

Forget “Republican” and “Democrat”

DO NOT VOTE FOR SOMEONE BY THE INITIAL NEXT TO THEIR NAME!

The old party labels, “R” and “D”, “I” or “L” are utterly meaningless in today’s world.

In America today, we have only two choices of affiliation: our Constitution or Communism. Know it, and live by it. This vivid dichotomy is hideously apparent, everywhere today.

As we approach voting season – the most critical one in our nation’s history – this is one fundamental that Americans must understand. It’s MAGA v. Deep State/Globalists/Marxists. Whatever you choose to call them makes no difference. The two sides in this conflict are those who love this country and those who are doing everything they can to destroy it – AND us. This is NOT some word game. It is deadly serious.

Many Americans already understand that, on some level. Here’s some background to help clarify.

Once upon a time, there were two parties who often disagreed about how to solve America’s problems. They would come to a compromise on solutions. Then, with the onset of the Obama era, it became obvious that one side thought America WAS the problem, and wanted to destroy it. Since then, no “compromise” is possible. Since then, our choices were simple: lose our

freedom or retain it.

Please allow me a minute or two to give you a quick and almost simplistic outline how this has all happened, in our post WWII era, at least. Explanation helps clear any lingering fog.

The Marxian attack on America began after the second great war, when our government brought over Japanese and German mind control and drug experts, to help the US government control its own. Ostensibly, of course, that was all to help us deal with our Cold War enemies.

If you had no idea how incredibly involved the Japanese had been in drugs and human experimentation, read about Unit 731. You will learn more of the unimagnable acts of man v. man. It is NOT easy reading, I warn you, but you really should at least comprehend. It applies across the decades, directly, to the Fauci era of using drugs to murder.

In reality, this was the beginning of the malfeasance of the CIA (formerly Office of Strategic Services, or OSS) and FBI. At the risk of vast oversimplification, it started because the wartime head of the OSS, Wm. Donovan, told FDR that we needed a peacetime intell agency that gathered information overtly AND covertly.

We got THAT, in spades. Under FDR, J Edgar Hoover, began the surveillance state, which continues on steroids, as you know, today.

But, post-war America paid no attention to politics. We were SO happy to have the war ended, and our loved ones home or laid to rest. Levittowns, America's first planned residential communities, sprang up and the economy shifted from wartime production to consumer goods. While Americans reveled in peacetime, had families, and were distracted by markets full of things to buy, our government was even then involved in plans for the great take down which we are facing today. They got Hollywood, and the media to do their bidding, and that was

a huge start. Even the Disney Brothers went along. That is very clear today.

We were so busy enjoying the fruits of freedom and peace, that we didn't notice that we were losing it, first covertly, now openly.

Two wars "to end all wars" have come and gone, and we have remained engaged in some kind of worldwide conflict ever since. Our real enemy, the "Globalists" need us to be at war at all times.

Endless war depletes our human and monetary capital, and – as the old thinking goes – makes us unwilling to change administrations in the middle of conflict. Until we got to the JUNTA, that is. NOW, it's very clear that about 80% of America would love to get rid of those in the DC Cabal regardless – or because of – the international conflicts they have initiated.

Remember old Joe McCarthy? He was right. There WERE – and ARE – Communists in our government. He'd be flipping in his grave if he could see us now.

Today, we are seeing the possible onset of WWIII, which was unthinkable only 80 years ago. Communism in America has fully – even openly – infiltrated our government. It is literally, in our face.

The prosecution/PERSECUTION of the one President in this post-war period who brought us peace and prosperity, and anyone who supports the MAGA movement is the new reality.

Steve Bannon is going to jail. For the EXACT same misdemeanor committed by Eric Holder. Disregarding a subpoena, citing executive privilege. The situations were exactly the same, except that Bannon's executive was Donald Trump, and Holder's, Barack Obama.

Peter Navarro is in jail for made-up charges.

Donald Trump is facing sentencing on July 11.

Rudy Giuliani was bankrupted and still faces possible sentencing.

Roger Stone was dragged from his home in an early morning raid, at gunpoint.

J6 families have told hundreds of stories about the injustices and attacks by our government.

There will be more to follow. Even elderly Grandmothers who speak against abortion, or the J6 Purge are being thrown in jail.

Is this really our America? The plain answer is "NO".

There is no one in DC, and very few in our statehouses who can/will help.

Even if they bear the "R" label, most are tied up serving their latest masters, and forgetting that they are there to serve us. Did we forget to remind them often enough? Strongly worded letters are worse than a bad joke.. The "R's" today represent no opposition. Most have simply joined the other side.

That is why we are where we are today.

SO, it is up to us. It is past time to remind office holders from the bottom to the top.

*****"Next Man Up"*****

As the enemy neutralizes Pro-Americans, on the national, state and local levels, in the media and conservative organizations, we need to be ready to be the next man up, the next person or group to step into the vacuum created by the wrongful imprisonment, or removal of those strong Americans.

PLEASE take time to listen to the June 11 Tucker Carlson

interview of Steve Bannon as he prepares to be jailed.

As Steve Bannon said , America has been created and saved throughout our history by holding to “next man up” concept. The enemy will continue to neutralize us. For each person they take out, there must be multiples who are ready to step forward to continue the battle. This is how our country was won on, and how our nation will be won back, today, in this Year of Our Lord, 2024.

We are in a political war, an information war. These, we can help win.

It is OUR JOB to save our Republic. That’s Bannon’s message and, mine. The ballot box, and all of the time leading up to the elections of 2024, are our “hill to die on”.

Know that each of us MUST play a role.

We must be the Next Man Up. Any way we can.

FIRST thing to do: Let your elected “representatives” KNOW that they can no longer hide behind party labels.

Want to see where they stand real quick? Ask them to give simple one word answers to the following questions:

**Was the 2020 election stolen?

*Should international agencies make decisions for Americans on health care?

*Do you support the UN?

*"Do you support voting with paper ballots, hand-counted, ON THE DAY OF THE ELECTION?"

You get the picture. It will be clear. Their votes and their actions are the windows to their souls.

Many states have primaries coming up. Check voting records on

Conservative Review's Liberty Scores, GovTrack.US or your favorite site. TELL your reps that you know how they have voted. As in the case of FL or GA, tell them you KNOW what is being done to silence conservatives and disrupt the Trump candidacy. Stay in contact with them. If necessary, saddle them up and ride. Spread the word.

SECOND: Get everyone to the polls in your state's primary AND the Nov. general election. Then,

Choose the
Constitution
Over Communism

Vote for America!

Blessings, and a PS:

If you would like yard signs like the one I designed, above, PLEASE let me know asap. I can provide them to your state/county/town. They are 24" x 36", non-candidate specific, and carry a powerful message to all, regardless of party affiliations. All I will need is someone to volunteer to receive them, and the cost of the signs. The more we distribute, the less expensive they will become. Let me know in the comments section.

OK. I'm going to stop here. You get it. I needed to vent along

with the history lesson, I guess. As a history major in college, I've always relied on the look in the rear view mirror as completing the picture of the road ahead. And, that, it does, in 21st century America. It is incumbent upon us to know both, to make ready.
