

Dept. of Justice Protects Criminals – Where's Your Outrage America?

I've tried to give Jeff Sessions a chance as the new Attorney General. If you take politics out of the equation, Sessions did a lot of good things while U.S. Attorney for the Southern District of Alabama and Attorney General for the State of Alabama. The lies by the prostitute media and members of the Democratic/Communist Part USA in Congress that Sessions is some sort of white supremacist or racist are just that. I always give credit where credit is due and in this case, Sessions deserves a great deal of credit in the area of civil rights.

But, I should have known better after Sessions' disgraceful cowardice in taking on the confirmation of another criminal, US Supreme Court Justice Sonia Sotomayer:

Any American who has been following the sewage spewed out in Washington, DC over the past 50 years can come to no other conclusion that while there most certainly are honest, dedicated people who do work at DOJ and the FBI, it's the top dogs who continue protecting criminals. Men and women who allegedly have had such 'distinguished careers' and 'squeaky clean' are now seeing their dirty drawers laundered in public. Other elected and appointed officials at the top who also belong in federal prison: Hildebeast Clinton, the tramp she's married to, Susan Rice, Lois Lerner, James Comey and probably

Loretta Lynch.

[Watchdog: FBI has located 30 pages of documents related to Clinton-Lynch tarmac meeting:](#) “The FBI is out of control. It is stunning that the FBI ‘found’ these Clinton-Lynch tarmac records only after we caught the agency hiding them in another lawsuit,” Judicial Watch Tom Fitton said in a statement. “Judicial Watch will continue to press for answers about the FBI’s document games in court. In the meantime, the FBI should stop the stonewall and release these new records immediately.”

Don’t tell me Debbie Wasserman-Schultz, putrid hag that she is didn’t know about this going on right under her nose considering how ‘chummy’ she was with the indicted:

[Imran Awan case: Lawmaker calls ‘massive’ data transfers from Wasserman Schultz aide a ‘substantial security threat’](#)

“A Republican lawmaker on Tuesday described the “massive” data transfers on government servers by a former IT aide to Democratic Florida Rep. Debbie Wasserman Schultz as “a substantial security threat.”...Imran pleaded not guilty in September to multiple federal charges including bank fraud and conspiracy. A grand jury had returned an indictment in August in the U.S. District Court for the District of Columbia charging Imran Awan and his wife, Hina Alvi, with a total of four charges. “Awan and other IT aides for House Democrats had been on investigators’ radar for months over concerns of possible double-billing, alleged equipment theft and access to sensitive computer systems. Most lawmakers fired Awan in

February, but Wasserman Schultz had kept him on until his arrest in July.”

I have no doubt the transfers went to Pakistan and terrorist organizations supported by your tax dollars via ‘foreign aid’.

[Push is on to disbar James Comey after Clinton scandal](#): “A crusading lawyer filed a bar grievance this week accusing former FBI Director James Comey of lying to Congress and destroying potential evidence in the Clinton email scandal, in a process that could end up costing him his law license.

“Ty Clevenger filed the grievance in New York, where Mr. Comey was a former U.S. attorney and is licensed to practice law. Mr. Clevenger said Mr. Comey’s testimony to Congress that he did not predetermine the outcome of the FBI’s probe into former Secretary of State Hillary Clinton is belied by revelations this week that he in fact started drafting an exoneration months before even speaking with Mrs. Clinton.”

The question is how much more will these criminals will get away with UNLESS they are finally hauled before grand juries and indicted?

It appears President Trump is finally starting to pay attention to one of the worst cases of corruption and treachery: The sale of 20% of America’s uranium production to Russia BEFORE President Trump ever announced he was running for president. Actors: The Clinton pay-as-you-get Foundation, impostor Secretary of State Hillary the man Clinton and Hussein Obama. Yes, like hipster, Barack, stealing the office of president by fraud and deception, Clinton usurped the

office of Secretary of State while EVERY damn U.S. Senator – including Jeff Sessions ignored the facts. [Rodearmel v Clinton \(usurper\) case dismissed](#)

As you read please remember YOUR federal income tax dollars which [actually do NOT fund the government but that's how the lie is sold](#) – paid for Russia's massive military build-up and that IS a proven fact:

[The Best Enemy Money Can Buy](#) by the late Antony C. Sutton who was not some conspiracy theorist. His books are based on hard facts and documentation.

