

Fight Back With The American People's Citizen Grand Jury

"The duty of the citizen grand jury is to separate fact from fiction, after a full and impartial examination of the evidence and then decide if the evidence supports the filing of criminal charges in a True Bill Indictment."

In a Constitutional Republic, it is the people's representatives in state, county and city legislatures and the U. S. Congress to do the work of the people on their behalf. Well, that is the way it is supposed to work and that is the way the Founders had intended it to work. Unfortunately, the Founders could not have envisioned the depths to which politicians will go to obtain power, nor could they have imagined how corrupt politicians will become in their lust for power. With the two American parties vying for political power, the people become unwilling and unwitting pawns to the dueling parties, or dueling ideologies. Solving the many problems of a complex nation take a back seat to the war between the parties, which then divides the nation into a war between the people. The greater the division, the more the politicians exploit the division. Allowing the divisions to grow and fester without intervention, finally leads to violence between the people. Rifts between constituency, ethnic, or gender groups grows to a point where there is talk of civil war or revolution. That is where America is unavoidably headed today without intervention by the people.

If the politicians become corrupt, the institutions of government become corrupt. Power becomes the overriding

goal Instead being governed by facts, truth and honor, the people are cajoled, manipulated and brainwashed by propagand a and special

interest agendas, like Climate Change, green new deals, open borders and Medicare for all. Corrupt public schools and colleges embed that propaganda and hidden agendas into the impressionable minds of the young, thereby perpetuating and cementing the lies and agendas for generations, a living example of our "[Little Black Box Theory](#)." In time, multiple generations are infected and a Constitutional Republic slowly morphs into an absolute ruling class monarchy. This is why so many millennials are flocking to the shores of socialist Bernie Sanders and the pea brained, loud mouthed, ignoramus congresswoman from New York, Alexandria Ocasio-Cortez.

There are only two alternatives to resolving the war between the two ideologies either peaceful, or violent. Violence is not only messy and undisciplined the outcome is never assured. History has proved that free societies are the least likely result of war. Violence and war lead to massive losses in lives and property that can take decades and untold money and resources to rebuild, if ever. **Those that control the money, guns, land, food, water and health care win and they don't want the people to have freedom.**

Peaceful discipline and order are the only logical resolutions to the conflict between irreconcilable differences of parties and competing ideologies. The Constitution and common law gave us a method where we can employ discipline and order, to reach a positive outcome. One of those methods is the citizen, common law grand jury that has been fully sanctioned by the U. S. Supreme Court in *United States v. Williams* (90-1972), 504 U.S. 36 (1992). Here is an excerpt from the decision. We have underlined the important passages.

“The grand jury’s functional independence from the judicial branch is evident both in the scope of its power to investigate criminal wrongdoing, and in the manner in which that power is exercised. “Unlike [a] [c]ourt, whose jurisdiction is predicated upon a specific case or controversy, the grand jury can investigate merely on suspicion that the law is being violated, or even because it wants assurance that it is not.” United States v. R. Enterprises, 498 U. S. ___, ___ (1991) (slip op. 4) (quoting United States v. Morton Salt Co., 338 U.S. 632, 642-643 (1950)). It need not identify the offender it suspects, or even “the precise nature of the offense” it is investigating. Blair v. United States, 250 U.S. 273, 282 (1919). The grand jury requires no authorization from its constituting court to initiate an investigation, see Hale, supra, at 59-60, 65, nor does the prosecutor require leave of court to seek a grand jury indictment. And in its day to day functioning, the grand jury generally operates without the interference of a presiding judge. See Calandra, supra, at 343. It swears in its own witnesses, Fed. Rule Crim. Proc. 6(c), and deliberates in total secrecy, see United States v. Sells Engineering, Inc., 463 U. S., at 424-425.”

If the U. S. Constitution has not been totally decimated or fractured by criminal interpretations of its content by the Progressives in our midst, “We the People” are still in control, provided that the “People” have the courage to

preserve, protect and defend that control under the terms in the Declaration of Independence wherein it states: **“That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed.”** If “We the People” abdicate our rights as the “consent of the governed”, then we are but pawns of an all-powerful government and deserve whatever the government dishes out to us. One of our sacred rights is to prosecute criminals using the citizen grand jury when government won’ do the job.

