

Department of Government Efficiency: Exposing the Stink in Washington DC

By Frosty Wooldridge

February 27, 2025

“Power tends to corrupt; and absolute power corrupts absolutely,” said British philosopher Lord Acton. (1834-1902)

You’ve seen that harsh reality play out in thousands of news articles where a bank teller embezzled money for years. You read about it where a treasurer for an organization wrote checks out to a person, only to be exposed after years that the “person” was his or her bank account. High school kids cheat on exams. College kids cheat on tests by paying for someone to take those tests. Teens buy false ID’s in order to buy booze.

Shoplifters in America steal over \$100 billion annually. They walk out the doors of grocery stores, Home Depot, Walmart, Kohl’s, T.J. Max, Macy’s and thousands of other mercantile stores—with a load of loot stuck under their dresses, into their coat pockets, between their legs and in their baby strollers. Others steal from ATM machines. Still others rob trains. Millions sell illegal drugs that kill people. But that doesn’t stop any of them from working outside the law.

If you look back at the millions of dollars of the Kennedy Clan, Joe Kennedy, during the Prohibition, he ran whiskey and beer across borders and state lines to amass incredible

wealth. In other words, for a certain percentage of people in America, crime pays.

If you read about the “Robber Barons” of the 1800’s, J.P. Morgan, J.D. Rockefeller, Andrew Carnegie, Cornelius Vanderbilt, Jay Gould and John Jacob Astor were all a bunch of high level crooks. They made slaves out of their employees by paying them very little, but worked them to death. They cheated, lied and accumulated incredible sums of money. They had university’s named after them. Some of them, in their older years, actually did some good things like J.D. Rockefeller saved the Redwoods from being completely wiped out. Carnegie created libraries across America. Sometimes, “guilt” makes a crook change course.

NOTHING MUCH HAS CHANGED IN AMERICA IN 2025

When it comes to the United States government, it really pays, big time to filch money out of the U.S. treasury.

U.S. Senator John Kennedy, (R-LA) said, “A big percentage of Congressional critters should be making license plates at the local prison.”

We’ve got U.S. Senators like Nancy Pelosi giving her husband information on military defense contracts. He turns around and buys millions of dollars in stocks so he can make more millions of dollars on all those munitions. Pelosi is worth over \$100 million from insider trading.

At the behest of President Trump, the smartest man on the planet and its wealthiest billionaire, Elon Musk charged into that “Den of Thieves” in DC with his D.O.G.E. mandate. Within weeks, he found billions, if not trillions of dollars being wasted and stolen. He discovered that U.S. AID provides a slush fund for politicians to extract million and billions of dollars of YOUR tax dollars for the most incredibly corrupt and stupid programs worldwide.

He discovered that only 4% of government workers in the Washington DC area came to work. Entire office buildings were bare of workers. Those people make over \$100,000.00 a year to sit at a desk, but 96 percent of them haven't come to work in four years. They get paid to do nothing! When Musk asked them in an email what they accomplished in the past week, the majority of them refused to answer the questions. In other words, they leech off the American taxpayer, lie like hell, and cry like a baby when their scam is discovered.

But the lies continue with the main stream legacy media. They made sure than NO ONE knew about the incredible corruption of U.S. AID. It's been going on for six decades. A whole lot of people have tapped into the billions if not trillions given away by U.S. AID unelected bureaucrats. Once the exposure exploded via Elon Musk, you've got all the scammers demonstrating, singing to deport Musk, and crying for their "jobs".

THE WHOLE THING STINKS IN WASHINGTON DC

If you look back in history, kings and queens lived in their castles while the "serfs" labored in the fields to produce food for those royal "gods."

If you look at our U.S. Congress today, you've got 21st century kings and queens living off our tax dollars from our labors. Notice Nancy Pelosi doesn't wash her own dishes. Her housekeepers do it for her. She doesn't fix her breakfast. She doesn't vacuum the carpet. She doesn't clean her toilet. You, the taxpayer pay for her maids.

What confounds this journalist stems from the fact that we Americans keep voting these political leeches back into office for decades. Let's face it, House Member Maxine Waters has done NOTHING for her constituents in California for 30 years. She's done nothing for the 170,000 homeless in her district. But she lives in a \$4 million castle.

That bartender in New York, AOC, now enjoys \$1,000.00 coats, dresses and the latest styles. She's the new royalty, yet has done NOTHING to make her district better other than invite thousands of homeless illegal migrants to use your tax dollars to keep them fed, house and protected from ICE.

There's one thing about royalty 500 years ago, and the same thing in 2025: they wouldn't give up their royalty back then. And our new royalty won't give it up now. Our new royalty won't vote for "Term Limits." Once they are voted into the DC "club", they want to stay in the club.

In the meantime, you and your hard work pay for their homes, wardrobes, status, bank accounts, lies, cheating, stupidities and all the vagaries of the new DC privileged class. Career politicians are the 21st century "Royal Class."

At some point, we "serfs" need to DEMAND term limits. Because if we don't, Lord Acton's quote will remain a burden for every American taxpayer every working day of their lives.

Finally, let's support Elon Musk and his brilliant DOGE team!
