

# GEN Z is Hope

By Lex Greene

September 14, 2025

*You have seen me mention GEN Z a few times now as a generation where I see great hope for the future. GEN Y is nearly a lost cause, and they win the prize for the most self-centered egotistical backwards non-thinking parrots of leftwing insanity in history. Not only were they deeply indoctrinated with outright lies, but they were also dog-whistle trained to never learn anything from anyone other than their commie professors. They are the only generation in American history to steam roll over wisdom and experience like it has no value. Hopefully, they will be the last generation to do that!*

*[This interview from 1984](#) explains exactly what has been done to American society since the 1960s, how, and most successful with GEN Y, and why facts alone cannot reverse the poison pumped into at least three American generations.*

***Charlie Kirk targeted the illness instead of just the symptoms, and he was the most successful American to begin a “turning point” in the USA in history. That’s why Charlie was assassinated on September 10, 2025, on a Utah college campus. Charlie was influencing young generations to reverse the brainwashing of Americans in the snake pit of formal education itself. That’s why Charlie was targeted for death...***

Charlie Kirk was reaching GEN Z. His polite but direct method of entering the cesspool of so-called higher learning and challenging the utter nonsense being poured into young minds

on college campuses across the land, was hugely successful.

That's why he was a very real threat to the insane American left. Charlie was able to bring his brand of calm, respectful common sense and basic truths to young audiences who were getting it nowhere else, at home, among friends, at church or certainly in education.

Charlie's organization brought more youth voters to the 2024 *Make America Great Again* campaign than any conservative campaign in the past 70 years. While the hearts and minds of GEN Y are almost impenetrable, Charlie had found a way to reach GEN Z.

*This is why the mentally ill left hated Charlie, and the socialist democrat party fears Charlie and everyone like him.*

But today, [The New York Post](#) ran a story focusing upon the GEN Z kids who will make sure Charlie's mission and legacy live on forever, and the movement to "*Make America Great Again*" will prevail.

[New York Post: College conservatives reveal what Charlie Kirk meant to them and how they will keep his message alive](#)

*If it is to be, it's now up to GEN Z! GEN X must lead through wisdom!*
