

# Gavin Newscum Couldn't Run a Lemonade Stand

January 19, 2026

I was born in Merced, California in 1949 and lived in that beautiful state most of my life. Earthquakes were my biggest fear- ain't no fun. When my late husband and I left California for Colorado Springs, CO (He was a bird Colonel transferred to Ft. Carson, (1989. I went to work (GS-11) at Peterson AFB, AF Space Command, NORAD (Colorado Springs). One of my contracts was inside Cheyenne Mountain. Oh my gosh, what a fantastic experience.

But, Colorado Springs, CO in the winter can be brutal and I wanted to go home to California. We did in 1997 after John retired; 27 years of service. Mid-2005, I, along with others began warning people about what was going to happen to the economy, banks and the usual destruction by the unconstitutional, privately owned "Federal" Reserve. I told my husband we have to get our house sold and get out of California – not to mention I was sick of paying for every freebee under the sun for ILLEGAL aliens.

In February 2006 I came out here to W. Texas and purchased us a new home; moved in June 6, 2006. By Thanksgiving, 2007, the severity of the tornado coming was starting to sink in with the American people. The couple who bought our house had already given the keys back to the bank.

We warned. Flashback after members of Congress changed their dirty diapers after defecating on the U.S. Constitution:

[Bailouts: The Wound That Will Keep on Hemorrhaging](#), September 25, 2008, Mine: "No one knows what to do. We are in new territory here. This is a different game. We're not here playing soccer, basketball or football, this is a new game and we're going to have to figure out how to do it." Sen. Harry Reid [D-NV], September 17, 2008

[The Fake \\$700 Billion Bailout Rescue Plan](#), Mine, October 2, 2008: "That \$700-billion figure that won't really last because eventually the feds will sell off what they're buying and might even make a profit in the end as they did with the Chrysler bailout warrants years ago. You know where that very important \$700-billion figure came from?

"Here's a quote from that Forbes story: "It's not based on any particular data point," a Treasury spokeswoman told Forbes.com Tuesday. "We just wanted to choose a really large number." They made it up to be sufficiently ginormous to frighten everyone into rapid action. And it worked."

"A Treasury spokes mouth said the \$700 billion dollar figure was made up. The number is fake! These elitists who run our lives believe in their arrogance they could simply pluck a big enough number out of the sky and the American people would swallow it out of fear.

"Headlines around the world the past week have screeched bank bail outs in many other countries blaming the U.S., and demanding our Congress pass this \$700 billion dollar hoax. I don't think enough Americans understand just how convoluted and massive are the connections between the unconstitutional, privately owned "Federal" Reserve and other global financial institutions. How many Americans know this private banking cartel is [being audited by another corrupt mega outfit](#) called the International Monetary Fund – unlawfully funded with

billions annually from the sweat and labor of the American people:

“In fact, the United States now supplies \$27 billion of funds to the IMF at an annual cost to the taxpayer of \$1.9 billion—an expenditure conspicuous by its absence in the Federal budget and a hidden element in our deficit and debt.[\[1\]](#)”

Which brings me back to scamster, Gavin Newsom, gov of my destroyed home state (voters allegedly kept reelecting the same socialists and communists to their state legislatures and governor’s mansion and expect change for the better. Well, “pretty boy” *Newsom wants to be president make no mistake about that.*

Newsom in a pretzel kind of way is [related by old marriage in the family](#) to liar and crook, 85-year old Rep. Nancy Pelosi who, thank God, has decided after **decades** to retire from Congress. And, speaking of God, Newsom, diagnosed with dyslexia at age 5 was baptized and raised in the Catholic Church. He must have been asleep as Newsom supports sexual deviants, supports killing a human baby in the womb and fake marriages between same sexes of which there are only 2, not the dozen plus genders nonsense.

Champion of the climate change hoax which has ruined so many lives and businesses. Shut down the state over the manufactured COVID hysteria *destroying thousands of businesses and people’s lives* (including my little sister who now lives in Texas). There’s an old saying: It’s not what you know, it’s who you know and Newsom got to know the right people because of his family connections. It’s no secret billionaire heir and friend of his family, Gordon Getty, invested in Newsom projects, which of course, *is his right to spend his money however he wants.*

When I lived in California for about 35 years, we didn’t have

huge fires and overrun with illegal aliens who were deported when caught without rioting. Most of the larger fires were/are from arsonists and that is a proven fact. (Except Paradise, CA, which was started by defective PG & E wiring & equipment that didn't get fixed *even though they were warned of the coming disaster*. Long story, but the city has been beautifully rebuilt.) [ABC10 Investigation: PG&E knew old power line parts had 'severe wear' months before deadly Camp Fire](#) – **"Evidence used to convict PG&E of the 2018 Camp Fire shows the company knew old parts needed replacing, but tried to show they could last longer."**

The global warming/climate change nitwits along the coast line with *big money*, didn't want the already approved desalination plants to provide critical water to the state's enormous agriculture/farming sector which didn't get built until it was too late.

