be prosecuted. I am pursuing a county grand jury and state Little RICO Act indictment.

First, an attorney I know in my city works with our county District Attorney whom I don't know. Here in Texas there are four categories: [What Can the Grand Jury Investigate?](#) No. 4: Any matter initiated by any credible person. That would be me.

I put together the first two files and yes, I printed all the material. My poor 10-year-old printer is pretty worn out. The two files were heavy and thick. I put all the material in those legal multi-section folders used in the legal system. You can't go to a gun fight without a gun. *This is as serious as it gets in the legal and political arena.* I've made it very easy as you'll see for anyone reading those two files to check and verify.

Once I was finished, I took one set to the attorney mentioned above and asked him to please get it to our DA. I am requesting he impanel a grand jury. I overnight mailed (\$39.90) a set to our newly elected state senator, Kevin Sparks at the state capitol. My request to Sen. Sparks who's a very intelligent, caring individual is to get it to our state Attorney General Ken Paxton to file a state Little RICO Act against the individuals I list in my cover letter.

These elected officials are all buried in legal work and cases so by printing out everything, you save them the time; it took me a lot of time to read and evaluate just what I should put

in my presentation and requests.

File One, [Who Created SARS-Co-V-19, When, Where and How it Got to Wuhan, China](#) is on my web site at the link above.

File Two is also on my web site, [The Dead Book – Deaths, Serious Injuries, Permanently Disabled Doctors, Scientists: Pull Those Experimental Injections from the Market](#) – Extensive list but scroll through the whole thing and then go back for reading. It's shocking.

I also sent, priority mail, a set to Florida Gov. Ron DeSantis with a cover letter which I simply stated I know a grand jury [is beginning work on this issue](#): “The approval came after DeSantis on Dec. 13 submitted a request that alleged “there are good and sufficient reasons to deem it to be in the public interest to impanel a statewide grand jury to investigate criminal or wrongful activity in Florida relating to the development, promotion, and distribution of vaccines purported to prevent COVID-19 infection, symptoms, and transmission.”

And, oh how the “left” got their knickers in a twist slapping on the usual labels. Delicious. In my cover letter to DeSantis, I simply said I was making the research and information available as I know a grand jury is underway. Those all went out Feb. 8, 2023. Then I put together a third file which I sent to DeSantis and Sparks on Feb. 24, 2023 because two things came up. Today I will drop off a copy to the attorney here to give to our DA and hope I can sit down with him soon regarding impaneling a grand jury. Contents of third file below. Just a note: The list below using a search engine – all buried way, way down the list of ‘More Results’. All preceded by BS ‘fact-checkers’ and how wonderful and safe those “vaccines” are, blah, blah, blah.

I also informed all of them of the two things below.

First: [Idaho lawmakers introduce legislation to criminalize those who administer COVID vaccines](#), Feb. 20, 2023. Educate them and then charge if any hospital, clinic, pharmacy or doctor continues giving those dangerous injections.

Second: Karen Kingston (her bio is in this file) gave a presentation in front of the Collier County Florida Commissioners for 20 minutes explaining why those experimental injections are bio weapons. Of course, the local media (black-out by the "mainstream" liars) sanitized her presentation by ignoring the core issue. Kept coverage to cover only funding for migrant education.

The vote was 5-0 to return \$167,000 in grant funding (unconstitutional, of course) from the CDC (Center for Disease Creation). Ms. Kingston was interviewed by Stew Peters about that hearing and her presentation. It's just under 14 minutes and can be found here: [Groundbreaking Testimony Changes Everything: Florida County RETURNS CDC Funds After Confirming](#)

## [Vaxx is a Bioweapon](#)

This fake news vomit is epidemic in this country. Notice how they drag the sewer to lump in looney conspiracy theories to discredit the individuals involved. [Lee County GOP Takes Controversial Move on Covid-19 Vaccines](#), Feb. 24, 2023. (The author no doubt has probably taken those injections and is in denial so attack the messenger, not the message and I can guarantee you, *he hasn't done 90 seconds of research.*) "If the Lee County Republican Party has its way, Covid-19 vaccines will not be allowed in the state of Florida. Yes, you did hear that right. A "Ban the jab" resolution was passed by the Party with a majority vote. It will now go to Florida Governor Ron DeSantis (R) for his consideration."

It's up to the people of Florida to demand those "vaccines" are withdrawn statewide.

Fourth and final document for our DA and my state senator: [Executive Summary for Litigation of PLANDEMIC Crimes](#) | Dr. David E. Martin. Very important document.

Now, I did all of this myself. Yeah, I'm very tired, no one pays me to do this work or pays me for paper, ink, postage and time (my days are full, believe me). *I'm just like so many great people around the world sacrificing our time to stop this madness.* Americans are dying in record numbers everyday; they're developing cancer and autoimmune diseases ruining their lives and leading to premature death. Babies, kids, teens dying. [CDC adds COVID-19 vaccines to official immunization schedule for kids as young as 6 months](#), Feb. 20, 2023. When pigs fly. **It has to stop and the only way is to go after the guilty with**

## **criminal indictments.**

Delegate the work. Gather friends and do the same as I did. Each take a certain amount of printing, the cover letters, etc., and go after your county District Attorney and state Attorney General. Likely “blue” or socialist/communist states like NY, CA, OR, MI, MN and others won’t be interested, but *try at the county level.*

If we do nothing, nothing gets done. We can oppugn about those injections ‘til the cows come home but it’s a plan and action that brings success. There are now huge cracks in the dam so we MUST keep the pressure on until the dam breaks.

The Dead Have Names – In File Two you’ll see the dead and maimed. These are new since I did that file. I’m sure there are more. Schools, colleges, universities, professional sports, doctors, nurses making those experimental injections mandatory. Well, must all be just a coincidence or wacky conspiracy theory. A grand jury has subpoena power as well as a state Attorney General who files a Little RICO Act. Go after those CMS data banks.
