

Deep State Judge Denies Relief To Lt. General Flynn

Look at the orators in our republics; as long as they are poor, both state and people can only praise their uprightness; but once they are fattened on the public funds, they conceive a hatred for justice, plan intrigues against the people and attack the democracy. –Aristophanes

Every time we turn our heads the other way when we see the law flouted, when we tolerate what we know to be wrong, when we close our eyes and ears to the corrupt because we are too busy or too frightened, when we fail to speak up and speak out, we strike a blow against freedom and decency and justice. –Robert Kennedy

When the righteous are in authority, the people rejoice: but when the wicked beareth rule, the people mourn. –Proverbs 29:2

Relief was short lived for Lt. General Michael T. Flynn. The federal judge in his case has signaled he won't immediately dismiss the Flynn case despite the DOJ dismissal of same.

Judge Emmet Sullivan said he'll receive written arguments that are likely to oppose the DOJ's bid to dismiss General Flynn's prosecution. The Judge's decision to allow third parties (only those he deems worthy) to submit friend-of-the-court briefs is absolutely egregious. Attorney Sidney Powell has

argued that it should not be allowed. She has already proven the General's innocence with her efforts to get Brady exculpatory evidence from the FBI.

Judge Sullivan himself acknowledged that the local criminal procedure rules do not provide for third parties to file amicus briefs in criminal matters, but he claimed that the local rules governing civil cases – which do allow for amicus briefs – “govern all proceedings in the United States District Court for the District of Columbia.”

“The proposed amicus brief has no place in this Court,” Powell and other attorneys for Flynn wrote, objecting to an amicus brief that a group identifying itself as “Watergate Prosecutors” had said on May 11th that it intended to submit.

The former Watergate special prosecutors this week resurrected the *Ghost of Watergate Past* in a last-ditch effort to keep alive the [federal court](#) case against former National Security Advisor Michael Flynn.

Sidney Powell pointed out, “This Court has consistently, on 24 previous occasions, summarily refused to permit any third party to inject themselves or their views into this case.”

The exculpatory documents brought forth by Attorney General Barr's appointee, U.S. Attorney Jeffrey Jensen, prove that Michael Flynn is innocent of the charges and was set-up and railroaded by Obama and his FBI minions.

Watergate Prosecutors

Sixteen of the former prosecutors in the Watergate case have told Judge Sullivan they believe he has the authority to sentence Michael Flynn to prison despite the fact that the DOJ dismissed the case.

These sixteen are part of the Democratic Deep State who wish to see Donald Trump's associates and supporters punished for

helping him in the 2016 election

They have laid out their legal documents which state that they believe Judge Sullivan has to reject the dismissal request and sentence Flynn who had pleaded guilty to lying to the FBI. They never mention that Robert Mueller's gang of thugs including Andrew Weissman used the same old modus operandi of threatening family members, in this case the General's son, Michael, to elicit a guilty plea from the General.

These Watergate prosecutors compared the current situation at the DOJ to Watergate which is an atrocity in itself.

Director Wray

It was FBI Director Wray who was refusing exculpatory Brady evidence to the Flynn defense despite Judge Sullivan's directive. Now that we have those documents, the General's attorneys still must fight this judge for the righteous total dismissal of this case.

Christopher Wray has been the Director of the FBI for nearly three years and has defied Congress by refusing to produce documents exposing the dishonest acts of his predecessor, James Comey and the rest of his corrupt comrades. It is Wray who held back and suppressed documents that proved General Michael T. Flynn's innocence.

It took AG Barr's appointed U.S. Attorney and former FBI agent, Jeffrey Jensen to successfully attain the Brady evidence.

DNI Rick Grenell

Richard Allen Grenell, acting Director of National Intelligence who replaced VP Pence's transition-chosen Indiana friend, Dan Coates, made the decision to declassify information about Obama administration officials who were involved in the "unmasking" of former National Security

Adviser Michael Flynn whose calls with the former Russian ambassador during the presidential transition were picked up in surveillance and later leaked.

[The list](#) of Obama officials doing the unmasking was declassified in recent days by Grenell and then sent to GOP Sens. Chuck Grassley and Ron Johnson, who made the documents public.

The roster features top-ranking figures including then-Vice President Joe Biden, a detail already being raised by the Trump campaign in the 2020 presidential race where Biden is now the Democrats' presumptive nominee.

The list also includes former FBI Director James Comey, former CIA Director John Brennan, former Director of National Intelligence James Clapper, and Obama's former chief of staff Denis McDonough. [Read the Documents.](#)

Officials in the Obama administration have acknowledged that they moved to unmask some Americans in intelligence reports, but insisted that their reasons were legitimate. Yeah right...their reasons were to undermine the incoming administration. Those officials include Obama National Security Advisor Susan Rice, former ambassador to the United Nations Samantha Power and former deputy national security advisor Benjamin Rhodes.

The DOJ said that after reviewing newly disclosed information and other materials, it agreed with Flynn's lawyers that his Jan. 24, 2017, interview with the FBI should never have taken place because he had not had inappropriate contacts with Russians. The interview, the department said, was "conducted without any legitimate investigative basis."

Exactly, this entire charade was to destroy both Lt. General Michael T. Flynn, a three-star general with 33 years of service to his country, both in combat and decades in intelligence. And even more to destroy the General's ability

to help the duly elected President to clean out the corruption from the intelligence community within the DOJ.

Judge Sullivan

Judge Sullivan belongs to the Deep State globalist cabal. He is doing the bidding of those who wish to destroy truth, justice, and the American way. Yes, that's it, I'm not making this up. This Clinton appointee hates a man who gave his life to his country and who loves America.

There is no prosecutor in the Flynn case; Brandon Van Grack resigned the very day the DOJ dismissed the Flynn case. Judge Sullivan looks incompetent and complicit with former prosecutors. The more the DOJ found that Flynn was innocent, the more they went after a smear campaign.

And today we learned that Paul Manafort has been released to serve the rest of his sentence at home. It took them long enough to release this elderly man so that he wouldn't contract Covid-19 in prison. Throughout the country criminals guilty of rape, murder, burglary, etc. were released weeks ago and many have committed the same crimes, including murder and rape. It took until today to release Paul Manafort who at his age should not be imprisoned and should have had his federal charges pardoned long ago.

The rush to imprison Trump supporters, Roger Stone and Michael Flynn, shows they are targeted by the millions of Marxist-Leninists within our government.

Conclusion

Lt. General Michael T. Flynn was targeted before he even joined the White House administration. Flynn was chosen by President Trump to restructure the entire intel community.

Fred Fleitz, former Chief of Staff and Executive Secretary of the National Security Council for Donald Trump stated in his

[Fox News article](#) that the list released today is of 39 top Obama officials who made 53 requests to unmask Lt. Gen. Flynn's name from intelligence reports between election day (Nov. 8, 2016) and Jan. 31, 2017. While many of the requesters were Obama political appointees who resigned by Jan. 20, 2017, some were career officers at CIA, the Pentagon and other agencies.

Judge Sullivan should recuse himself from this case. It's obvious who he is working for and it's certainly not for true justice.

Three-star General Michael T. Flynn has endured enough at the hands of these demons of the dark state.
