

# Democracy Is On The Ballot: Actually, Viable Candidates Are On The Ballot

By Frosty Wooldridge

November 7, 2022

Okay, I watch television news programs from all sides. It's good to get perspectives from liberals, libertarians, conservatives, constitutionalists and independents. Each group thinks they possess the answers on how to maintain America. At one point, up until the late nineties, they all pulled together to some degree to pass laws that benefited all Americans.

Since that time, unfortunately, our country has been torn asunder with too many people from too many different countries with too many opposing world views, and they lack any understanding of the intricacies of a Constitutional Republic. We've morphed from a similar culture and language into multiple cultures, multiple languages and incompatible thought patterns.

America no longer holds that, "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —That whenever any Form of Government becomes destructive of these ends, it is the Right of the

People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to affect their Safety and Happiness.”

In America today, racial conflict surfaces daily. Critical Race Theory advocates WANT division of one race against the other. Crime surfaces 24/7 in our big cities at an alarming rate. People murder each other at the drop of a hat in Chicago, New Orleans, NYC, Detroit, LA and San Francisco. Our once sovereign nation is today, a free-for-all invasion of the world's refugees. We've got religious tension because of so many incompatible religions. We've got inflation because the folks in Washington DC fail to balance the books. We've got gas and food prices off the charts.

All of those problems accelerated once Joe Biden walked into the White House 22 months ago. Yes, he displays his dementia every time he stands behind a podium, even with his teleprompter telling him what to say or do. But it's his handlers who are calling the shots...and they are calling a LOT of bad shots. We're talking "The Peter Principle" personified, i.e., incompetence, negligence and gross stupidity.

It has caused enormous problems for us both here and abroad. Biden pushes the Green New Deal, but fell asleep at a conference of world leaders on Climate Change in Europe. He tells us that the borders are secure, but doesn't understand that his invitation to all refugees has allowed over 6.6 million illegal aliens to jump our borders in the past 22 months. While our homeless and veterans languish in the streets, he puts illegal aliens into hotels with transport, food and medical care. At our expense, of course! And he's violating our laws. (Source: U.S. Border Patrol, Illegal entries, 2022, [www.Fairus.org](http://www.Fairus.org) )

Whether it's massive crime of "smash & grab" in our cities, or outright thousands of murders of blacks on blacks in our

cities, or the depletion of our oil reserves—Joe Biden and 545 Congressional Critters continue to drive our country into the toilet.

## **Democracy is on the ballot this Tuesday, November 8, 2022**

But on the Democrat side, the talking heads like Morning Joe, Joy Reid, Rachel Maddow, Jake Tapper, Chuck Todd, et al., keep repeating, “Democracy is on the ballot” this coming Tuesday with our national elections.

That’s not true in any way, shape, form or matter. What’s on the ballot is a new set of citizen-candidates like Dr. Oz of Pennsylvania, Kari Lake for governor in Arizona, Black Masters for U.S. Senate in Arizona, Candidate for U.S. Senate Adam Laxalt in Nevada, Lee Zeldin for governor of New York, Tudor Dixon for governor in Michigan, Buldoc of New Hampshire, and Hershel Walker for U.S. Senate in Georgia.

What’s the big deal? For starters, all those old, worn out incumbents haven’t done squat to improve the nightmare now gripping America. So, as the U.S. Constitution promotes, new citizen-politicians compete against corrupt, career politicians like Nancy Pelosi, 82, 40 years in Congress, Charles Schumer 30 years in Congress, Maxine Waters, forever in Congress, Whitmer of Michigan doing a very poor job as governor...and the list grows.

So, is “Democracy on the ballot”? In fact, our republic stands the test of time because “we the people” are about to hire a group of competent leaders from our ranks who will secure the border, who will stomp on crime, who will stop the drugs, who will promote America First, who will spend wisely, and who will change what’s been happening, toward a new direction.

**Letters from readers; yes, there are reasonable American citizens thinking rationally and asking straight-forward questions**

T.R. from Arizona said, "If I knew a Democrat, I would ask them about the open border, shutting down our oil and gas industry, releasing criminals onto our streets to commit more crimes etc.... If Liberals want to shut down the production of fossil fuels, that's fine, but wait until the alternative is fully functional. If EV's are such a good deal, why do we need to pay people to buy them?"

1. A. Cave Creek, AZ said, "Sir, I commend you and your well written articles. Yours is an earth-shaking brutal assessment of our current situation in this country! This has been part of the plan to destroy our country from within.

"Soon we must address the elephant in the room entailing the minority folks of this great United States. Somehow, we can't bring ourselves to be honest and forth right on this subject people continually are afraid of. Black Americans need to control their own and change their hatred for others. In my life, I have witnessed more violence by Blacks than twenty people. I lost my hearing in my left ear in Vietnam from what is called the knockout game. I've been shot and stabbed while working 15 years as a police officer in Chicago's ghettos. It seems to be only getting worse by what you see. We must do something to curb this violence. You give me hope for our future and my children and their children. Please keep up the great work, we are behind you."

On Tuesday, our democracy is not on the ballot. However, our country stands in the balance. If the majority of Americans like what Joe Biden has done to our country in the past 22 months, well, vote for him and all his supporters.

If you're sick and tired of the nightmare Joe Biden and his supporters have created, vote for anyone but the people who support and allowed 6.1 million illegal refugees to violate our borders, endless drugs killing 100,000 Americans annually, inflation, waste, racial conflict, rampant crime, no answers

to our problems, and a continuation of incompetence.

Vote for new, fresh minds who will serve you rather than corporate interests. Vote for your children's futures. Vote for America's future.
