

Full-Scale Invasion of America: The Serious Ramifications to All of Us

By Frosty Wooldridge

May 8, 2023

Part 3: An astounding 45 million Americans functionally illiterate, 48 million people in the USA foreign born, another 20 million illegals foreign born, 6.6 million more illegals in past 26 months foreign born, Balkanizing America into major conflict, populating it into chaos.

The news journalists on FOX with Lawrence Jones and CBS this past weekend reported that after Title 42 expires on May 11, 2023, the average flow of illegal migrants will jump from 5,200 daily, which equates to 150,000 monthly for the past 26 months--to 10,000 daily, which will exceed 300,000 illegal migrants every 30 days.

The fact remains that President Joe Biden and/or his handlers prove themselves TOTALLY out of touch with the end result of Biden's orchestration of this foreign invasion. His head of the Department of Homeland Security, Alejanhandro Mayorkas, also foreign-born in Cuba, supports the invasion while undermining the U.S. Border Patrol at every juncture.

From my planetary travels through many third world countries, what do you think I discovered as to what causes endless poverty, starvation and human misery in those nations? Answer: illiteracy. It's viciously circular in that such countries lack birth control measures or maintain religions that condemn birth control. Thus, they overpopulate themselves into continued misery because they cannot educate their citizenry. They add, 83,000,000 new babies, net gain annually. There is no way they can water, feed, house, educate, or provide work for THAT many people. Thus, millions search for a new country to inhabit.

Let me make this very clear: we could take in 30 million refugees a year, but that means another 53 million refugees would still be pounding down our borders to get into the USA. That living nightmare would repeat itself every year to the end of this century. Let that sink-in for a minute.

As it is with the 6.6 million that crossed illegally into our country in the past 26 months, it's costing U.S. taxpayers \$150,000,000,000.00 (billion) annually to house, feed, and care for them. (Sources: U.S. Border Patrol, www.fairus.org) Did you see the report on FOX NEWS on Saturday? FOX anchor Lawrence Jones interviewed a Chicago journalist who gave a report on the "Inn of Chicago" that is housing, feeding and caring for illegal migrants with 359 rooms at \$300.00 a night per room. With at least four to a room, they feed 1,436 people three meals a day. The reporter said, "The Inn of Chicago" is receiving \$25 million monthly to house and feed those illegals—that's your tax dollars. (I have no idea the validity of that number, but I personally heard the Chicago reporter make that statement.)

If another 6.6 million illegals or more enter, along with 2.0 million more immigrants legally entering our country within the next 20 months of Biden's term, we are looking at a financial disaster, housing disaster, educational disaster, sociological disaster, cultural disaster, linguistic disaster,

and economic disaster--beyond our ability to comprehend, let alone survive it.

Our Own National Problems Off The Charts Already

According to latest government reports, we house 45 million functionally illiterate Americans in 2023. (Source: www.statista.com) They are homeless, existing on welfare and food stamps. If they do work a redundant job, what do you think we're going to do with millions of added illiterate people? How will we find redundant jobs for these millions of illiterate refugees? How will we feed millions more of those uneducated migrants?

What about 48 million foreign-born in America in 2023? (Source: www.cis.org) What happens when that number tops 100 million foreign-born? How do we maintain American culture when that 100 million will be manifesting their own cultures within our culture--that will completely destroy our culture?! (Source: 100,000,000 immigrants added by 2050, watch video by Roy Beck at the end of this column.)

What about the 20 million illegals who have lived here for the past 30 years? (Source: Adios, America: The Left's Plan to Turn Our Country into a Third World Hellhole) They work illegally; they send \$100 billion back to their own countries annually and they possess no affinity to America...other than we pay for their kids' education and food at school.

