

Cruz and his media try to bring down Trump

If ever time should come, when vain and aspiring men shall possess the highest seats in Government, our country will stand in need of its experienced patriots to prevent its ruin. –Samuel Adams

If a republican government fails to secure public prosperity and happiness, it must be because the citizens neglect the divine commands, and elect bad men to make and administer the laws. –Noah Webster

Romney and Beck Join Together to Win Utah for Cruz

Here's how they took Utah, but it's more than the state having a large Mormon population. [Romney and Beck](#), both Mormons, helped Cruz to win Utah in order to keep Trump from gaining the delegates.

However, A [Soros board member chaired the firm running online balloting for Utah's caucus](#), and the [voter fraud in Utah is also linked to the same source, Soros, and the United Nations](#). Sen. Ted Cruz walked away from Utah with the state's 40 delegates, but some voters left disillusioned due to billionaire George Soros' ties to the process and fishy behavior at caucus sites. [[Link](#)]

 The internet based voting process is run by George Mark Malloch-Brown, the chairman of Smartmatic. He is on the board of billionaire George Soros' [Open Society Foundation](#) and has personal ties to the billionaire. Malloch-Brown, was a former UK government minister (2007 – 2009) and [United Nations Deputy Secretary-General](#)(2006), as well as development specialist at the World Bank and United Nations (1994- 2005), and a

communications consultant and journalist.

Most folks understood Trump would lose Utah when Romney re-entered the political scene. What must be galling to Donald Trump is the amount of money he donated in 2012 to Romney's campaign when the latter asked Trump for help. But then again, maybe Trump is used to this by now. The entire purpose of Kasich and Cruz staying in the race is the hope of bleeding off delegates resulting in a brokered convention to keep Trump from the nomination.

Cruz Blames Trump for Belgium Attacks

✘ Even with all this, I'm surprised that Utah voted for "open borders" Cruz after the Islamic terrorists injured so many Mormons in the Belgium attack.

Yet, Cruz had no trouble blaming Trump for the Belgium attacks. Don't try to say he didn't, it's [right there in the video](#).

Ted Cruz and the GOPe jumped into the fray of Soros Chicago politics and actually blamed Donald Trump for the protests. According to Ted Cruz, Trump is to blame for not being politically correct, and thus causing the protests and violence. Anti-Trump protesters are now admitting they were hired on Craigslist, and several admitted answering [a Craigslist ad paying \\$16.00 an hour for protesters](#). [[Link](#)] The lead anti-Trump protester in Arizona was also just exposed as a Soros community organizer. [[Link](#)]

Cruz Blames Trump for Violence

Ted Cruz's campaign issued a statement Tuesday afternoon in response to the charge against Donald Trump's campaign manager, Corey Lewandowski, taking issue with the "behavior" of his GOP rival's campaign.

"Unfortunately, this abusive behavior seems to be part of the

culture of the Trump campaign,” said Alice Stewart, Cruz’s campaign manager. “Personal attacks, verbal attacks, and now physical attacks have no place in politics or anywhere else in our society.”

Again, this is total hogwash. Corey Lewandowski was charged with misdemeanor battery after [allegations of forcefully grabbing a reporter at a Jupiter news conference](#). Following a March 8, conference at Trump National Golf Club, Michelle Fields, a 28-year-old reporter formerly with Breitbart News Network, said she was grabbed on the arm by Lewandowski, 41, after she asked Trump a question about affirmative action.

Fields, who [Tweeted photos](#) of bruises on her arm she said resulted from the battery, [resigned Breitbart less than a week after the incident](#). She cited Breitbart’s refusal to stand behind her amid the allegations as her reason for leaving.

Lewandowski [replied to Fields’ Tweet](#), writing: “You are totally delusional. I never touched you. As a matter of fact, I have never even met you.”

Ben Shapiro, former Breitbart editor-at-large, [also resigned](#), claiming in a prepared statement that the conservative news outlet, seen largely as supportive of Trump’s presidential bid, “abandoned” Fields “in order to protect Trump’s bully campaign manager.”

Several other employees followed suit in the following weeks and resigned, according to multiple reports.

Video: [Donald Trump’s campaign manager allegedly grabs reporter at event](#).

So, you’ve got Cruz supporters, Ben Shapiro and Fields both resigning from Breitbart, but what they aren’t telling you is that [Breitbart is owned and funded by Robert Mercer](#), and Mercer is the main donor behind four of Cruz’s Super Pac’s, who raised a total of \$31 million. Makes you wonder if Fields’

allegations were true or not since Breitbart wouldn't back them up.

Members of the secret service have said that Fields touched Trump twice before Lewandowski intervened. She was warned she was too close to the presidential candidate. [[Link](#)]

[Here is Trump's video](#) on what happened to Corey Lewandowski.

We've Got a Voice Now with Trump

Billy Inman's son was killed, and his wife crippled when an illegal alien rear ended their car at 60 mph. Their son was killed instantly, and he and his wife terribly injured.

"It's like we've got a voice now. People are listening," says 53-year-old Billy Inman, whose teenage son was murdered by an illegal alien nearly sixteen years ago. "Donald Trump gives us a little bit of hope. ... For years, I'd talk to our 'elected ones,' and it was like talking to a wall ... [but] Donald Trump is bringing us onto his stage."

✘ Inman said that he does not believe any of the other politicians running for president are committed to securing the nation's borders. "Cruz is a talker," Inman explained, adding: "He can talk about it, but I haven't seen nothing done. He might come out—especially during election times—and say, 'This needs to be done, and that needs to be done,' but nothing has ever gotten done on illegal immigration with any teeth to it. ... He's going to be more of the same. He didn't say nothing about this until after Donald Trump got into it. Why?"

