

Destroying Our Military From Within Continues

Just about everyone knows someone who is active duty or has served in the military; friends or a family member.

The U.S. military is supposed to be the force which protects America. But, those of us who follow the agenda of the shadow government that really rules over us know our military have been used as world cops in furtherance of a one world order/government for decades:

“In Defense of the World Order...US Soldiers would have to kill and die”. Arthur Schlesinger, Jr., July / August '95 Foreign Affairs – CFR's Flagship Publication

“The U.S. military welcomes additional funds for special units. The Pentagon continues its downsizing in preparation for the New World Order.” Former Asst. Secretary of Defense and former Director of the CIA, John Deutch, Dec. 1, 1994, McNeil/Lehrer Hour

“We are on the cutting edge of the New World Order here in Bosnia”. U.S. Army Major Busyread, May 8, 1996, CBS Evening News with Dan Rather

“We shall have world government whether or not we like it. The question is only whether world government will be achieved by consent or conquest”. James Paul Warburg, during hearings for Senate Resolution 56, revision of the UN Charter.

The U.S. military is or used to be a unique community of men trained to fight and stay alive. Our military was never meant to be a social experiment but all that changed with the rancid 'Don't ask, don't tell' policy put in place by lying, globalist, serial adulterer, Bill Clinton.

Of course, this then led to the ultimate goal of repealing DADT which would allow sexual deviants to openly serve in the military. Homosexuals could then continue spreading HIV/AIDS and all the lavender diseases they contract from having sex in another man's rectum and feces. I refer to it as bowel-movement sex. Since they are in the military all their medical expenses are free and paid for by you and me.

[The Queering of Our Military and God's Wrath](#)

Male Homosexuals

"Research indicates that the average male homosexual has hundreds of sex partners in his lifetime:

"The Dutch study of partnered homosexuals, which was published in the journal AIDS, found that men with a steady partner had an average of eight sexual partners per year.

"Bell and Weinberg, in their classic study of male and female homosexuality, found that 43 percent of white male homosexuals had sex with 500 or more partners, with 28 percent having one thousand or more sex partners.

"In their study of the sexual profiles of 2,583 older homosexuals published in the Journal of Sex Research, Paul Van de Ven et al. found that "the modal range for number of sexual partners ever [of homosexuals] was 101-500." In addition, 10.2 percent to 15.7 percent had between 501 and 1,000 partners. A further 10.2 percent to 15.7 percent reported having had more than one thousand lifetime sexual partners.

"A survey conducted by the homosexual magazine Genre found that 24 percent of the respondents said they had had more than one hundred sexual partners in their lifetime. The magazine noted that several respondents suggested including a category of those who had more than one thousand sexual partners."

[Get Out Of The Military, Don't Enlist](#)

“The U.S. military has become the biggest, most aggressive promoter of sodomy, dozens and dozens of ‘lavender’ diseases contracted by sodomites and HIV/AIDS in the world:

Fort Bliss leads Army installations with most HIV infections in past two years: “All of our recent cases have been a result of men having unprotected sex with men. African-American and Latino Soldiers were affected disproportionately in far greater numbers.”

Navy HIV infections, already high, continue to rise

“Every one of those heterosexual men raped by a sodomite now faces years of stress and anxiety waiting to see if he has contracted HIV/AIDS. So do their girl friends and wives. This is what was unleashed by even allowing sexual deviants to serve in the military under DADT. Let’s not forget about blood transfusions in combat zones. Why should a member of our military raped by a sodomite, married or not, be forced to live with stress and anxiety for years if they received blood on the battlefield? Remember: the incubation period for AIDS is about ten years.

“Any member of any branch of the military who is HIV positive or diagnosed with AIDS should be given an honorable discharge and mustered out immediately. I resent having to pay massive medical bills to treat sexual deviants in the military for their dangerous, ***preferred*** behavior in the sack.”

Combat ready is always the main goal of the military for their assigned mission.

Wait, Gunny – I Have To Change My Diaper

“RECTAL SEX – Surveys indicate that about 90% of gays have engaged in rectal intercourse, and about two-thirds do it regularly. In a 6-month long study of daily sexual diaries, gays averaged 110 sex partners and 68 rectal encounters a year.

“Rectal sex is dangerous. During rectal intercourse the rectum becomes a mixing bowl for 1) saliva and its germs and/or an artificial lubricant, 2) the recipient’s own feces, 3) whatever germs, infections or substances the penis has on it, and 4) the seminal fluid of the inserter. Since sperm readily penetrate the rectal wall (which is only one cell thick) causing immunologic damage, and tearing or bruising of the anal wall is very common during anal/penile sex, these substances gain almost direct access to the blood stream. Unlike heterosexual intercourse (in which sperm cannot penetrate the multilayered vagina and no feces are present),⁷ rectal intercourse is probably the most sexually efficient way to spread hepatitis B, HIV syphilis and a host of other blood-borne diseases.

“Tearing or ripping of the anal wall is especially likely with “fisting,” where the hand and arm is inserted into the rectum. It is also common when “toys” are employed (homosexual lingo for objects which are inserted into the rectum—bottles, carrots, even gerbils). The risk of contamination and/or having to wear a colostomy bag from such “sport” is very real. Fisting was apparently so rare in Kinsey’s time that he didn’t think to talk about it. By 1977, well over a third of gays admitted to doing it. The rectum was not designed to accommodate the fist, and those who do so can find themselves consigned to diapers for life.