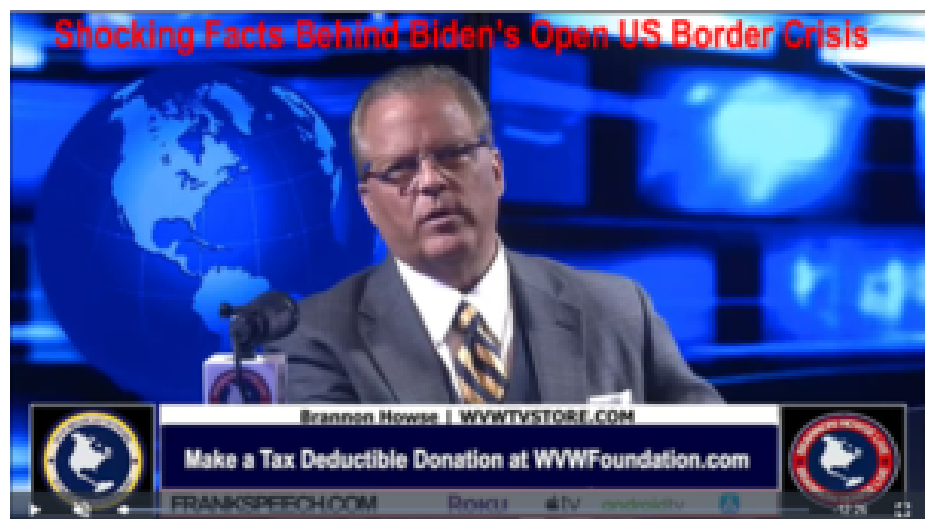

With all of this importation of people from 150 countries, do you see what's coming? Do you think we, as the American people, will survive any of the "aspects" of all these incompatible cultures, languages and world views? How will we survive the sheer numbers?

My prediction: WE WON'T SURVIVE IT. What's coming at our country is going to be the ugliest demise of a civilization EVER in the history of the world. As it is, we have not solved our Black/White conflict in America over the past 400

years. How in the hell will we deal with endless racial conflict, cultural conflict and the sheer numbers of another 100 million immigrants descending upon our country?

“Diversity within a nation destroys unity and leads to civil wars,” said social scientist Garret Hardin. “Immigration, a benefit during the youth of a nation, can act as a disease in its mature state. Too much internal diversity in large nations has led to violence and disintegration. We are now in the process of destabilizing America. The magic words of destabilizers are ‘diversity’ and ‘multiculturalism’.”

America cannot become the “charity ward” for the world’s desperate people. We cannot degrade our citizens to “save” Mexico or Central America’s poor. We cannot

save Africa’s refugees when we suffer 13 million American children living in poverty and 1.0 million homeless. We cannot pay for immigrants’ food, housing and education when we’re \$31 trillion in national debt. We cannot save the rest of the world’s people, but by importing them—we will destroy our own society and civilization. Exponential growth cannot be sustained. The third world’s poor **prove that fact** as they explode across the globe and race toward first world countries. Look at Europe! It’s headed for the toilet of Islamic misery. We must think about and care about our citizens first, middle and always. It’s time to change the ‘good ole boy’ network of corruption in DC. If we continue on this current path, by adding another 100 million legal immigrants and millions more refugees, we face collapse into a multicultural-diversity nightmare of overpopulation and

sociological chaos.

Finally, what does your U.S. citizenship mean in 2023? Answer: nothing to most of those 535 elected swamp-rats in Washington D.C., along with a president who couldn't tell you what day of the week it is or what year or the definition of common sense.

If you realize the serious ramifications and consequences to our country in this three part series, please forward to all your networks. We must educate our citizens and create a consensus of Americans to force Congress and Biden to stop this immigrant-invasion of our country.

Once you see these two short videos, you will understand what your children face within 25 years. Anyone alive in 2050 will be subject to the consequences of this invasion's aftermath as America jumps from 340 million in 2023 to 440 million in 2050:

In a five minute astoundingly simple yet brilliant video, "[Immigration, Poverty, and Gum Balls](#)", Roy Beck, director of www.numbersusa.ORG, graphically illustrates the impact of overpopulation. Take five minutes to see for yourself:

"[Immigration by the numbers-off the chart](#)" by Roy Beck This 10-minute demonstration shows Americans the results of unending mass immigration on the quality of life and sustainability for future generations: in a few words, "Mind boggling!" www.NumbersUSA.org