Several years before my mother passed (2023), I took her to see my sister in Carlsbad, California. We went to the newly opened and operational desalination plant there that [pumps 50 million gallons of water a day](#). It was an fascinating visit and the only one in California at the time; now there are eight. This is a [broadcast by Joe Rogan, Sept. 3, 2022](#) on water, desalination and droughts regarding California.

This is an interesting and informative article about those plants (apparently and unfortunately believers of the "climate change" con job): [California looks to streamline desalination plants](#), Oct. 29, **2024**:

"The State Water Resources Control Board kick-started its process to amend its ocean protection standards for desalination plants at a scoping meeting Monday after Gov. Gavin Newsom ordered the regulator to consider streamlining new projects in **August 2022**. (Snails move faster.)

The predictable and MASSIVE Palisades Fire (once a spectacular

place as I've been there and Malibu several times) was in Jan. 2025. [An arrest was made; arson](#). 12 people died and [thousands of homes and businesses were destroyed](#). It didn't have to happen to the degree it did but the fire dept didn't have water! The fire hydrants were dry! *California has full recall*. The moron mayor, Karen Bass, age 72, member Democrat Communist Party USA (at one time worked as a "community organizer" – think usurper Hussein Obama and ACORN) should have immediately been recalled. Another DEI failure.

One year down the road: [Palisades Protesters chant, 'Fire them all,' during 'They Let Us Burn' march](#), Jan. 7, 2026: "Stay up to date with live coverage of the "They Let Us Burn" Palisades Fire protest, one year after the devastating wildfires tore through the Pacific Palisades neighborhood in LA, [killing 12 and destroying thousands of homes](#) and businesses.

"Aerial shots taken by The Post show the once most sought-after neighborhood in Los Angeles, home to celebs like Tom Hanks and Ben Affleck – [still looks like a war zone](#) a year after wildfires leveled much of it.

"Some survivors are unhappy that [only a handful](#) of the nearly 7,000 destroyed homes have been rebuilt, and the outraged residents say Mayor Karen Bass and city bureaucracy have failed them every step of the way."

There's a half dozen separate reports at the main link above: [1 week ago](#) – "Nurse who lost her home says 'Newsom is too busy running for president' as frustration mounts."

Hopefully Mayor Bass will be defeated in the next election altho' she should have been recalled last year; Gavin Newsom who never met a mirror he didn't love can't run again for governor; term limited out. Hallelujah!

THIS was inexcusable. I know that area very well having traveled all over California in the decades I lived there. BILLIONS spent on ILLEGAL aliens Newsom loves and protects

giving them “free” cash, medical, dental, food cards and more for years. Palisades and the surrounding areas was not occupied by only millionaires and billionaires, but average people like you and me. Because of the ‘normal’ – not climate change BS – weather patterns and wind, *that entire area has always been a fire risk*. The new fire chief had quite a bit to say about that horrific disaster:

[LAFD ‘never had a chance’ in Palisades: What new chief says about facing future disasters](#), Jan. 13, 2026: “According to the [department’s after-action report](#), however, staffing levels on the day the Palisades Fire began fell short of the LAFD standard for extreme weather conditions. The National Weather Service had warned of low humidity, high winds and dry vegetation, what it calls a [“particularly dangerous situation.”](#) It’s the highest level of alert the agency can give.

“Despite the high risk, the LAFD report said the decision not to deploy more firefighters in advance was in part made to save money...

“It’s important to note that we are mostly an urban fire department. We needed to do better training as to how to work in this type of an environment.” Really? Pacific Palisades and that surrounding area hasn’t moved so it seems to me those brave firefighters should have been specially trained for exactly what happened at least a couple times a year.

Returning to Chief Moore’s comments: “Early versions of the after-action report differed from the version released to the public in October, a fact that was first reported by the Los Angeles Times. The Times also reported that Battalion Chief Kenneth Cook, who wrote the report, wouldn’t endorse the final version because of the changes.

“Moore acknowledged to the [L.A. Board of Fire Commissioners at a Jan. 6 meeting](#) that the report had been watered down.

"It is now clear that multiple drafts were edited to soften language and reduce explicit criticism of department leadership in that final report," Moore told the commissioners. "This editing occurred prior to my appointment as fire chief, and I can assure you that nothing of this sort will ever again happen while I am fire chief."

Now they need a new mayor because Bass' "leadership" while the whole area was burning down is beyond incompetence.

[Spencer Pratt announces he will run for LA mayor](#), "Spencer Pratt announced he will run for mayor of Los Angeles, while speaking at the "They Let Us Burn" protest in Pacific Palisades.

"Since losing his home in the Palisades Fire, Pratt has been deeply involved in California politics, influencing legislation on social media and wildfires, and gaining prominence as a powerful voice for his followers...

"Political commentator and candidate running for California governor, Steve Hilton, tells The Post, "Pratt's running because he understands the whole system is corrupt and broken. He laid that out just now, and that's exactly what we need. We need outsiders to fight the corruption and get common sense back into California government, into Los Angeles government. He's running to do that in LA. I'm running to do that in California."

