

Diversity And Multiculturalism: Decomposing American Society

The call for endless diversity and multiculturalism by America's elites creates conflict, confusion and bewilderment. Whether you listen to CNN, NPR and PBS, or read the New York Times, The Atlantic Monthly or Washington Post—those media outlets run sob stories, powder puff pieces and biased accounts of America's guilt as to racism, xenophobia, Islamophobia and nativism.

You feel a sense of guilt if you cringe at the two words fragmenting Western countries coerced into allowing endless immigration from third world countries.

Never mind that the majority of the world's poor adds 80,000,000 (million) new babies, net gain, annually by their own choices. Never mind if they cannot feed, water, educate or house their prolific numbers. Never mind that they see first world countries as an escape valves for their endless destitute and hopeless citizens.

Diversity In Choices and Nature

Diversity: a word that brings joy to anyone who loves different music, movies, animals and assorted foods. Others like different sports that suit their fancy. In every realm of personal choices, the world offers diversity of educations, thought, religions and work.

But after centuries of mixing different ethnic groups, diversity becomes a pariah and misnomer. Every night on local news stations, racial unrest dominates most big cities.

African-Americans struggle with racism in America because they remain a minority ethnic group. Where they dominate in Africa, other races struggle to survive racism. Racism in Mexico remains a steadfast component to keep people of color at the lowest economic echelons. Japan features strong racism, so much so, it does not allow immigration into that country.

In reality, from my worldwide travels, I discovered 'racism' stems from biological differences. It stems from tribal dissimilarities. Every race, when in power, practices racism against subordinate ethnic groups. Racism plays out in the animal world everywhere on this planet.

At best, humans must come to respect one another when they cannot understand each other. They must honor each other's lives while they choose to remain in their own tribes.

Multiculturalism Invading Western Countries

Sweden, once the most peaceful and vibrant country in the world, today, struggles with rapes, crime, car bombings, failing schools, parallel societies, conflicting religions and a fragmenting society.

What changed? Sweden along with the rest of Europe began immigrating Moslems from the Middle East and Africa. They imported Indians from the Sub-Continent. They introduced aberrant cultures and religions into their midst as a grand

social experiment by intellectuals bent on proving that ethnic groups and cultures might live in happy celebration of their cultures within an alien culture.

One Moslem imam boasted: "Sweden will become Europe's first Moslem caliphate."

France faces similar consequences to its endless immigration.

French writer Giulio Meo said, "In 2017, the French authorities are sending compensation to more than 2,500 victims of the jihadist attacks in Paris and Saint-Denis, who will be compensated with 64 million euros. Important victories were also attained by anti-terrorism forces. According to an enquiry by the weekly L'Express, in the last two years, 32 terrorist attacks were foiled, 625 firearms were seized, 4,457 people suspected of having jihadist links were searched, and 752 individuals were placed under house arrest. But the general impression is that of a country "failing from within".

"After two French girls were murdered by an Islamist in Marseille last month, the social commentator wrote that France is experiencing a process of national and civilizational decomposition that authorities have decided to accompany and moderate, without claiming to fight and overthrow it, as if it were unavoidable."

Fact: every culture strives for dominance. When it finds itself in large enough numbers, any culture competes with any adjoining culture. Today, Moslems contend for dominance in every city their numbers grow in Europe. Moslems struggle for dominance in Australia, Canada and America. Today, Chinese immigrants in Vancouver, Canada control that city via their majority numbers. The Canadian Chinese ran native Canadians out of that city with money, businesses, hiring, housing and numbers. Vancouver no longer remains a Canadian city.

Multiculturalism decomposes any country where it takes a foothold. It starts small, such as a city like Lewiston,

Maine; Minneapolis, Minnesota; Fremont, California and Dearbornistan, Michigan. Take a look at Spanish Miami, San Diego and Los Angeles. Look at Chicago, Illinois.

