

Dichotomies, Woke-ism, Transgenders, Insanities of All Kinds

By Frosty Wooldridge

December 9, 2024

Every day you turn on the news, something even crazier than yesterday appears on your television, or broadcasts on your radio, or flashes across your computer screen. The dichotomies and insanities keep mounting and multiplying at breakneck speed.

As in the kid who shot, in cold blood, United Healthcare CEO Brian Thompson! He stalked him, shot him in the back, and walked away. He killed a husband, father and friend. He caused incredible grief to the entire Thompson family. Now, those two kids grow up without a father. I know the feeling as I lost my dad in my teen years. His loss totally upended my life, really, for all of my life. I've never been the same since my dad's death. That "moment in time" never leaves me. But then, you've got people on social media cheering that father's death. NUTS!

Not only that, but that kid's life will vanish into a jail cell or an injection of a needle. That kid destroyed his life. It's completely insane.

Then, you look at that Jose' Ibarra beating to death Laken Riley! He destroyed her life, her family, and her friends. And, he's in jail for the rest of his life. For what? Just

because she wouldn't surrender to him for sex? So, he bashed her head to pieces. It's absolutely nuts!

When that dirtbag felon of a human being, George Floyd, died in Minneapolis, he caused a national riot of \$2 billion in damages, and many deaths, but Kamala Harris provided bail money for all the arsonists, looters and terrorists. Floyd more than likely died from ingesting fentanyl before he got arrested for passing counterfeit bills. He began as a carjacker at the age of 16, but continued as a thief, porn star, woman abuser, felon and all around God-forsaken criminal. Yet, they are naming schools after him. Then, Kamala Harris, who supported the \$2 billion in property damage, said that the riots should continue. Ironically, she became vice president of the United States. Is that NUTS or what?

Talk about dichotomies, we elected, or it appeared we elected forever politician Joe Biden into the White House, only to watch him destroy our country by inviting, engineering and forcing over 15 million illegal aliens into our country. Biden along with New York Governor Hochul caused the death of Laken Riley. That's a fact! Yet, they didn't/don't give a damn. The illegals continue pouring over our borders, daily, by the tens of thousands, by the hundreds of thousands. Is that not absolutely, incredibly insane?!

Here's another insanity:

After the fiasco of 1965 Immigration Reform Act that dumped over 140 million legal immigrants onto our country, Congress passed another bill in 1990 that increased the flow of foreigners to displace American citizens by the hundreds of thousands. That bill caused the distribution of \$500 billion annually from American workers to the investment people on the Stock Exchange. To hell with American citizens and their families. In other words, our own elected Congressional Critters screwed all of us out of jobs, solid incomes, and in

the process, sewed incredible cultural conflict that accelerates today. It's a fact that our elected officials put all legal and illegal migrants FIRST and American citizens, LAST!

Now, the mainstream media has brought all sorts of bogus charges against Pete Hegseth to stop him from reforming the Department of Defense. Instead of a decorated U.S. Army veteran, you've read that he is a horrible person. Just like the Russia Hoax that Trump suffered, the "Deep State" doesn't want anyone to stop it from its power over America and the American people. As if all those "dudes" in the Deep State aren't part of the Epstein Island sex parties. Notice how the mainstream media buries any of the stories they don't want the American people to read about.

What about that "WOKE" crap being forced down the throats of our American soldiers. We don't want our Marine and Army killers wearing dresses and earrings. We want men to get into the field to kill the enemy. The fact is, when you get around "transgender individuals", you get a really icky feeling all over your body and mind. It's a biological "ickiness" that a straight male cannot shake. Along with that kind of craziness within our military ranks, you've got Secretary Austin promoting CRT within the military. It's beyond insane to teach such insanity within the military, but that's what's happening. If that continues, our men and women in uniform won't be able to coordinate their military skills to fight their way out of a paper bag.

What about the insanity of "Defund the police"? How much more crime can we accept? How would you like to live in San Francisco where it's totally and completely nuts with 50,000 homeless drunks, mentally ill, drug addicts and bums subsisting on the streets because the mayor and city council ALLOW IT! In other words, no standards of decency or law and order! Just turn the city into a third world "sh*thole." I've seen it firsthand; that's what it is and it is

sickening. And California Governor Newsom is lining up to run for the U.S. presidency in four years?! How insane and totally crazy would our country become with him in the White House? He harbors and protects over 4.0 million illegal aliens in his state. He's about to spend millions to protect them from Trump. It's so nuts, that you can't make this stuff up.

How about the insanity of 250,000 drug overdose deaths from fentanyl that was invited over our borders by Biden in the past four years? Joe Biden stands as the number one drug distributor in America that caused all those deaths. Why? Because he caused it, plain and simple. The man should be impeached for treason. That's why Bill O'Reilly, in his book, **Confronting the Presidents: Washington to Biden**, stated that Joe Biden is the second to worst president in the history of 46 presidents.

Plenty more dichotomies continue in the United States. We spent \$6 trillion in Afghanistan, Iraq and beyond. We imported the world's mentally ill, criminals, gangs and worse. Biden turned Springfield, Ohio into a daily nightmare. Biden turned NYC into a nightmare. We've got Chicago residents ready to put their mayor in jail for his part in this entire stupid "Sanctuary City" nightmare.

What does all this confusion, chaos, dichotomies, transgenders, woke-ism, Muslims chanting "Death to America", killings, massive drug use, Sanctuary Cities, \$36 trillion national debt, mass and endless immigration out of the third world, infrastructure crumbling, killing a CEO walking on a city street--all boil down to?

It's almost like we're a nation committing national suicide.

Colorado Governor Lamb said in 2003, "We must first make America a bilingual-bicultural country. History shows that no nation can survive the tension, conflict, and antagonism of

two or more competing languages and cultures. One scholar, Seymour Martin Lipset put it this way, 'The histories of bilingual and bicultural societies that do not assimilate are histories of turmoil, tension, and tragedy. Canada, Belgium, Malaysia, Lebanon--all face rises of national existence in which minorities press for autonomy if not independence. Pakistan and Cyprus divided. Nigeria suppressed an ethnic rebellion. France faces difficulties with its Muslims, Basques, Bretons and Corsicans.'

Arnold Toynbee observed that all great nations rise and fall. But it's their method of demise that creates an intriguing point. He said, "An autopsy of history would show that all great nations commit suicide."

America is well on along that path.
