

DeGovernor DeSantis DeCides to Break Another Promise

By Kat Stansell

June 2, 2023

Ron DeSantis has declared his intent to run for President of the United States, in a Twitter Spaces meet up with the World Economic Forum's Award-winning Elon Musk! How very Globalist of him! DeGovernor is finally making it official. Don't let his over \$200 million war chest, (90% of which is from BIG donors), buy him an office he does not deserve in a Constitutional Republic. Read on and you will understand why I chose this image.

Ron DeSantis has been abdicating his responsibilities as Governor of Florida for months now, while he travels the globe posturing as America's next POTUS. Recently, he sealed all of his travel and visitor records, to hide where and with whom he has met. Frankly, that act smells of Obama, Clinton and others, none of whom had any intent of working for the people. Not the kind of POTUS we need.

By declaring for a Presidential run in 2024, DeSantis is breaking yet another promise he made to his citizens, when he swore that he would complete his term. Among other broken promises were legislation to insure medical freedom and election integrity. Know that the new medical freedom bill he signed is a total farce, applying only to the now "expired" Covid scamdemic. Let's concentrate, instead, on election integrity in the new candidate's home state. Let's look behind

and beyond press conference showmanship, to the reality.

First, know that Ron DeSantis is endorsed by Jeb Bush, Mitch McConnell, Paul Ryan, Liz Cheney, and Mitt Romney, to name but a few. They represent the RINO/Globalist contingent of our public officials. Although they may be the majority of public officials, they do NOT represent the vast majority of Americans.

Tells you right there the mess our election system is in... Some of DeSantis's supporters met a few months ago to ask him NOT to run in '24. However, there is a group of rabid anti-Trumpers whose main goal is to keep Donald Trump out of office, and Ron DeSantis is their tool. They center around the PAC, Never Back Down, started by former Virginia Attorney General and virulent Trump-hater, Ken Cuccinelli. So far it is estimated that NBD has raised over \$30 million dollars, to go with the \$80 million left in the Governor's stash of contributions to his gubernatorial campaign. Much of that \$80 million was given by people who wanted him as their governor. Too bad, suckers.

Cucch, (rhymes with "mooch") as he is fondly called, after practicing what were called "gestapo-like tactics" to take down Trump, then went to work in the Trump White House when the opportunity for money and power came his way. As for Trump, he believes in keeping his friends close, and his enemies closer. Hence, the call to bring Cuccinelli aboard. Now, however, Cuccinelli believes has "inside knowledge" that would be valuable against the leading candidate, so he is helping DeSantis the way he did Cruz in 2016. May well have the same results. But, let's move on.

Regardless of who is backing him at any given time, DeSantis is endorsed and funded by the RINO/Globalists in a mission to split the votes of real American patriots, and defeat Donald Trump. Millions of Americans already know this; the evidence is everywhere. We have to assume that Globalists' favorite

candidate, DeSantis, knows his assigned task.

Frankly, if we DO get to have a 2024 election, not altered by some engineered crisis, the winners will NOT be any candidates of our choosing. Over the last two years, with the extensive investigations into voting practices countrywide, we have learned that machine voting is full of fraud – proven and undeniable. If we cannot move to paper ballots and hand counts, our voice will never be heard again. The specter of Venezuela looms. Most everyone understands this on some level, even, I fear, Ron DeSantis.

In recent legislation, just signed by DeGovernor, voting by machine was made mandatory, and hand-counting votes was forbidden. Let that sink in.

In the original, stronger Florida election integrity bill, SB 7050, other last-minute substitutions also altered its intent:

- Measures to boost the power of the new (2022) “Election Crimes” unit – rather a lightweight effort from its inception, more of a dog and pony show for the press – were eliminated.
- Those without state-issued ID, a social security number or valid FL drivers’ license who are supposed to have recently moved to the state, are no longer required to vote in person for their first attempt. That category begs to include illegal aliens, and phantoms (non-existent “voters”). So, a vote may be cast, by mail, with NO verification of anything, even the voter’s citizenship or very existence. Let that sink in, because DeSantis just signed that into law.
- Citizen investigators have been prohibited to submit any research/discovery on ineligible voters or other system violations. Only state officials may do so under the new law. Let me remind you, here, that it is only from the work of citizens that we know of the massive election manipulations that have been occurring in Florida.