All of them decompose into mini-third world countries: poverty, failing schools, illiteracy, welfare, crime, drugs and loss of the rule of law.

I spoke about the “Perfect Storm Gathering Over America” at a political club last fall. If you want to be shocked into what’s coming, this 42-minute video needs to be seen all over America. Why? Because your children face this future with an added 100 million immigrants within 30 years.

With every 1.1 million added immigrants added to the USA annually and another 100 million by 2045, our culture cannot nor will it survive the onslaught of multiculturalism. It’s that simple. We either stop immigration or we become the victims of it.

[Welcome to Dearborn, Michigan.](#)

Yet, the United Nations, Lutheran Churches, Catholic Churches and others force those refugees into every town that features a welfare office—knowing full well those refugees cannot and will not become functioning parts of the American workforce. And worse, those organizations understand that such places like Africa, India and Indochina continue adding 80,000,000 (million) new babies, net gain, annually—so the line of refugees never ends.

View this video to see uselessness of endless immigration. It solves nothing, but in fact exacerbates population growth:

In a five minute astoundingly simple yet brilliant video, “**Immigration, Poverty, and Gum Balls**”, Roy Beck, director of www.numbersusa.ORG, graphically illustrates the impact of

overpopulation. [Take five minutes to see for yourself.](#)

As you can see from the video, no amount of immigration will solve the starvation, misery, suffering or hopelessness of people around the world. Why? Because they keep adding 80 million, net gain, annually.

But on a sociological level, America, Europe, Canada and Australia find their countries becoming "Everybody Else's Countries." Whether it's the impact of cultural conflict, religious conflict or linguistic chaos—first world countries will not survive the "Clash of Civilizations."

As stated, all cultures and ethnic groups compete for dominance. With 100,000,000 added immigrants from 196 different countries by 2050, the USA finds those millions pulling for their own culture, ethos, language and religions. America today, already fractures and fragments in the big cities with Black Panthers and Black Lives Matter calling for a separate Black Country. With the advent of more terrorist Muslims, you will see them demanding Islamic caliphates in the USA much like Europe.

Our country faces ultimately pulling apart at the seams. It will not be able to hold in the center as "Americans."

Any culture that will not defend itself against displacement through mass immigration faces extinction. That includes both time-tested and successful cultures. Embracing diversity results in cultural suicide. America's multicultural path guarantees its destruction via cultural clashes and conflict with Islam, Mexican and African cultures that diametrically oppose American culture. The more diverse a country, the more destructive and broken-down its future. The more people, the more it destroys its quality of life and standard of living. The more it adds immigrants, the more destruction to its environment. The more it imports refugees, the faster America, Canada, Europe and Australia lose their own ability to

function and worse, their identities. Exponential growth of any civilization leads to ultimate collapse. You see it in Africa, India and China today. You will see it in Europe, Canada, Australia and America in the coming years, "IF" Western countries don't stop all forms of immigration.

If you don't want a Paris, France, San Bernardino or Orlando event in your community, it's time to call for a total "Immigration Shutdown Now."

Call your senators and House rep: 1 202 224 3121 or 1 888 995 2086. Demand a stop to all immigration and stop to any Syrian immigration.

Definition of slogan: "Immigration Shutdown Now means the American people want a total shutdown on all legal and illegal immigration. That means we want all illegal immigration stopped by arresting, prosecuting and jailing employers of illegal aliens. We deport all illegal aliens by taking their jobs away and as we catch them. We want English mandated as our national language. We demand a cessation of Muslim immigration in order to protect our culture, language and way of life. We can't save the world but we can save or destroy our civilization. We demand a stable population that allows everyone to live, work and thrive into the 21st century. Especially our children." FHW

Muslims cannot in any way become Americans. The Koran forbids it. Their entire context of religious-political Sharia Law demands subjugation to their religion with no allegiance to the U.S. Constitution. The Koran forbids women's rights, marital choice, free speech, gay rights and religious rights. Our way of life remains completely out of bounds to Islam.