[First Partner Jennifer Siebel Newsom Escalates ICE Attacks as Governor Backpedals on His Podcast](#), Jan. 16, 2026: "California's First Couple continues to lead the Democrat party's charge against federal immigration enforcement, with Gov. Gavin Newsom and First Partner Jennifer Siebel Newsom gaslighting and targeting U.S. Immigration and Customs Enforcement (ICE) operations amid escalating violence in Minneapolis.

"Jennifer Siebel Newsom parroted Democrat talking points in a

statement on Thursday, accusing President Donald Trump of deliberately “inciting violence” by increasing ICE operations in Minneapolis and nationwide:

“Trump continues to incite violence whenever it serves him. As ICE operations in Minneapolis, across the country, and even here in our own state unfold with increasing force, I am disturbed by the physical power used against innocent people—especially our communities of color and those exercising their right to peacefully protest. This violence is not random, it is intentional—meant to unsettle, to exhaust, and to intimidate. None of this can be normalized.”

“She then carelessly remarks that a majority of ICE agents are “untrained and unqualified” in this “unprecedented attack on our democracy,” and throws in “authoritarian overreach” on cue.”

Innocent people? We’re talking about murderers, rapists, thieves and those who have NO legal right to be in this country, period, who have federal warrants out for their arrest or deportation. It’s all about getting more illiterate mooches registered with the Democrat Communist Party USA so hubby has a chance to become president. **Is it any wonder fed up Americans are leaving California in droves – especially millionaires and billionaires. There goes all that big tax money.**

Authoritarian overreach, Mrs. Newsom? Try reading the law and BTW: America is not a democracy.

Not to mention all the non-native born who are running for offices all over the state who care nothing about the U.S. Constitution or even their state constitution. [California Globe](#) is a good web site that keeps you informed about California.

[LA County Supervisors Approve ‘ICE-Free Zones’ on County Property, Defying Federal Enforcement](#) – “This latest

escalation fits squarely into California's long pattern of obstructing federal immigration law", Jan. 14, 2026.

Here's a news flash for the bozos they call supervisors (emphasis mine) [10 U.S. Code § 252](#) – Use of militia and armed forces to enforce Federal authority: **"Whenever the President** considers that unlawful obstructions, combinations, or assemblages, or rebellion against the authority of the United States, make it impracticable to enforce the laws of the United States in any State by the ordinary course of judicial proceedings, he may call into Federal service such of the militia of any [State](#), and use such of the armed forces, as he considers necessary to enforce those laws or to suppress the rebellion."

[10 U.S. Code § 253](#) – Interference with State and Federal law: "The President, by using the militia or the armed forces, or both, or by any other means, shall take such measures as he considers necessary to suppress, in a State, any insurrection, domestic violence, unlawful combination, or conspiracy, if it–

(2) – opposes or obstructs the execution of the laws of the United States or impedes the course of justice under those laws."

Now, if all these rogue governors, mayors and stupidvisors don't like the LAW, get your arse on over to communist, China, communist N. Korea, communist VietNam or London. They'd love you there. Personally, I'd like to see a list of them arrested and charged. Getting thrown into a cage (waiting for your bail hearing) sends a big message to elected public narcissists: No one is above the law. Hello, calling Blondi Bondi.

[Buttressing Institutional Integrity in an Election Year: Federal Force Deployment during L.A. Riots \(1992\)](#): "On April 29, 1992, violence erupted across the city of Los Angeles in response to the jury acquittal of four police officers involved in the excessive beating of Rodney King, an African

American man. For multiple reasons, including the specific context that spurred the violence, the L.A. Police Department (LAPD) was “uncharacteristically unresponsive” during the initial days of unrest, and tensions on the ground continued to escalate.

“At the request of L.A. mayor Tom Bradley, California’s Governor, Pete Wilson, deployed the National Guard. **Governor Wilson and Mayor Bradley [formally requested](#) federal support from President Bush as well, and explicitly requested that the President invoke the Insurrection Act.**

“On May 1, President Bush signed Executive Order 12804 federalizing the California National Guard and pledging to send federal forces. The Pentagon activated ‘[Operation Garden Plot](#)’—the DoD’s civil disturbance plan—forming [Joint Task Force-LA \(JTF-LA\)](#). It was [reported](#) that 4,000 Army and Marine troops and 1,000 federal officers, including U.S. Marshals and Customs and Border Patrol agents, were deployed to maintain order.”

Got that Tampon Tim Walz, Comrade Mayor Frey and the rest of you buffoons? The violence must stop and our laws must be enforced or we’ll be just another banana republic with actual dictators like Maduro. Gavin Newsom is no more fit to be president of these united States of America than Mickey Mouse.

That’s why the mid-term elections are absolutely critical. **Stop voting for Somali’s or any muslims as judges or any other office as their “holy” book, the Quran is NOT and never will be compatible with our Constitution, freedom and liberty.** Quit reelecting the same cockroaches who have bankrupted our republic whether it’s mayor, city council, state rep, senator and most of Congress *who continue spending “money” that doesn’t exist.* Borrowed debt to spent more debt.

“Her Highness has made the promise of bi-partisanship; hold on to your wallet and don’t enlist in any branch of the military any time soon.