[The Federalist calls out SB7050 as well.](#)

The real kicker is that MACHINE VOTING IS NOW MANDATORY IN FLORIDA; any hand counts, disallowed. DeSantis must understand, as I said above, that machines have been proven repeatedly to have been at the heart of stolen elections. He has been presented with enough proof over the last two years, right in the state he runs, to grasp that. Why would anyone make machines mandatory for voting?? I'll let you think on that one. Hint...it has nothing to do with efficiency or accuracy. With SB 7050 now signed by DeSantis, there will never be true freedom of choice in voting in the "Sunshine" State. Election results will always be clouded by corruption, as machines are built to do.

Remember, Florida controls 30 of the 270 electoral votes needed to win a federal election for POTUS. When one state controls 11% of the Electoral College votes, this is a big deal for everyone, not just Floridians.

For a deeper look into election problems in Florida, which DeSantis has ignored, please see the newest report including charts of facts, on the ongoing massive manipulation of voter rolls in every county of the state has recently been unearthed and reported out by the Florida Republican Assembly's Kris Jurski. With over twenty years of systems analysis and improvement for corporations, Jurski has every credential to be correct about this. See the results of his detailed 6-month-long analysis of over 140 million voter records, just released, on Rumble.

Last, so that it will stick in your head, Ron DeSantis

supports the hideous treatment of J6 prisoners, victims of the Purge, who have been starved, poisoned, beaten, murdered at the hands of our illegitimate government. "I AM ACTUALLY GLAD TO SEE SOME OF THESE PEOPLE BEING ARRESTED FROM THE DC THING BECAUSE I THINK THE PROSECUTIONS WILL REALLY MAKE A DIFFERENCE." says the Governor of Florida. More of the victims of the Purge came from the state of Florida than from any other. HIS state. HIS PEOPLE. He ignored calls from their wives and families, pleading for their governor to stand against the illegal and immoral Purge, to help their loved ones, his constituents. None received a response that is on record.

[PLEASE take the time to go to this link to see the before and after pictures of one prisoner.](#) I am not allowed to copy the horrible images here.

Now, nearly 2 1/2 years later, Ryan Samsel, the man in the pictures on Clarion.com, is still being held in the same deplorable conditions with the same treatment. I know because I know the good people of the Northern Neck Patriots of Virginia, who are working to help these victims of the Purge. NNP is right there in Richmond County, VA, where the Northern Neck Regional Jail stands in infamy. The editor of the local conservative monthly paper, the Northern Neck Sentinel, John Haynes, is one of the Patriots. John recently spoke with the hosts of Cowboy Logic. Listen and learn, then ask yourself if you want someone who has not come out against ANY of this, as a President of our United States.

Always remember this about Ronald DeSantis, if you remember nothing else. Know that this unconstitutional and immoral

attitude applies to all of us, whether we are on the left or right. His statement makes the title of his new fundraiser/book, about being free, a complete farce. Freedom and our Constitution no longer apply to all in DeCandidate's mind.

In his book, *The Courage to Be Free*, (publication arranged by Rupert Murdoch of Fox News), DeSantis said "One of my first orders of business after getting elected was to have my transition team amass an exhaustive list of all the constitutional, statutory and customary powers of the governor," he said. "I wanted to be sure that I was using every lever available to advance our priorities."

That is very admirable, IF those priorities are the same as those of the people. [With praise from George Soros](#), who called the new POTUS candidate, "ruthless, shrewd and ambitious", along with DeSantis's actions to date, I fear that those priorities may not be the same as ours.
