

# Demand Congress Stop Funding This Manufactured Hoax

**“We’ve got to ride the global warming issue. Even if the theory of global warming is wrong, we will be doing the right thing in terms of economic policy and environmental policy.”** – Tim Wirth, former member of Congress, U.S. Under Secretary of State for Global Affairs.

[At the Fifth Congress in Moscow](#), ‘The Program,’ was drafted and agreed upon by the International Communist dictators. It was agreed that an environmental “crisis” would be gradually developed to siphon off the money from capitalism and reduce countries to socialism and eventually under communism. I refer readers [back to this column](#) and the book by Gus Hall, head of the Communist Party USA for decades: *Ecology, Can We Survive Under Capitalism?* published in 1972.

Joe Biden is a dirty traitor. More than a decade ago when he was announced as running mate for criminal impostor president, Barry Soetoro aka Barack Hussein Obama, I tried to warn people in columns and on radio about Biden. I wrote about a speech he gave on June 29, 1992: *On The Threshold of the New World Order: The Wilsonian Vision and American Foreign Policy in the 1990’s and Beyond.*”

[Democrats Against Agenda 21 have provided a very good breakdown](#) of Biden’s speech which includes manufacturing a global environmental crisis. That organization also recognized the connection between Common Core and Agenda 21.

Back on January 21, 2005, I wrote in a column:

“The Environmental Protection Agency must be abolished because it is destroying the rights of Americans, it’s another monumental waste of money and America doesn’t need it. Like the unconstitutional federal Department of Education which

employs almost 4,500 people and will suck up a colossal \$63.3 billion dollars for 2005, the EPA with its 18,000 employees, will gobble up \$7.76 billion dollars this year.

"Article 1, Section 8 of the U.S. Constitution does not authorize Congress to legislate in the area of the environment, therefore, it is unconstitutional. All 50 states of the Union have their own version of the EPA as authorized under the 10th Amendment. There is no need for a federal agency. The states of the Union can handle their own environmental needs as authorized by their legislatures.

"At the Earth Summit in Rio De Janeiro, June 3-14, 1992, the Secretariat for World Order distributed a nonpublic document titled, "The Initiative for Eco-92 Earth's Charter." It reads, in part, under policies that must be implemented as follows:

*"The Security Council of the U.N. will inform all nations that outmoded notions of national sovereignty will be discarded and that the Security Council has complete legal, military and economic jurisdiction in any region of the world ... The Security Council of the U.N. will take possession of all natural resources, including the watersheds and great forests, to be used and preserved for the good of the Major Nations of the Security Council."*

"In the late Dixie Lee Ray's book, *Environmental Overkill – Whatever Happened to Common Sense*, one gets a full accounting of what really went on with Al Gore and his loony friends at the Rio Summit. On page 10 of her book, it states:

*"The objective, clearly enunciated by the leaders of the **United Nations** Conference on Environment and Development (UNCED), is to bring about a change in the present system of independent nations. The future is to be world government, with central planning by the UN. Fear of environmental crises, whether real or not, is expected to lead to compliance. If force is needed, it will be provided by a UN green-helmeted*

*police force, already authorized by the Security Council.*

"The EPA is the flagship in America to carry out this environmental terrorism against our people. In the ensuing years, the EPA has become more destructive than a cat five hurricane."

Dixie Lee Ray was a former governor of Washington State, Chairman of the Atomic Energy Commission and Asst. Secretary of State in the U.S. Bureau of Oceans. She passed away in 1994 and was a Democrat.

Rush Limbaugh was right on point. (1993):

"A way must be found to get this book into the hands of as many Americans as possible. The myths promulgated by militant environmentalists are now accepted as fact by far too many who are ripe for a cure for this so-called crisis – a 'cure' which will actually rob them of much of their economic and political freedom. Dixie Lee Ray challenges the environmental prophets of doom and gloom with penetrating searing truth. Environmental Overkill is a right light that exposes the fraud and deceit being perpetrated against an unknowing public."

