

General Flynn Hires Firebrand Attorney Sidney Powell

When plunder becomes a way of life for a group of men in a society, over the course of time they create for themselves a legal system that authorizes it and a moral code that glorifies it. –[Frederic Bastiat](#)

There is no crueler tyranny than that which is perpetuated under the shield of law and in the name of justice. –[Montesquieu](#)

The fight for justice against corruption is never easy. It never has been and never will be. It exacts a toll on our self, our families, our friends, and especially our children. In the end, I believe, as in my case, the price we pay is well worth holding on to our dignity. –Frank Serpico

A huge hallelujah and a big sigh of relief went up across the country when those who love justice and the “[rule of law](#)” heard who General Michael T. Flynn had hired to represent him. My phone rang off the hook for two days...the General’s supporters are thrilled!

Attorney Sidney Powell

General Flynn has hired a brilliant powerhouse attorney who knows and understands the corruption in DC. Sidney Powell served in the Department of Justice (DOJ) for ten years in both Texas and Virginia and for the past twenty years has devoted her private practice to federal appeals where she was lead counsel in more than 500 appellate cases.

Ms. Powell has been an outspoken critic of the Enron Task Force prosecutions and [accused](#) prosecutor [Andrew Weissmann](#) in particular of overreach. Weissmann was a prominent member of Special Counsel Robert Mueller’s team investigating the bogus

Russia interference in the 2016 presidential election and any obstruction of the probe by President Donald Trump. Here is the [full transcript of Powell's interview](#) with Mark Levin, but watch the following twelve minutes on Weissmann.

In Powell's book, [Licensed to Lie](#), William Hodes, Professor of Law Emeritus, Indiana University stated, "that a coterie of vicious and unethical prosecutors who are unfit to practice law has been harbored within and enabled by the now ironically named Department of Justice." Ms. Powell had to self-publish her first edition because houses feared the content. The second edition is stunning and frightening.

Powell documents the prosecutorial misconduct of the U.S. Attorneys in the Enron trials. All of the convictions except for three were overturned. Unfortunately, none of the attorneys mentioned in Ms. Powell's amazing tome were ever disbarred, and they went on to continue their nefarious activities.

Many innocent people were ruined because the justice department lawyers apparently valued their own upward career mobility over the very reason for their existence in their positions...**Justice.**

Some of the same lawyers involved in the Enron miscarriage of justice were on the Mueller team going after President Trump and his supporters. Do Americans want anyone being targeted by attorneys so unethical their convictions are overturned because of their blatant disregard for the rule of law and the U.S. Constitution? Well, it happened, and General Michael T. Flynn is a prime example.

In a recent interview with [The Epoch Times](#) Sidney Powell [blasted the appalling two-tiered judicial system](#) in America today where General Michael Flynn can get set up and prosecuted by deep state operatives while Peter Strzok can leak and lie and get off scot free.

In December 2018 Powell accused the Mueller team of [destroying evidence and obstructing justice](#) in the Flynn case. Mueller's team wiped **all** of the data off of Peter Strzok's and Lisa Page's iPhones after determining "they contained no substantive text messages." Powell said until the Mueller investigation is probed, no one can have faith or trust in the Department of Justice or the FBI.

As for the bogus Russia investigation, what Mueller pulled in

his eight-minute press conference was subterfuge. Powell commented that if Mueller couldn't decide whether or not President Trump obstructed justice in a two-year investigation, then it is evident there is no violation. She said, ["the entire Russia collusion narrative was made up by anti-Trump political partisans in the FBI and DOJ."](#)

"It couldn't have been more divisive," Powell said of Mueller's press conference. "What we've witnessed in the last, I don't know, 15, 20 years, is an extraordinary rise of double standards where people who are Democrats are given passes on clear offenses, and Republicans are literally targeted and prosecuted and their lives destroyed on things that are even made up." Powell said Mueller knew there was no conspiracy even before he started to investigate.

General Michael T. Flynn

President Donald Trump told Fox News that Vice President Mike Pence doesn't automatically have his backing should he mount his own run for the White House in 2024. Perhaps the President has gleaned some awareness of [the real Mike Pence](#).

By now, many of General Flynn's supporters understand that VP Pence was involved in his removal as National Security Adviser. Allegedly, the February meeting between Pence and McCabe about General Flynn was set up by Peter Strzok using an unofficial backchannel, a Pence staffer's wife who worked for Strzok. VP Pence's Chief of Staff, Joshua Pitcock's wife, was working as an analyst for Peter Strzok on the FBI's investigation into Hillary Clinton's use of a private server.

There are many more Deep State players, all of whom were not only terror-stricken but were absolutely frantic to be rid of the man they feared knew too much about them.

To this day, many of their ilk are still in charge, including the new Trump appointed FBI Director Christopher Wray who was most likely suggested by former Governor and transition head, Chris Christie who many called [Abu Christie because he had appointed a Muslim to the New Jersey Supreme Court](#). Wray was Christie's lawyer during [Bridgegate](#). Wray's corrupt [FBI actually lost the notes](#) from the meeting where crooked cop, Peter Strzok was told that China was hacking Hillary's email in real time.

