

Donald J. Trump, braveheart and freedom

Educate and inform the whole mass of the people... They are the only sure reliance for the preservation of our liberty. –Thomas Jefferson

“The government is merely a servant?merely a temporary servant; it cannot be its prerogative to determine what is right and what is wrong, and decide who is a patriot and who isn't. Its function is to obey orders, not originate them.” –Mark Twain

The People Reassert Authority with Brexit

On the 24th of June, Donald Trump was in Scotland with his three children, Ivanka, Donald Jr., and Eric at the grand opening of his new hotel and golf course. He was featured on Fox News as he gave a news conference for 48 minutes. Scotland is the homeland of Trump's mother. It is a country famous for wonderful golf courses. Eric Trump was responsible for this new Trump Organization facility and course.

Mr. Trump tweeted, “Just arrived in Scotland. Place is going wild over the vote. They took their country back, just like we will take America back. No games!”

Mr. Trump answered questions regarding the British vote of 52% to 48% to leave the European Union and Prime Minister David Cameron's resignation after the loss.

Donald Trump stated, “The people of the United Kingdom have exercised the sacred right of all free peoples. They have declared their independence from the European Union, and have voted to reassert control over their own politics, borders and economy.”

“Come November, the American people will have the chance to re-declare their independence. Americans will have a chance to vote for trade, immigration and foreign policies that put our citizens first. They will have the chance to reject today’s rule by the global elite, and to embrace real change that delivers a government of, by and for the people,” he added.

Scotland will likely seek independence for a second time this decade after the [historic vote for the United Kingdom to leave the European Union](#), Scottish First Minister Nicola Sturgeon said Friday. Scotland is one of four countries that make up the United Kingdom. England, Wales and Northern Ireland are the others. Scottish voters overwhelmingly backed remaining in the EU, 62% in favor of staying to 38% who want to leave. I found that surprising.

Remember the movie [Braveheart](#)? It was more fiction than truth. Nevertheless, Scotland gained its independence some 23 years after William Wallace’s execution,

with the Treaty of Edinburgh in 1328, and Wallace has since been remembered as one of Scotland’s greatest heroes. **FREEDOM** was the rallying call in 1305, just as it is today.

The revolution against globalist is underway, it started in America with our Republican Candidate, Donald J. Trump, and in Europe it started with Brexit. May it gloriously spread throughout the free world.

European Countries Want Out of EU

Britons who voted to leave the EU said they did so for two reasons. Taking in all the Islamic migrants and Sharia law were the biggest reasons for the “leave” vote. The loss of cultural identity was also at the top of the list. [[Link](#)]

The domino effect is here! France, The Netherlands and several

other EU countries are now demanding an exit referendum. Do you suppose they're getting tired of the sovereignty destroying, unelected, globalist fat cats of Brussels bossing them around? I think the EU will become history within a couple years, even though the one-worlders will do everything to dissuade them, including the use of threats and fear. I also think Trump will win by a landslide in November. As the Brits are saying, "We're voting with Trump."

America's North American Union

[Henry Kissinger](#), Ted [Cruz's wife, Heidi](#), and former world bank president and Goldman Sachs boy, [Robert Zoellick](#), were three of the many CFR members who helped to draft "Building a North American Community." Heidi was a member of the CFR for five years, yet Ted Cruz has said the CFR is, "a den of vipers." Remember too that Heidi Cruz worked for Condoleezza Rice, who is a member of the CFR and Trilateral Commission. Ted Cruz dropped out of the presidential race, but his wife has still not gone back to work at Goldman Sachs. Dirty tricks are expected by Cruz and the GOP establishment at the RNC Convention in July.

The globalists from both parties in America are certainly unhappy with the results of England's vote to withdraw from the EU. This puts a huge damper on their plans for the North American Union.

The People Rise Up

Finally, anger over the destruction of their country through EU demands made the British people stand up. This is about the very fundamentals of society, and the people being utterly disgusted with the politicians running their country and robbing them of their future. They have had enough. Their strong vote arose **not out of fear** and pique, but out of **love for country and pride of place**.

In America, it is much the same. People are rising up with the

new revolution of Donald Trump supporters. Trump received more votes in a nominating contest than anyone previously. American citizens who love their country also do not want their culture changed, and neither do they want more job losses with the cheap labor invading our country, and our culture being destroyed with the influx of Islamic refugees.

The establishment giants on both sides of the aisle, but especially on the so-called right have viciously and violently attacked Trump in every way possible. They want to draw monies away from Trump, so they have created a “shadow operation” where they are trying, in every conceivable way, to destroy him.

This “shadow operation” is nothing more than globalists from both sides of the aisle getting together in smoky back rooms laying out plans to eliminate Trump from the race. They’ve infiltrated the rules committee, which meets the 16th and 17th of July, two days before the convention starts. They own the media which disparages Trump every chance they get. They form groups who say, NEVER TRUMP! They do everything in their power to stop the peoples’ choice.

The Cost of Freedom

The shadow operation is siphoning monies away from the large contributors who might have donated to the Trump campaign. And the only way he can win is if the little people contribute – thereby thwarting the power elite’s attempt to control the outcome of the election.

As in the United Kingdom, the American grassroots can have the final say. It is in helping Donald Trump with our donations. The easiest way to get rid of  globalism is to donate to Mr. Trump’s campaign. Mr. Trump spent \$40 million on his primary campaign, and is still spending his own money, as well as losing income from those companies who have divorced him for going against the New World Order plans.

It is the little people with low incomes, it is the elderly on social security, it is the broken family who out of their need, takes a few dollars from their grocery money and sends it to Mr. Trump. It is those who've lost their jobs, those who have lost hope, those who are weary of defeat, who have been inspired to help. It is those of us who have worked hard all our lives and have watched our country being destroyed, who give our last few dollars in the hopes that Mr. Trump will be elected our 45th President.

Remember the Biblical story of the widow's mite. Luke 21:1-4
KJV

And he looked up, and saw the rich men casting their gifts into the treasury. And he saw also a certain poor widow casting in thither two mites. And he said, Of a truth I say unto you, that this poor widow hath cast in more than they all: For all these have of their abundance cast in unto the offerings of God; but she of her penury hath cast in all the living that she had.

The elitists think we're stupid, that we're the unwashed masses they can rule, that we are too ignorant to know what is good for us. Well, we sure as hell know the globalist neo-conservative Trotskyites of the right, and the hardcore Stalin/Lenin Communists of the left are not good for us or for America.

Truly, it is the little people who will make the difference in our country, who will stand up and be counted, even with their last few pennies. It is us who will give America a second chance by supporting Donald J. Trump.
