

# For All Of You Willfully Blind People, Give Me One Example

By Bradlee Dean

“We now live in a nation where doctors destroy health, lawyers destroy justice, universities destroy knowledge, governments destroy freedom, the press destroys information, religion destroys morals, and our banks destroy the economy.” – Chris Hedges

Most recently, another conspiracy theory turned out to be another conspiracy exposed (Concerning the space shuttle disaster).

Friends, I have to tell you that there are so many of these conspiracies that I have run out of conspiracy theories. Why? Because a majority of them have become America’s reality.

At least 94% of the people in this country say they do not believe the mainstream media, and for good reason (John 8:44).

Yet, what is interesting to note is that those who do not believe the mainstream media are also the ones who do not realize that it is the mainstream media and their “useful idiots” that are responsible for labeling conspiracies as “conspiracy theories.” This, as history and experience have taught us, is the method of those doing their best to cover for those who are responsible for the act of conspiracy

(Jeremiah 11:9).

What defines the lunacy here on the part of these people who say that they do not believe the mainstream media is that they are the ones, in their hypocrisies (Romans 1:18), that go along with the mainstream media by calling the conspiracies a theory.

O.K.!

Therefore, to bring the hypocrites to a point of no gainsay, I put it in their laps (a law unto themselves) to prove me wrong concerning the truth of each matter.

I gave the callers an hour to call me on LIVE radio to prove to me and the listeners to name a conspiracy theory that turned out to be a theory rather than a conspiracy.

Exception: Bigfoot, aliens, etc. where it always ends in speculation, conjecture without evidence to verify.
