

Democrat Party Equals Totalitarian Dictatorship, Part 2

By Pastor Roger Anghis

March 26, 2023

Democrats have taken over the so-called 'education' system teaching that all the world's problems are because of America's capitalism. Freedom to work at what you want to work at is not in the Democrat's game plan. They have adopted the World Economic Forum's ideology of you work at what the government tells you to work at. You don't own a business unless you're a member of the elite class. Remember Klaus Schwab's comment that 'By 2030 you'll own nothing and be happy'. California is already working towards that goal by wanting to ban all freelance workers. Biden has nominated for Secretary of Labor Julie Su the architect of the bill which is a ruthless war on freelance in California. ***"Freelance journalists in California will either be out of work or face limitations on how much content they can produce," CNN warned. Independent truckers [shut down the](#) Los Angeles-Long Beach port to protest the same disastrous law and are leaving California.***

The bill known as AB5 which restricts freelance employment so severely that it's practically a ban on freelance workers has been blamed for contributing to the mass exodus with California unprecedentedly losing population every year that the law has been in effect.

But California's bad ideas rarely stay inside its borders.

In 2021, House Democrats under San Francisco's Pelosi passed the PRO Act which would crush freelance workers nationwide. In his state of the union, Biden urged passing, "the PRO Act because workers have a right to form a union." Workers already have a right to form a union. The PRO Act eliminates the right of workers to be able to work independently of employers and unions.

To many Democrats who depend heavily on union cash and seek to control the economy by herding workers into serving the large businesses they regulate and receive donations from, freelance workers are a problem. And regulating them out of existence by reclassifying them as employees through the 'ABC Test', which is at the heart of AB5 and the PRO Act, is the answer.

Now, Biden has nominated Julie Su, an architect of AB5's war on freelance workers, as Secretary of Labor. When Biden pushed Su, California's Labor Secretary, as Deputy Labor Secretary, Republicans challenged her on the [\\$31 billion in pandemic fraud](#), the worst in the nation, and her ruthless [war on freelance workers](#) that devastated workers and businesses.

"If you apply that test nationally, as President Biden said he is committed to doing, you would forcefully reclassify as many as half of all independent contractors, if not more, and jeopardize more than 85 percent of our nation's GDP," [1]

This is not the freedom that we were given by the Founders. This is a typical socialist/communist style of governing where the government tells you what you can do. The problem is WE tell the government what it can do and I don't remember telling them they can do that. This administration has plans to ban almost all guns. Handguns, long guns, and even some hunting guns. They don't understand the phrase 'shall not be infringed'. The State of Colorado has an unconstitutional Red Flag Law that almost all of the sheriffs in the State won't enforce and now the Democrats are trying to expand it so that anyone who knows of someone that *might* be dangerous and you

don't report him, you go to jail. Shades of 1930s Germany. Biden has stated that none of our constitutional rights are "absolute." [2] I guess if you're a dictator wannabe like him none of them are.

This administration lies every day about most things. Even though Biden shut down all the programs that made us energy independent, and pulled hundreds of drilling leases, he blamed the rise in gas prices on Putin. He thinks we all have the mentality of the voters that 'put him in office.' Alejandro Mayorkas has stated several times that our southern border is closed yet we are on track to see the most illegals ever in a single year bypassing last year which set a record and bypassed the year before that. We are witnessing the planned destruction of the greatest nation in the world. We can be prosperous and have a strong economy, low unemployment, and have prosperity for all, Trump proved that, but Democrats don't want that. They want to create a situation where the people demand the government take over everything to 'solve the problem'. The only problem with that is the government is causing the problem just like they caused the 2008 market crash, the 1920 market crash, and the 1989 market crash. Reagan told us that government isn't the solution to the problem, government is the problem.

They're attempting to make everybody live in an eight-year-olds world of make-believe where a man can think he's a woman and we have to embrace that lunacy. This administration is full of people who are so confused that they don't know what their gender is and even a female Supreme Court Justice can't define a woman! They are insane. Period. They run around like chicken little screaming climate change when there is no evidence of it. Even NOAH has stated that we are in about year 16 where the planet has not warmed, You want proof? Obama bought an \$11.7 million 30-acre beachfront property in Martha's Vineyard, [3] Al Gore just bought an \$8.875 million villa with an ocean view in Montecito, CA. [4] Obama has an

\$8.7 million beachfront property in Hawaii.[5] Who in their right mind that believes the ice caps are melting and all beachfronts will soon be underwater would spend almost \$20 million on property they will have to scuba dive to get to?

The elites are lying about almost everything. They are creating the problems we are experiencing. If we do not change the people we have allowed to be in charge, the great American experiment will be over. Reagan said it is no more than one generation away from being lost. If we don't fight for it our children won't have a country to fight for. You can vote your way into socialism/communism but you will have to shoot your way out. Without God's intervention we won't turn this ship around. 2 Chronicles 7:14 If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land. The time has come for us to humble ourselves and cry out to God.

"The philosophy of the classroom in one generation will be the philosophy of the government in the next." – Abraham Lincoln

"Let [the Constitution] be taught in schools, seminaries and in colleges; let it be written in primers, in spelling books and in almanacs; let it be preached from the pulpit, proclaimed in legislative halls, enforced in courts of justice. In short, let it become the political religion of the nation." – Abraham Lincoln

"A great civilization is not conquered from without until it has destroyed itself from within. " – Ariel Durant