[National Suicide : Military Aid to the Soviet Union](#) by Antony C. Sutton

“For Antony Sutton, research fellow at the Hoover Institution, Stanford University, proves that there is no such thing as Soviet technology, only American and allied technology on Soviet soil. Technology that maimed and killed American boys in Korea and Vietnam. Bridge building to Communist Russia is nothing new. It started early in 1918. With mountains of documentation Mr. Sutton shows that 90 to 95 percent of Soviet technology since 1918 has come from America and its allies . . . that we've built for, or sold, or traded, or given outright to the Communists everything from copper wiring and motor vehicles to combat tanks, missile equipment and computers . . . that we are today giving equipment to build the world 's largest heavy truck plant (output: 100,000 ten-ton trucks per year – more than all U.S. manufacturers produce in a year) . . . that “peaceful trade” is a myth . . . that to the Soviets all goods are strategic.

“All this, to create and maintain an enemy that we annually spend \$80 billion to defend against. National Suicide, researched for over ten years, mentions scores of products passed on to the Soviets (down to the design specifications, in some cases). It fearlessly names the guilty manufacturers and politicians – right up to Presidents of the United States.

The government won't like this book. It blows the lid off information that has been kept from the public till now. But Americans weary of no-win wars and taxpayers repelled at subsidizing our enemy will hail this scholarly, gutsy volume."

Hey, Putin's the bad guy. The Soviets are our enemy. What horse manure propaganda. Putin is just another billionaire enjoying his powerful position while playing cat and mouse with the U.S. If Russia is our enemy then **why did our government over the decades make their military might possible?**

[Attorney: FBI Informant Was Blocked by Obama Administration from Testifying on Uranium One Deal](#)

"Attorney Victoria Toensing, a former Reagan Justice Department official and former chief counsel of the Senate intelligence committee, [told The Hill that she is trying](#) to get the Trump administration or the FBI to free her client to talk. "All of the information about this corruption has not come out," Toensing said. She said her client possesses "specific allegations that Russian executives made to him about how they facilitated the Obama administration's 2010 approval of the Uranium One deal and sent millions of dollars in Russian nuclear funds to the U.S. to an entity assisting Bill Clinton's foundation."

I believe these are the most credible, factual articles on the Uranium deal. Each of them are important. I know time is an issue but it's the sacrifice we all have to make to get the truth.

Is Jeff Sessions part of the Uranium One cover-up? If not, then he needs to explain why he is thus far refusing Sen. Chuck Grassley's request to lift the gag order imposed by the Obama administration as part of the Uranium One cover-up:” (Rest at link)

What should happen now? I don't believe Jeff Sessions should remain Attorney General. He should resign after Trump whispers in his ear. The new FBI Director, Christopher Wray, was just sworn in three months ago. Sessions had the usual rah-rah to say about Wray: “Chris has the experience and the strength of character that the American people want in an FBI Director,” said Attorney General Sessions, adding that he looked forward

to working with Wray every day to keep the country safe.”

Well, that won't happen under your stewardship, Jeff Sessions. The corruption above and the players all need a criminal referral to federal grand juries. The question is does Wray have the stones to get the job done? I don't know about you but I am sick to death of career criminals getting away with their crimes just because their last name is Bush, Kissinger, Clinton, Mueller, Comey, Obama or Mueller.

I know Sen. Grassley is looking into some of this – big deal. Rep. Trey Gowdy held how many hearings on the Benghazi slaughter only for Hildebeast Clinton and Hussein Obama to walk free? How many committee hearings on the IRS targeting conservative organizations who applied for tax exempt status while that _itch Lois Lerner walks with a fat government retirement? **One crime after another and no one goes to jail.**

No more if we are ever going to have a real Dept. of Justice and *right now the buck stops at Chris Wray's desk.* **Now more than ever we the people need to make our voices heard to Wray.** I'm in the process of composing my own one-page letter to him. Crisp, polite and to the point:

We the people no longer have ANY respect for the FBI and its ability to bring career criminals like Hillary Clinton to justice. Now that you are the new FBI Director will the FBI do what is right no matter how much political heat is put on you or will justice continue to be a joke and a moral crime against the people of these united States of America?

I'm talking about Clinton's email crimes, the bribery machine called The Clinton Foundation, the Extortion 17 Chinook helicopter shoot down that killed all 38 people on board—25 American special operations personnel (Navy Seals), five United States Army National Guard and Army Reserve crewmen and a U.S. military working dog. **Damn it. OUR Americans; another cover-up in Afghanistan** ([A retired Air Force captain says](#)

[Pentagon covered up real cause of deadly chopper crash\)](#)

Benghazi, and the Uranium One deal for starters.

This time I'm using snail mail. Besides there is no public comment line, fax or email for Wray. If Wray got 100,000 letters dumped on his desk just maybe he might go up against Jeff Sessions and start really cleaning out one of the dirtiest swamps in DC. That type of mail avalanche would also grab the attention of President Trump.

Remaining silent or 'I'm too busy' isn't acceptable. He who shouts the loudest gets the most attention.