Back in December of 2018, Special Counsel Robert Mueller's team [released key documents](#) relating to the FBI's questioning of former national security adviser Michael Flynn, confirming [agents did not believe at the time Flynn intentionally lied to them](#) – though he was later charged with making false statements in that interview. These were the heavily redacted FD-302 reports of FBI Agents, Strzok and Pientka who

interviewed the General. The documents also included disgraced and fired former FBI Deputy Director Andrew McCabe's notes after talking with Flynn to arrange his interview with the FBI. Many sources believe McCabe edited the FD-302s to target the General.

Deputy AG Rod Rosenstein refused to allow Agent Pientka to testify despite his reported [willingness to defend Michael Flynn](#). Mueller redacted Joe Pientka's name in the 302 reports.

Judge Emmet Sullivan

In May 2019, Judge Emmet Sullivan ordered the release of the transcripts of General Flynn's conversations with Russian Ambassador Sergei Kislyak along with the transcript of a voicemail recording by Trump's personal attorney, John Dowd, left with Robert Kelner, defense lawyer for Flynn.

The Feds did release the transcript of a voice mail left in November 2017 by John Dowd to Kelner, but the DOJ refused to comply with the court order to release the transcript of the General's conversation with Ambassador Kislyak. **Sources close to the General tell me that he wanted these documents released to the public.**

Judge Sullivan, a Clinton appointee, in a two-sentence order said he'd decided [not to require the public release of transcripts](#) after considering prosecutors' response.

Prosecutors claimed they were not relying on that conversation to establish his guilt or to determine his sentence. Then why not release it? Perhaps they haven't had time to properly edit it for weaponization against the General, when we know those transcripts would prove General Flynn's complete innocence.

Flynn's phone calls with Ambassador Kislyak during the Trump Transition were perfectly legal and only portions of his calls have been selectively leaked to the media. One has to wonder

how many of those leaked portions were edited. Every time there's a leak, AG Barr needs to release the truth to the public.

The Joint Defense Agreement

Republicans allege that a separate court-ordered transcript release in the case showed that Special Counsel [Robert Mueller](#)'s report [contained a conspicuously – and allegedly deceptive – edited version](#) of the voicemail message from former Trump lawyer John Dowd to Flynn's lawyer, Rob Kelner.

Here is the edited version of Dowd's phone call:

I understand your situation, but let me see if I can't state it in starker terms. . . [I]t wouldn't surprise me if you've gone on to make a deal with ... the government. ... [I]f... there's information that implicates the President, then we've got a national security issue, . . . so, you know, . . . we need some kind of heads up. Um, just for the sake of protecting all our interests if we can ... Remember what we've always said about the 'President and his feelings toward Flynn and, that still remains ...

And here is the full text of the message, which Mueller's gang did not want seen:

Hey, Rob, uhm, this is John again. Uh, maybe, I-I-I'm-I'm sympathetic; I understand your situation, but let me see if I can't ... state it in ... starker terms. If you have ... and it wouldn't surprise me if you've gone on to make a deal with, and, uh, work with the government, uh ... I understand that you can't join the joint defense; so that's one thing. If, on the other hand, we have, there's information that ... implicates the President, then we've got a national security issue, or maybe a national security issue, I don't know ... some issue, we got to-we got to deal with, **not only for the President, but for the country**. So ... uh ... you know, then-then, you know, we need

some kind of heads up. Um, just for the sake of ... protecting all our interests, if we can, **without you having to give up any ... confidential information.** So, uhm, and if it's the former, then, you know, remember what we've always said about the President and his feelings toward Flynn and, that still remains, but – Well, in any event, uhm, let me know, and, uh, I appreciate your listening and taking the time. Thanks, Pal.

Do you see? If you look at the full transcript, Dowd is very specific about not wanting any information he should not have, not wanting any “confidential information.” Mueller left out that one very important exculpatory evidence in his edited transcript... “without you having to give up any ... confidential information.” There was only one reason for Mueller to remove it...to further his attempt to frame Trump via manufactured evidence or by hiding exculpatory evidence.

Mr. Dowd left the voice mail not long after Mr. Flynn left the joint defense agreement with Mr. Trump to cooperate with the Special Counsel. (Remember Mueller's 30-year modus operandi. [Link](#) and [Link](#)) Of course, the Mueller report cites the voice mail as scrutiny into possible obstruction by the President even though Mr. Kelner had already told Dowd “that Flynn could no longer have confidential communications with the White House or the President.”

Dowd told Sean Hannity, “Well, I had an obligation as counsel to the president to find out what was going on. And I'm so glad Judge Sullivan ordered the transcript because they now know the truth. And we also know that this entire report by Mueller is a fraud, and we're going to find more of these things. Isn't it ironic that this man who kept indicting and prosecuting people for process crimes committed a false statement in his own report? By taking out half my words, they changed the tenor and the contents of that conversation with Robert Kelner. And it's an outrage. And there's probably more of it.”

Conclusion

George Washington said, "Truth will ultimately prevail where there are pains to bring it to light." Sidney Powell, knows all about the lies and the pervasive decay in our intelligence community, and she is the finest legal mind General Flynn could have chosen, and yes, she will bring the truth to light.