"I wish he [Cruz] cared as much about American people—and got as angry about what's happened to us—as he's gotten about Donald Trump tweeting about his wife," Inman said. [[Link](#)]

Cruz and Bimbo Eruptions

This all started with a [pro-Cruz Super Pac](#) putting out the GQ magazine picture of Melania Trump posing nude, although the photo doesn't show much. Most people are speculating that it was purchased or approved for purchase by Ted Cruz's campaign manager Jeff Roe. Given Jeff Roe's long history of [running dirty campaigns](#) I would not be surprised. If someone from Ted Cruz's campaign is involved, that would be a violation of the FEC rules. Not that Senator Cruz takes [those rules](#) very seriously.

Ted Cruz did not denounce the ad run by the pro Cruz Super-PAC. It makes you wonder why Ted Cruz [gets a pass](#), but Mr. Trump is denounced for re-tweeting a side by side photo of his wife and Heidi Cruz. It should also be noted that Donald Trump defended Ted Cruz when his children were depicted as monkey's. Here's his tweet:

 [Donald J. Trump Verified account?@real Donald Trump](#)

The [@washingtonpost](#), which is the lobbyist (power) for not imposing taxes on [#Amazon](#), today did a nasty cartoon attacking [@tedcruz](#) kids. Bad

For the record the story about Ted Cruz's Sex Scandal has been reported as having been leaked by the [Rubio campaign](#), but Ted Cruz blamed Donald Trump. This is Cruz's modus operandi...blame Trump.

[Bill Still is reporting](#) that the number of Cruz babes has now reached eight.

In this article, [Texas Lobbyist and Ted Cruz Operative Admits Origin of Campaign to Attack Donald Trump's Wife...](#), a video from early March clearly shows the origin of the Ted Cruz campaign plan to target Donald Trump's wife, Melania. Here's the interesting part of this expose' from The Conservative Tree House:

Liz Mair's Super-PAC "[Make America Awesome](#)," took their

marching orders and began sending controversial flyers of Melania Trump to upcoming states. Thus kicking off the response from Donald Trump in defense of his wife.

However, as with all campaign machinations, and poorly hidden campaign to Super-PAC coordination efforts, there's a little more to this story.

✘ *Look closely at the mailing address for Liz Mair's [Super-PAC](#): [Make America Awesome, P.O. Box 26141, Alexandria, VA. 22313]*

✘ *Now look at the mailing address for Carly Fiorina's [Super-PAC](#) (Carly for America):[Carly for America, P.O. Box 26141, Alexandria, VA. 22313]*

The post office box is exactly the same.

Please America, you are being suckered by Cruz and Co. the same way you were suckered with Obama's Hope and Change. Please, may God wake you up before it's too late.

Again, as with almost all of the discoveries within this political cycle, we discover the same political operatives are working multiple campaigns. In essence, the heart of the "splitter strategy" is evidenced. Multiple candidates all coordinating their efforts and campaigns toward a common goal, retention of the UniParty. (And elimination of the front runner and America's choice, Donald J. Trump.)

Ashley Madison

In Dr. Eowyn's article, [Ted Cruz's Senate e-address was a Subscriber of Ashley Madison Adultery 'dating' Service](#), she exposes the following:

Last July, [Ashley Madison](#), the Canadian-based online "dating service" for adulterers with 37 million subscribers, was

hacked by a group that calls itself the Impact Team.

The hackers made public the personal information of the subscribers, including their names, email addresses, and sexual fantasies. Some of the subscribers actually used their work email addresses, as shown by the many addresses that end in .gov, .mil, a company name (e.g., WellsFargo), a university name (UTexas), and even the United Nations.

*What we weren't told then is that there was one U.S. Senate email address among the Ashley Madison subscribers – **the email address of Ted Cruz's senate office.***

Conclusion

Cruz is a first term senator, ineligible for the office, and his birth and citizenship records are sealed. Doesn't this sound familiar? Cruz is nothing but Obama in Republican drag, and his globalist intentions are the same. Check out [this 12-minute video](#) that explains Natural Born Citizen.

Jeb Bush's endorsement of Cruz is very telling, especially since both Cruz and his wife Heidi worked for Jeb's older brother, George W., and the globalist cabal sticks together. [Infamous Silverado Banking scandal brother, Neil Bush](#), is also on Cruz's campaign staff. George W. however cannot stand Ted Cruz.

The American public should surely see by now what is happening, and that we have only one party, a snake with two heads.

The GOP keeps searching for ways to stop Trump. Donald Trump captured victory in Louisiana by a narrow 3.6 percentage points over Texas Sen. Ted Cruz during the state's Mar. 5th primary, 41.4% to 37.8%.

But despite victory in the state, Trump is set to lose ten delegates to Cruz – and Trump is preparing a lawsuit over it. [[Link](#)]

The bottom line is that all these establishment people have joined together to stop Donald Trump because Trump is not a GOP approved globalist candidate. Things have turned topsy-turvy for the elitists in charge. They are dragging out the biggest artillery to destroy Mr. Trump, hoping beyond hope that something they do will work to ruin his charge toward the GOP nomination. Should Trump lose a couple more important states to Lyin Ted Cruz, there could be a brokered convention.

What the American electorate wants, compared to what the globalist cabal of politicians want, are two diametrically opposed choices. Pray for our country, and pray for Mr. Trump.
