

COVID Injections, Toxic by Design

By J.W. Bryan

According to an article, "[Evidence of the Conspiracy to Commit Mass Murder by the DOD, HHS](#)" by Sasha Latypova, posted by Forbidden Knowledge, the so-called, pseudo vaccine used in the COVID-19 injections is toxic by design with intent to harm.

In this presentation of "Intent to Harm," she says, "I'm going to discuss evidence of conspiracy, which is not a theory, of the U.S. Department of Defense, Health and Human Services, other government agencies, and other governments all over the world in collusion with pharmaceutical companies; a **conspiracy to commit mass murder through bioterrorism and informational warfare operations, worldwide.**"

The fact that the policies governing the implementation of this So-called pandemic were put into effect, almost spontaneously, throughout the world, confirms the existence of the conspiracy. It is the only way it could have been brought to fruition.

Latypova continues: "That the evidence is overwhelming that there is an intent to harm people by the COVID-19 injections, so-called "vaccines" and other nonsensical COVID response measures implemented, in lockstep by governments all over the world."

This too, confirms the existence of the conspiracy.

“And, as an example, these injections are toxic by design. We know this. There has been an extensive body of literature, studies, scientific discussions, evidence published on this matter. There are numerous mechanisms of injury built into the COVID-19 injections, the most important one being that these shots are designed to make your cells attack themselves; make your cells express antigens that are toxic (spike proteins) and then create antibodies to attack the cells. So, it trains your body to destroy itself. Toxic by design.”

In reference to the **numerous mechanisms of injury built into the COVID-19 injections** noted above, there is a recent report from Germany involving several people who succumbed to a massive heart attack 28 days after receiving the shots.

A scientific investigation, attended by six scientists, revealed that the heart was caused, by signals from other cells to speed-up to the point that it ran out of blood to pump causing death to follow very shortly.

Continuing, Latypova points out the absence of safety in the shots – that there is an horrific death and injury toll recorded in numerous datasets that are designed for pharmacovigilance, such as VAERS, vSAFE, Eudravigilance, Yellow card and so forth. And we know today, there are millions of reports of injury and death. Permanent disability and sadly death in very young people, including children, has become common.

Ms. Pavylova alludes to the absence of efficacy in the vaccines, “In fact we know that there is negative efficacy, meaning these shots make you more likely to get sick and die.”

There is extensive evidence, from many reports, confirming that this is happening throughout the world; not only are many getting sick, with some dying, but according to multiple reports many are dying shortly after injection of the “vaccine.”

She points to the lack of good manufacturing practices, that “There’s extensive evidence of bad manufacturing of these products. I covered it a lot in my own work, and I know that there is highly variable production of these shots. I demonstrated it in many ways. We have documentation of this coming directly from the manufacturers and from regulators.

“They’re not compliant with Good Manufacturing practices and importantly, there is no enforcement of Good Manufacturing practices worldwide for these products.

“We also know that there is malignant government policy all over the place and it’s surprisingly consistent across all countries of the world. The Governments are all lying, covering it up, gaslighting of the injured. Persecuting of dissent, whistleblowers, especially when they’re professionals such as myself; professionals like permanent doctors who are speaking against these measures and there is massive collusion with the media, who are all engaged in informational warfare and propaganda.”

And then there’s this:

“And especially, perverse financing. So, the money flow is tremendous and it’s all funding this crime, funding doctors, nurses, vaccinators, university administrations, employers, government officials, funding them all to continue to commit this crime.

“The crime is very clear and there is very clear intent to harm.”

Why is there no action by the regulators?

That’s a key question. Why, given all this, has no one stopped this? The FDA did not recall the EUA, the FDA did not recall the product and there’s been no enforcement of the Current Good Manufacturing Process (CGMP).

Well, the answer is because **Health and Human Services Secretary, Javier Becerra**, and FDA Commissioner, **Robert Califf** are running the US Government's bioterrorism program jointly with the U.S. Department of Defense, Secretary **Lloyd Austin**, the Department of Justice, Attorney General **Merrick Garland**, Department of homeland Security, **Alejandro Mayorkas**, Pfizer CEO, **Albert Bourla**, Moderna CEO **Stephane Bancel**, World Health Organization Director-General **Tedros Adhanom Ghebreyesus** and many other government and defense officials.

This is as much of the article as I can cover, it is very long; but you need to read the entire article. Click on the link, "[Evidence of the Conspiracy to Commit Mass murder by the DOD, HHS](#)" by Sasha Latypova.

In connection with the foregoing, please see my article, "[Millions of Children Targeted by the FDA](#)" of December 12, 2021.

When the FDA approved the current (at that time) Pfizer "vaccine" they signed a death warrant for millions of children across the globe.