[H.R.193 – American Sovereignty Restoration Act of 2017](#) – To end membership of the United States in the United Nations. Bill first introduced January 3, 2013. It died in Congress on Dec. 31, 2018. A tragedy for our country. A bill re-introduced over and over only to die in committee when Republicans held the majority most of the time.

[None is So Blind as He Who Will Not See](#) – Congressional Record. House of Representatives January 15, **1962** Page 215

"We were sold the U.N. on a promise of peace, but we failed to realize that this peace was to be on Communist terms; in fact, it was to be a total victory for the international Communist conspiracy. Our faith in this hope was so firm that we were

lulled into a state of false security while the Communist world gobbled up 13 or 14 countries, bringing 800 million people under their domination. Russia has used the veto power nearly a hundred times. The United Nations has been completely unable to bring any degree of peace, and Russia itself has created 13 or 14 military conflicts between the East and the West...

"You can expect to see a one world government, Communist controlled, under the United Nations. You will see the United Nations run up astronomical debts which we, under the terms of the treaty, are bound to pay." Take time to read it from my posting in 2002.

[Here's another one of my columns](#) on this issue which includes information about *The Venona Secrets: Exposing Soviet Espionage and America's Traitors*. Not for the faint-hearted.

Those of us who have actually taken the time to do the research fully understand global warming is a monstrous hoax against the world. Master of hustle and bull, Al Gore, [has cleaned house](#) promoting global warming. It has been his cash cow to an estimated \$100 million dollars into his bank account. Usurper, Obama/Soetoro, believes the propaganda, too: [Scientists: Obama document is 'scare' tactic](#). "This is not a work of science but an embarrassing episode for the authors and NOAA," said meteorologist Joe D'Aleo, the former chairman of the American Meteorological Society's Committee on Weather Analysis and Forecasting."

Over time, just like the sexual deviant movement (sexual preference became sexual orientation; queer, homosexual became 'gay'), global warming morphed into climate change. Big business but also a big agenda for the socialists and communists in local government, our state houses and Congress.

["Kevin Kornbuckle is Oregon's only duly elected Communist](#); he ran as a Democrat and "came out" after he was elected. In

March, 1996, this Communist, after coming under attack by other city council members stated: "I'd simply point out that Communists in the U.S. are fighting for health care, housing and jobs as a human right. I'm proud to be a Communist." *Mail Tribune*, Medford, Oregon, March 4, 1996." Sound familiar?

James Delingpole has been a virtual lion or tiger, if you prefer, on this monstrous manufactured hoax. I know it's a lot of reading and likely many already know some of this but if we are going to boot loons like Alexandria Ocasio-Ortega out of office in 2020, we the people must have facts to bury them.

Pass them along to individuals who are concerned about the environment but need to get facts not emotion. Ask the person to read the column and ask what they think. It's always a good way to get someone to read something contrary to what they believe as it plants seeds of doubt as well as truth:

[Delingpole: The Five Best Arguments Against Climate Alarmism](#)

"In my view the last argument is the clincher. It's the one that ought to unite all of us, sceptics and true believers alike. After all, even those who fully subscribe to the theory that climate change is dangerous, unprecedented and man-made ought surely to agree that there's no point chucking money at the problem if it's going to do more harm than good.

"Yet this is exactly what is happening. Taxpayer-subsidised wind and solar are doing huge damage to the environment, to wildlife, and to the economy.

"Biofuels are destroying rainforest and agricultural land, driving up food prices, needlessly hurting nature.

“Rent-seekers in crony capitalist Potemkin industries like renewables are being subsidised to produce inefficient, intermittent, unnecessarily costly power, misallocating scarce resources and driving the indigent deeper into fuel poverty.

“Science in universities and schools is being corrupted by a Climate Industrial Complex which rewards science, however flawed, which promotes the alarmist narrative and which punishes science that defies the so-called “Consensus”.