Under the above named U. S. Supreme Court decision, the citizen grand jury can investigate ANY alleged criminal wrongdoing, even if it is just a suspicion of wrongdoing. That could include, but not limited to, alleged criminal offenses by corrupt politicians, or bureaucrats, or criminal wrongdoing by private individuals, or large groups of individuals, whether they be American citizens, or foreign nationals.

Foreign nationals are illegally streaming across our borders in record numbers to the point that today illegal immigration isn’t just a problem any more, it is a crisis that affects every American, either in their day-to-day lives, in their culture and in their pocket books.

According to Supreme Court Justice Anthony Scalia (deceased) **“It is well established that the Fifth Amendment entitles illegal aliens to due process of law in deportation proceedings.”** Consequently, if illegal aliens are entitled to constitutional due process, they are also subject to the laws of criminality. By crossing our borders illegally, they have committed a crime and are subject to criminal penalties. That penalty is immediate deportation. Instead, under America’s inane legal system and asylum laws, illegal aliens are blessed with the enforced generosity of legal Americans and are treated as if they have greater rights than do legal Americans. In fact, illegal aliens have by law, been granted super citizen, above the law, status. **If this super citizen**

status for illegal aliens does not make legal Americans furious, they must be brain dead.

Rather than getting angry, the American people need to exercise their rights and obligations to see that the rule of law is not sullied by irresponsible government actions or legislation, actions or legislation that create magnets that draw foreign nationals to our borders and shores, encouraging them to break our laws.

To that end, we have established the "[American People's Citizen Grand Jury](#)", impaneled for the sole purpose of investigating the evidence of criminal wrongdoing by foreign nationals who have illegally entered the United States of America. Their crimes consist of: 1) *crossing any American national border illegally by avoiding the points of entry, whether by land, sea, or air, anytime after January 1, 1952;* 2) *lying to Customs Border Patrol (CPB) Agents about the foreign national's status at entry, or presented false or forged documents;* 3) *seeking entry under U. S. asylum laws by providing false information;* 4) *being denied entry on asylum grounds in an immigration court;* 5) *convicted of a crime discovered by CPB agents at entry, or any crime committed, whether misdemeanor or felony, within the United States;* 6) *is guilty of moral turpitude, as described in the Immigration and Nationality Act, Section 212(a)(2)(i);* 7) *illegal entry into the United States after being deported one or more times;* 8) *is infected with a highly communicable diseases that could cause rapid infection of the general population;* 9) *overstaying an entry visa;* or 10) *violation of any other applicable federal immigration law.*

The American People's Citizen Grand Jury has three goals, investigation of the crime or crimes of illegal entry into the United States by illegal aliens (*the crime is self-evident*), documenting the evidence of the crime or crimes (*affidavit of the evidence is drafted*), and finally, a presentment of the evidence in an indictment (*indictment drafted*). The

investigation has already been conducted and is public knowledge, as is the evidence of the crime or crimes perpetrated by foreign nationals. It is therefore the task of the grand jury jurors to analyze the evidence, sign a document of the evidence (*the Affidavit*) and present the indictment. The effort might take all of fifteen or twenty minutes by a citizen juror.

If you still believe that ***“We the People”*** are truly, by nature’s and God’s will, the ***“consent of the governed”*** then your duty as a legal American is to become a juror on the ***“American People’s Citizen Grand Jury”*** and indict every foreign national that has broken our laws and illegally crossed our borders into the interior of the United States to live off the generosity and good graces of the once-free American citizens that have become apathetic pawns to a tyrannical government. To do otherwise is to sanction the breaking of our laws by illegal aliens, in a nation whose only foundation for existence is the “rule of law”, not the rule of men. If the illegal aliens prevail and gain amnesty, as the Progressives lust for, then the “rule of law” is meaningless. **If the “rule of law” is meaningless, then so too are the individual, unalienable rights and protections enshrined in the U. S. Constitution.**

Obtain your copy of the juror’s ***“By The People”*** declaration today, as shown in the image that accompanies this article.

Remember, the citizen grand jury can be used for many other criminal issues that face Americans today. It is not limited to the illegal immigration issue. We don’t need a convention of the states (COS) to reclaim our Constitutional Republic or a civil war. We still have the “rule of law” by “We the People.”
