

Democrats' Destroy-Trump Efforts Almost Comical

Joan Swirsky

For the past 50 or more years, the Democrat Party—always leftwing but today both viciously anti-American and virulently anti-Semitic—has worked tirelessly to inflict its worldview on everyone in America.

By stealthily infiltrating our media, our schools (from pre-school to universities), and since Obama our Intelligence Services and Military, it has sought to convince our electorate that high taxes, open borders, sanctuary cities, shipping manufacturing jobs to foreign countries, post-birth infanticide, and total government control from cradle to grave are good—and that the U.S. Constitution, capitalism, high employment, law and order, indeed patriotism are bad.

No one has spelled out the devolution of the Democrat Party and the key players responsible for its demise more comprehensively than writer Shari Goodman—[read her entire article here!](#)

WORSE THAN COVID-19

Since the election of 2016, when business mogul Donald J. Trump outsmarted 20 Republican opponents, all career politicians, and trounced Hillary in the Electoral College to win the presidency, Democrats seem to have contracted a mutating virus a thousand times worse than Covid-19.

The anti-Trump symptoms are identical in all of those “tolerant” Regressives:

- Shout down opposing views.
- Spew insults and epithets.
- Create falsehoods and pretend they’re true.
- Support the domestic anarchists and terrorists of Black Lives Matter and Antifa and the vast destruction they’ve sown for the last four months.
- Vow to vote for a seriously cognitively compromised candidate and a running mate who accused him of both racism and sexism.

Almost comical!

GETTING SERIOUS

Of course the real reason for this systemic derangement is that President Trump convincingly exposed the deep criminality of Big Government and the cozy arrangements that cost the American taxpayer billions of dollars each year:

- The Obama-Biden regime’s weaponizing of the FBI, CIA, and the FISA Court, et al, resulting in ongoing investigations which could and should land the

principals of those organizations in Gitmo.

- The crooked money “arrangements” enjoyed by higher-ups like former VP Joe Biden in securing multimillion-and-billion-dollar windfalls for himself, his son Hunter and his brother James. Ukraine, anyone? China, anyone? There is this damning piece about the [Biden Crime Family Inc.](#)
- But worse is Debra Heine’s article about the explosive new documentary, “[Red Dragon: Uncovering the Bidens’ Chinese Secrets](#)” that **“tells the hidden story of the secret financial relationship between Joe Biden’s family and the Chinese government, exposing how the Bidens’ business dealings even served the strategic interests of the Chinese military while Joe Biden was VP of the United States.”**
- The horrible treaties, including the Iran deal, NAFTA, NATO, et al, that benefitted foreign countries significantly more than the U.S.
- The interest of the “anti-war” Democrats in keeping wars going endlessly (always follow the money).
- The degree to which lobbyists and the members of Congress they hire determine legislation that is good for their pocketbooks but not for We the People who they purport to represent.
- The utter impoverishment of Democrat philosophy and policy.

AND THE WINNERS ARE!

Candidates Biden and Kalamity are telling the American public that it is *they*—and not President Trump—who will bring America to its best days yet. Yet they admit they will:

- Raise taxes to unprecedented levels.
- Reinstall the strangulating regulations that President Trump did away with in order to allow Free Enterprise to flourish.

And, [according to Sundance](#), **Joe Biden opposes:**

- Energy independence.
- Stable energy development for our economy, which is the backbone of manufacturing revitalization.
- Earth-mineral exploration and development.
- And he “promises to reattach our economy to the Paris Climate Treaty which will forever restrict the growth of American industry.”

Given all these economy-killing policies, the delusional Biden-Kalamity ticket continues to assure us every day that we should trust them to invigorate the economy and boost employment.

Almost comical!

Cui Bono—Who Benefits Under Biden-Kalamity?

Certainly not the Black community which has enjoyed the highest employment in American history under President Trump!

Certainly not the Blacks who have been imprisoned with disproportionately harsh sentences, but thanks to President Trump’s [“First Step” program](#) have been freed to enjoy gainful employment and their cherished freedom. By the way, where was the Obama-Biden tag team for eight years in bringing such life-enhancing legislation about?

Certainly not the [Hispanic community](#) which has also enjoyed

record employment under President Trump's policies.

Certainly not women who have enjoyed record employment under President Trump's policies.

Certainly not the youth of our country who have enjoyed record employment under President Trump's policies.

PLAN X

Think about it. Since Donald Trump and his gorgeous wife Melania came down the escalator in Trump Tower in June of 2015, every leftist pundit, commentator, TV anchor, sophisticated scribe and Hollywood ditzoid predicted—with amazing confidence and self-important arrogance—that “Donald Trump will not be President of the United States.” Here is my [favorite clip](#) of those always-wrong know-nothings.

Today, about six weeks from the election, all those brilliant Democrats—you know, the ones with the fancy college degrees, the impressive credentials, the high IQs, the decades in government service at the highest levels—are the same leftists who:

- Failed at the Russian hoax.
- Failed at the Ukraine hoax.
- Failed at the Impeachment hoax.

That's a lot of failure. But it hasn't stopped the Democrats from continuing to fail.

While President Trump is busy bringing about unprecedented breakthroughs in forging alliances between Israel and the United Arab Emirates, Serbia and Kosovo, and now Israel and Bahrain—for which he has rightfully earned not one but two nominations for the Nobel Peace Prize—Democrats once again

prove their idiocy by admitting that they loved when the arch-terrorist Yasir Arafat received the prize and when Barack Obama received it for...um...what???—but all of a sudden, they hate the Nobel Prize.

Almost comical!

PLAN Y

Now desperate, the Democrats trot out an article in the far-left Atlantic magazine that alleges that the president called American World War I veterans who died in France “suckers” and “losers.” This canard was an accusation not one person in America believes, given the president’s unequalled respect for and largesse to our military, including the massive build-up of the U.S. Military that the Obama-Biden regime eviscerated, emasculated, and tore down at every opportunity.

Where did this poison dart go? Another failure.

The next day, the same now-panicked leftists trotted out the “breaking,” “explosive,” and also go-nowhere revelation that Bob Woodward, the reporter for the fanatically anti-Trump Washington Post, revealed in his new book, *Rage*, that President Trump, gasp, didn’t want to panic the public and so played down the potentially dire information he was receiving about the China virus, Covid-19.

Imagine going to a doctor or bringing your child to a doctor, only to have that medical professional enter the room and tell you, “This is bad, very bad.” A sane person would call this doctor an alarmist and walk out of the room, outraged by his or her lack of empathy, lack of optimism, and failure to suggest a plan of action.

President Trump, on the other hand, demonstrated tremendous empathy for a scared public, the indomitable optimism that characterizes the American character, and an extensive plan of action that was implemented with seamless efficiency—all

things that Domsday Democrats hate!

Unfortunately for Woodward and his boss Jeff Bezos, this poison dart also failed because the American public that leftists hold in such contempt have eyes and ears and see for themselves what the president did to protect them, including immediately shutting down travel to the U.S. from China, and then from Europe, and then employing his vast executive experience in obtaining more personal-protective equipment and medically-outfitted ships and masks and respirators and testing than any country on earth—and in typically Trump record-breaking time.

PLAN Z

No doubt, these frantic, Democrats will keep up the anti-Trump drumbeat until Election Day on November 3rd—fabricating explosive headlines, leveling damning accusations, and working overtime to rig the election.

But this effort will earn them a Z for zero success. That is because I suspect that most Democrats are not that dumb, that when they get into the voting booth and draw the curtain, and even when they fill out the mail-in voter forms, they will pull the lever or check the box for the man who promises—and has already delivered—peace and prosperity.