Dr. Richard L. Fleming, PhD, M.D., J.D., contacted the FDA concerning the safety and efficacy of the COVID "vaccine." He was assured by them, in words to the effect, "That it was everything a vaccine should be, 'very pristine.'" However, it appears that Dr. Fleming was somewhat dubious, so he and his team went into action with tests to either confirm or reject the FDA's claim. [Link](#)

One of my previous articles from May 21, 2021, "[The Cornucopia of Deceit, Lies and Ultimate Evil](#)", relates to what is now going on.

According to a [bitchute.com/video](#), and an official UK document from the Ministry of Health reveals that COVID never existed.

This, of course, is something many of us have known from the

outset. The genesis of it was launched from the Wuhan lab. This is where the “COVID virus” supposedly escaped from. This posed a question in my mind, for somehow it had been leaked out that the virus could not be seen. Therefore, that being the case – if it could not be seen, then it could not be isolated for the making of a vaccine.

There is much which can be said about the above; for instance, if it cannot be seen – how do they know that it escaped? Or how do they know it was in residence to begin with?

And, if it existed, why was it stored at the Wuhan lab? In fact, what is the purpose of this lab? Why would they spend hundreds of millions of dollars to maintain a lab in which to store a virus that cannot be seen and was allowed to escape? Or so they say.

Something else which revealed the fallacy of all this was a report noted about a discussion/conversation between the pros and the cons of the issue.

The question was, “if the virus can’t be seen, how do you know it’s in there?” Answer: words to the effect, “we know it’s in there, but it can’t be seen because, (and here it was stated) that some element of the nomenclature of our optical powers wasn’t strong enough to see it.”

The response: what if it was 100 times stronger? Answer: No. What about a thousand? Answer: No. What about 10,000? No answer.

All of that aside, it should be a given in anyone’s mind, if they would only consider the existing evidence – that the COVID virus doesn’t exist.

Jon Rappaport lays it all out in his January 29th, 2021, article in the People’s Voice.org.

“By far, the biggest sources of illness we are dealing with

are lung conditions: various kinds of pneumonia; flu and flu-like disease; TB; other unnamed lung/respiratory problems.

"THESE ARE BEING RELABELED "COVID," It's a repackaging scheme. People are dying for those traditional reasons, and their deaths are being called 'COVID.'

"None of the COVID deaths" anywhere in the world requires the existence of a new virus.

"For instance, in Wuhan, where the whole business began, the first 'COVID' cases of pneumonia occurred in a city whose air is HEAVILY polluted. In China, every year, roughly 300,000 people die from pneumonia. That means millions of cases. None of those deaths need to be explained by invoking a new virus.

"There is no evidence that an actual germ is traveling around the world felling people. The 'evidence' is invented.

"The 'pandemic' is invented.

"The fraud is promoted."

I realize that what we present as evidence is ignored by the forces we oppose. Evidently, they are confident that all channels for us to bring forth any consequences for their actions is blocked. However, more people are becoming informed about what is being done to them, and as more folks awaken, with many more people either dying or being seriously injured for life, it could result in the development of a situation that could be very uncomfortable for those who are causing the deaths and injuries.

Recent reports have surfaced which indicate this may have already begun.

Australian Senator Gerard Rennick has accused health authorities and Big Pharma of lying and engaging in pay-outs in the development and distribution of COVID vaccines.

Rennick's statements made to the Senate on record raise serious concerns about the trustworthiness of those responsible for our healthcare and have led to his calling for an investigation into the potential corruption and misinformation surrounding the COVID vaccine industry.

According to Dr. Joseph Mercola: on 30 November 2022 in a Parliamentary speech, Gerard Rennick, Senator for Queensland, Australia, reviewed some of the lies told by members of Parliament and the Department of Health about the COVID injections.

I listened to his speech twice. He really laid into them. I wish I could have been present to observe their expressions as he told them off.

There's no way I can do justice to this report. You need to read it yourself.

Log on to "[Grand Jury to investigate COVID vaccine Crimes in Florida as Australian Senator demands investigation into Corruption & Bribes paid to Health Authorities by Pfizer](#)"

Then there's this:

Meanwhile, Florida Governor Ron DeSantis has taken a stand against such misconduct, [petitioning the Florida Supreme Court for a grand jury investigation into the matter](#).

If our Congress and Senators cared about the people they supposedly serve, there would be many of them speaking out against the COVID injections the way Senator Rennick is doing in Australia. At present, US Senator Ron Johnson (R-MN) stands out as a lone warrior and advocate for the COVID vaccine-injured in the US.

I would hope that the findings of the Grand Jury investigation, if it happens, will support what we know to be the truth about the so-called pandemic.

Also, I hope that its findings will confirm that the so-called “vaccine” is the cause of many deaths and serious life-time injuries, and considering all evidence, the so-called “vaccine” was specifically designed to either kill or seriously injure millions of people to depopulate the earth by, at least, 85 percent.

Send this to your Senators and Congress person.

I will send it to mine.

In addition, share it with as many others as possible.
