

Decoding Destiny: Who Controls Your Future, You or the Globalists?

By Karen Schoen

September 23, 2023

What is Destiny? According to the Merriam-Webster Dictionary: the events that will necessarily happen to a particular person or thing in the future. Throughout your life, you always have choices to reach your goal, your success. The problem with success. Success can be good or bad. Whether the outcome is good or bad depends on? Who? That is the ultimate question. Who will control your life?

The global cabals of elitists met and decided that they had a plan where the elite would control the world in the image they decide. World Economic Forum chair Klaus Schwab declared on Chinese state TV: *'China is a model for many*

nations.' Is that what you want?

[Schwab said he respected China's "tremendous" achievements](#) at modernizing its economy over the last 40 years. (stealing American technology and manipulating their money. FYI, The Clinton cartel negotiated with China to get our patents and technology and Bill got a donation to the Clinton Foundation.)

China is playing the Hunger Games. They have enslaved their population. Their people live in high rises in *"sustainable developments aka 15 Minute Cities"* The factories are at the bottom of these buildings. No car, you walk to your job. You

make enough money to buy a few things and some groceries, but there are no stocked freezers. Your money is given to you by points on your Social Credit score card. If you follow the party line, your card account is green – no dollar amounts. If there is a problem, your card chip will become yellow and you are on notice with “*limited mobility.*” Red is “*quarantine.*” During Covid a red alert was issued people were locked in their apartments. No food. No heat. No way out. A fire started. The people inside died. All men, women, and children died. The government watched. They didn’t care. Always remember their goal: DEPOPULATION by any means possible. Schwab said 10% of the population is enough.

According to Bill Gates, “*The world today has 6.8 billion people. That’s heading up to about nine billion. Now, if we do a really great job on new vaccines, health care, reproductive health services, we could lower [world population] by, perhaps, 10 or 15 percent.*” 10% X 6.8 Bil =680,000,000 people. How many people died from Covid? Will you be fooled into taking the Covid shot? How many more will die? millions of illegals are coming to America without shots. Are they here to replace us?

In 2014, the CCP (Chinese Communist Party) announced a [moral ranking system](#) whereby individuals, government organizations, and companies are ranked based on social credit. Comparisons have been drawn to environmental, social, and governance, or ESG, scores being used by major financial institutions and global organizations to create a type of social credit system for corporations designed to influence behavior and transform society.

Schwab wrote in 2019 that ESG scores are necessary for stakeholder capitalism. I thought we had stockholder capitalism. The stockholders, those people who invested money in your company. They owned and had a say in the company and were paid dividends. They are the risk-takers.

What is *“‘Stakeholder capitalism?’ a model Schwab first proposed a half-century ago, positions private corporations follow ESG as trustees of society, and is clearly the best response to today’s social and environmental challenges,”* he wrote. *“We should seize this moment to ensure that stakeholder capitalism remains the new dominant model.”*

I then have questions about Elon. The money to buy Twitter came from China. Elon just introduced a chip for your brain to interface with the computer making humans into cyborgs. where *“Resistance is futile.”*

Who will control your thoughts, suggestions, and demands? What pain will be introduced if you go off script? This chip will be interfaced with everyone and everything, from your most prized possessions to your toilet paper. Everyone will think the same, dress the same, live in the same size apartment, have the same furniture, and obey without question. This is the essence of Communism/Globalism. It is the playbook for a communist takeover. You will obey. Resistance is futile.

So exactly why did Elon buy Twitter? Could it be to gather data, making controlling the people easier? Elon expects to have the chip ready for humans in 6 months. This fits with Obiden’s

- Executive Order on Advancing Biotechnology and Biomanufacturing Innovation for a Sustainable, Safe, and Secure American Bioeconomy September 12, 2022, and
- 13, 2022, Now Called *“‘C-DAY’ ‘BIDEN BUCKS/ Central Bank Digital Currency: (CBDC) Executive Order14067.”*The article claims the order eliminates cash in favor of digital currency. Who makes money from processing digital currency? Did I hear Hunter?

Communism is the same no matter where you go. Communism has killed more people than any other ideology. Communists use different names for the same goal: Depopulation. Money, Power,

Control. Communists are in both parties.

We must fight back. We must conduct oversight. Boycott. There are more of us than them. I believe America is worth saving. Do you? Will you call your legislator and tell them, " No Border = No Funding = No CR. This regime is trying to destroy us, why would we fund them? Shut down the government.
