

# Definition of Congress: Venal Traitors, Second only to Judas Iscariot

**I charge members of the United States Congress, with few exceptions, of being a Criminal Enterprise and guilty of Treason!**

Bribed members of Congress are responsible for all violations of our God-Given and Constitutionally-protected Rights, and only Congress can restore them without a revolution.

Congress is bribed by the big donors (Parasitic Super-Rich Ruling Class–PSRRC) to murder millions of innocents and tens of thousands of our military, destroy entire countries, enact unconstitutional laws, and transfer The People's money to elites and to themselves. They routinely ignore the Enumerated Powers in the Constitution (which limits their powers), unconstitutionally usurp state powers, unconstitutionally fund Ukraine and other countries, unconstitutionally fund Welfare and other programs, lose 30 wars-for-profit in last 77 years, etc.

This process accelerated in 1913, when Congress replaced Tariffs with the Income Tax, the unconstitutional Federal Reserve Bank, and Tax-Free Foundations. Then the blood-sucking treason began in earnest. But always remember that Congress follows the orders of the PSRRC, not the voters.

**The following charges can't be refuted by anyone because they only contain facts which can't be questioned.**

**CHARGE:** Congress funded 30 wars without the required declaration of war or oversight since 1945, resulting in the death of millions of innocents and 108,866 of our military. Entire countries were devastated, and not a single conflict was to protect our national security! We lost every war. These wars for corporate profit allowed the wealth of the American people to be transferred to the Military Industrial Complex and members of Congress. See the Constitution at Article I, section 8 and Article 6.

**CHARGE:** Congress totally ignores the Enumerated Powers of the Constitution that specifies the scope and limits of federal powers. Remember that the States created the Federal government, which is subservient to its creator.

Congress enacted laws establishing the following unconstitutional departments (usurping state powers): Labor, Agriculture, Health and Human Services, Education, Energy, Transportation, and Housing and Urban Development. These departments should be terminated at once because they are an unconstitutional usurpation of state powers. Congress funds the unlawful departments unconstitutionally. See the Constitution at Article 1, section 8 and Article 6.

**CHARGE:** Congress funds open borders and subsidizes illegal Invaders; this is both Unconstitutional and Treason, as specified in the Constitution. See the Constitution at Article 3, and Article 1, section 9 and Article 6.

**CHARGE:** Congress unconstitutionally spends federal funds in the States, such as for welfare which supports Communism. Congress also spends funds for countless projects in the States, all of which are Unconstitutional. Congress spends money on Foreign Aid which is Unconstitutional. See the Constitution at Article 1, section 8, and Article 6.

**CHARGE:** Congress failed in its oversight responsibilities by allowing funding to rogue departments such as the FBI, Justice, Internal Revenue, Judiciary, etc. See the Constitution at Article 1, section 8, and Article 6.

**CHARGE:** Congress continues to enact Unconstitutional laws to benefit their Big Donors and themselves, without regard to the Enumerated Powers. Article 1, section 8, and Article 6.

**CHARGE:** Congress allows the Executive branch and the President to enact Unconstitutional laws. Only Congress can enact laws. See the Constitution Article 1, section 8 and Article 6..

**CHARGE:** Congress, by funding the IRS and not promoting tariffs, has de-industrialized the United States, impoverished its people and enriched the elites and themselves. See the Constitution at Article 1, section 8, and Article 6.

**CHARGE:** Congress has failed to abolish the Federal Reserve Bank and return the country to constitutionally-authorized money, which is gold and silver. Congress must vote against the CBDC digital currency or face a possibility of civil war. See the Constitution at Article 1, section 8, and Article 6.

**CHARGE:** Congress has failed in its oversight of the Armed Forces by allowing a gigantic bureaucracy with 4 times as many four-star flag officers as required, when compared to WW2 when we had a force almost 10 times larger. It has been charged that too many of these flag officers are politicians and not warriors, as evidenced by losing every war for last 77 years. It is clear that Congress has allowed the 'woke' flag officers to degrade and demoralize the military. See the Constitution at Article 1, section 8, and Article 6.

**CHARGE:** Our constitution stipulates that the Laws of the Union would be enforced by the Militia of the Several States. Congress unconstitutionally made the Militia part of the National Guard with the Dick Act of 1903. The federal government has no police powers in the states, none.

Therefore, Congress allowed the FBI to start as an investigative unit, sort of a sneaky entry into law enforcement. Then Congress proceeded to pass Unconstitutional laws for the FBI to enforce laws in the States where they had no Constitutionally-authorized police powers. If the FBI was an honest and effective organization, the federal government would not be as corrupt as it is. But the FBI is considered by many to be the most dangerous and corrupt part of the government, and a real enemy of the People. Congress must obey the Constitution by defunding the FBI and using the Militia of the Several States in its place, as specified in the Constitution at Article 1, section 8, and Article 6 and Article 4.

**CHARGE:** Congress doesn't represent The People and never can, as long as they take bribe money from big donors, which should be prohibited. Representatives have relatively small districts and this should be no problem for them. Senators represent States, which are more difficult, but could be resolved by returning to directives of the original Constitution. See the Constitution at Article 6 and Article 1, section 8.

**CONCLUSION:** You have been given the facts, and now it is opinion time again. We the People have one choice, and that is to convince Congress that we know the truth and will remove them from office if they don't act in our best interests and not those of the big donors (PSRRC).

[You may find what Davy Crockett had to say on the subject to be of singular interest.](#)

The criminals and traitors in Congress should be advised that their actions have a high probability of causing a civil war, if not a world war. Their compromised federal law enforcement and courts would then be replaced by either Military Tribunals or Revolutionary Courts, neither of which would favor them. See the Constitution at Article 2, section 2, clause 1.

Most citizens hold Congress in contempt and despise them. Now you must tell them how you feel, and demand they follow the Constitution as outlined above. Their violations of their solemn Oath of Office voids their required Oath and disqualifies them from their office! Demand their obedience or their resignation!

Your other alternative is to keep your apathetic mouth shut, continue watching TV or whatever, until the economy and government collapses and you lose everything in the near future anyway.

You really have no choice, if you have a brain and like to eat and live. I do a lot of reading, and I have learned that every major Economist that I know believes that, unless changes are made soon, the government and all their programs will collapse. This would cause a Civil War. It is just simple Economic facts. We are talking about our slipping into a third-world economy based only on barter and real money, gold and silver. This would result in an instant Civil War, when millions would die at the hands of Communist thugs and of starvation and deprivation.

God Bless You and the Republic