“Vast sums of public money – in excess of \$1.5 trillion per year – are being squandered on the chimaera of “climate change.” Yet despite all this spending, using the alarmists’ own calculations, it will offset “global warming” by the end of the century by 0.048°C (0.086°F). [That’s 1/20th of one degree Celsius.](#)

“The activists, shyster politicians, rent-seekers, dodgy scientists, media second-raters and other useful idiots who are pushing for more climate action are demanding the impossible. If ever they achieved their ambitions, western industrial civilisation would collapse.”

“To read “Climate Change Reconsidered II,” visit its [website](#). Among its findings, the report notes that “no close correlation exists between temperature variation over the past 150 years and human related CO<sub>2</sub> emissions.” Blaming the climate or even the weather on humans is insane. You might as well blame the floods in Colorado on humans instead of the downpours of rain, comparable to 1894 and 1969.

“Indeed, the U.S. gives ample evidence of greatly reduced

events associated with the weather. There have been fewer tornadoes over recent decades. It's been eight years since a Category 3 hurricane hit the U.S. Droughts have been shorter and less extreme than the 1930s and 1950s. And sea levels are predicted to increase barely four to eight inches per *century* and that may be on the high side. There will be dramatic weather events, but there have *always* been dramatic weather events!

"The Heartland's new report is welcome, but both they and I know that the same deceitful charlatans are still at work in the United Nations, in the United States, and around the world to keep this greatest of hoaxes alive."

[The True Meaning of That Green New Deal](#) by Lee Edwards. As Edwards brings up FDR and his New Deal, here's what some had to say about it back then:

*"The New Deal will bring the Communist Party within striking distance of overthrow of the American form of government. ..."*  
—Arthur Henning, 1935, *Chicago Tribune*.

*"... The New Deal is to America what the early phase of Nazism was to Germany."* —Mark Sullivan, *Buffalo Evening News*, 1935

Another stinking wretch and her husband in bed with the Communists; like the other team, Mitch McConnell & his wife.

[Dianne Feinstein scolds kids who pushed her to back Green New Deal: 'I know what I'm doing'](#) — She sure as hell does and it's not for America.

President Trump has and is doing his best to get rid of unnecessary regulations but it's not enough. The unconstitutional EPA HAS to go. They are the bedrock for much of this environmental treachery **as we are RAPED to pay for our own destruction**. This is unconstitutional as is the EPA:

[EPA Gives Millions In Foreign Handouts:](#) "The Obama cabinet

secretary who launched a costly program to make America's minority communities green has sent millions of taxpayer dollars to environmental causes overseas, including China, Russia and India. Ranking members of a congressional energy committee call it ["foreign handouts"](#) amid record deficits, soaring unemployment and a looming debt ceiling in the U.S. The money—\$27 million since 2009—has been issued by the Environmental Protection Agency (EPA), which is headed by Lisa Jackson.

"The cash was issued via 65 foreign grants that don't even include Canada and Mexico, according to a [report](#) issued this week by the House Energy and Commerce Committee. Among the enraging foreign handouts are \$1.2 million for the United Nations to promote clean fuels, \$718,000 to help China comply with two initiatives and \$700,000 for Thailand to recover methane gas at pig farms. An additional \$150,000 went to help the International Criminal Police Organization (INTERPOL) combat fraud in carbon trading and \$15,000 to Indonesia's "Breathe Easy, Jakarta" publicity campaign."

Is THAT what you work so hard every day for? ALL BORROWED DEBT slapped on our back and our kids. **Tell me, did your 'conservative' Republican in Congress vote for that vomit?**

My column, January 2005: [Why the Environmental Protection Agency must be abolished](#)

I urge you to write a snail mail letter and mail it to your congress critter, Democrat or Republican. **Mail it to their district office** so when he/she goes back home over the weekend, thousands of letters are piled on their desks.

Tell them you're going after them in the 2020 primary in your district. It's bad enough only about 30 Congress critters supported the bill to stop double federal income taxes on social security, they have to keep **raping us to pay for one of the biggest manufactured hoaxes ever** besides the 'Russia

Collusion' crap.

**If we do nothing, nothing will get done.** Demorats and these climate change puppets are busy every day of the week selling their junk. **Will we sit by and allow it to continue?**