“FECAL SEX – About 80% of gays (see Table) admit to licking and/or inserting their tongues into the anus of partners and thus ingesting medically significant amounts of feces. Those who eat or wallow in it are probably at even greater risk. In the diary study, 70% of the gays had engaged in this activity—half regularly over 6 months. Result? —the “annual incidence of hepatitis A in...homosexual men was 22 percent, whereas no heterosexual men acquired hepatitis A.”

In other words, homosexuals who engage in long term bowel movement sex and ‘fisting’ are likely to end up wearing

diapers the rest of their lives as they can no longer control their bowels. Might be a bit of a problem out in the theater of combat or during training.

Next on the list in the category of sexual deviants is the newly popular 'transgender' classification. Mentally ill individuals who should NEVER serve in the military: [Transgenders Mentally Ill & Should Be Treated With Compassion](#)

The various groups that make up the sexual deviant movement have worked hard to get 'transgenders' in the military. It's not bad enough we the people have had to battle that particular group to keep sexual predators out of girls dressing and bathrooms around this country.

Oh, no. The next big target was that happy, all inclusive group known as the U.S. military. Act surprised: Under the criminal impostor Manchurian Candidate who played president for eight years, Barry Soetoro aka Barack Hussein Obama, those mentally ill individuals would now be allowed to serve in our military. And so many enlisted. Hey – all that free medical care and ripe hunting grounds like women's shower rooms.

It wasn't bad enough seeing homosexuals and lesbians in military uniforms kissing on base in front of children, now what will they see? Defense Secretary Mad Dog Mattis has put the skids on things for the moment but the Soviet-style brainwashing is still being fed to the troops:

[New Army Training Tells Female Soldiers To 'Accept' Naked Men In Their Showers](#)

"On June 30, hours before the policy took effect, Defense Secretary Jim Mattis [postponed](#) the opening of military enlistments to transgender people for an additional six months. The delay does not prevent currently serving soldiers from transitioning, however." "Transitioning" is nothing but brainwashing to justify men deciding to be a woman from one day to the next.

“Late into President Obama’s last term, his military officials allowed transgender soldiers to serve openly, even [funding gender-change surgeries with taxpayer dollars](#).” Doesn’t it just make you feel so good to know that borrowed money (not your federal income taxes) funds the mutilation of men and women who need mental illness treatment?

Further down in the article above, the writer hits things right on point:

Military As Social Engineering, Not National Defense

“The force-wide presentation sheds quite a bit of light on the implications of the rule change on transgender service members. The policy prioritizes subjective feelings over combat-readiness and inverts military order by placing the needs of individuals over the well-being of their units.

“The policy allows transgender soldiers to switch their “gender marker” in the Army’s personnel database without undergoing sex reassignment surgery or any other physical changes.

“For a soldier to officially change gender requires only some paperwork. A military doctor or civilian medical professional must certify that the transgender person has achieved “stability in the preferred gender” and the soldier must change the gender designation on the soldier’s passport or birth certificate. From that point on, the transgender soldier is “expected to adhere to all military standards associated with their gender,” and “use the billeting, bathroom and shower facilities” of their new gender.” And:

“The slide tells soldiers to “understand that you may encounter individuals in barracks, bathrooms, or shower facilities with physical characteristics of the opposite sex despite having the same gender marker in DEERS.” The next bullet point adds, “all Soldiers should be respectful of the privacy and modesty concerns of others. However, transgender

Soldiers are not required or expected to modify or adjust their behavior based on the fact that they do not 'match' other Soldiers." This is a first. The military is normally in the *business* of telling soldiers to "modify or adjust their behavior" all the time...

"As important as privacy and respect are, the biggest problem with the policy is its effect on the military's core purpose of battle readiness. For example, under the policy, a male infantryman who cannot meet the bare minimum requirement of 42 pushups and is therefore considered a liability in combat can switch his "gender marker" to female and suddenly be qualified. Even though he retains the *exact same physical characteristics*, and can do only 19 push-ups, he will now be a combat-ready female infantry soldier, eligible to hold the exact same role in his former unit."

Do take the time to read the entire article.

If you are opposed to allowing the further destruction of our military from within, let your voice be heard to your congress critter. Christians have been in-your-face persecuted in the military for the past couple of decades. [Air Force Base Hosts Drag Queens](#): "The airman said it was ironic that the Air Force is cracking down on Christians being able to openly share their faith but they would allow individuals to dress in drag. "We can't even have Bibles on our desks," he said."

The situation will only get worse if 'transgenders' are allowed to serve. Remember: Serving in the military is not a constitutional right. It's an all volunteer force. If you haven't read [Pink Swastika: Homosexuality in the Nazi Party](#), I highly recommend you do so; it's a real eye opener.

[Devyv does a pod cast every Thursday: What Congress and the Media Won't Tell You, which covers bills like the one to stop taxing social security. Her last show covered the HMO Act of 1973 and the beginning of the destruction of how health care

insurance coverage went off the rails. Knowledge is power but only if truth is made available to millions of Americans. The beauty of a pod cast is you can listen live or download and listen anytime on just about any gadget out there like iTunes, on your computer, iPhone, Smart Phone or Android device. [Here's the direct link.](#) Just click on show title to the right.]
