

Get Ready for World War III

It pains me to say it, since I have supported Ukraine, but the latest attempted assassination of Trump looks like a coordinated White House-Ukraine attack, using another patsy, now being dismissed as a whacko. Instead, the evidence indicates he was a CIA operative who was financially supported by the Deep State and was assigned to kill Trump, paving the way for more long-range missile attacks on Russia, instigating World War III.

National security expert Mike Waller told me in a telephone conversation earlier this week that the plan to supply long-range missiles to Ukraine, to be used against Russia, could be justified by Putin to strike the source of those weapons – the United States, incinerating millions of American in a nuclear explosion. Under the international rules of war, if the United States is the source of those weapons to Ukraine, it can be a candidate for retaliation. That's why Trump is constantly warning of a World War.

In one of [my latest videos](#), journalist Jim Simpson talks about the thousands of Russians and Chinese coming into America. What he accurately calls a “manufactured crisis” through a border invasion in [his new book](#) could easily turn nuclear. In another [program](#), author J.C. Hawkins looks at how Trump emerged as a target of the Deep State because he wants to avoid a nuclear war with Russia.

It doesn't matter that Russia started the war. What matters is

that Russia has thousands of nuclear weapons and Ukraine doesn't. Under Bill Clinton, Ukraine turned its nuclear arsenal over to Russia. That was a stupid move by Ukraine.

Democrats in power do stupid things, especially in foreign policy.

It looks like another stupid move was letting Ryan Routh into Ukraine to recruit mercenaries for the fight against Russia. Authorities in Ukraine could have denied him entry. Instead, they let him operate freely.

Supporters of Ukraine are now saying he was a rogue operator without official support. Yet he traveled back and forth, spending thousands of dollars on international travel and currently living in Hawaii in a home valued at nearly one million dollars. He was previously an unemployed construction worker. He became a lobbyist for Ukraine on Capitol Hill, wearing a suit and tie.

All of this has been captured in photos and videos. And the CIA and FBI did not know?

Who's kidding whom?

The American people are not stupid. It has all the earmarks of an intelligence operation designed to eliminate the one candidate who wants to end the war.

During the presidential debate, ABC's David Muir asked Trump if he wants Ukraine to win. This is not an NFL football game. This is a real conflict costing thousands if not millions of lives.

Now, Trump has been targeted again.

Ryan Routh looks like one of the operatives used and manipulated by U.S. intelligence agencies and determined to be a "whacko" by the media when caught. For the second time, a "whacko" has been identified, even though in the first case we

still don't know anything about his overseas accounts. I suspect he was expecting a payment in an overseas bank account for completing the hit on Trump. He failed.

Routh also failed, but he is clamming up. Ukraine has been strangely silent, too.

Equally significant, a new Scott Rasmussen poll finds 28 percent of Democrats think America would be better off if Trump had been killed. This is a group campaigning for office based largely on the abortion issue, now framed even by the liberal pope in terms of constituting an "assassination," where the unborn baby is murdered through chemicals or torture, tearing these innocent children apart limb from limb.

Even the liberal pope understands the definition of murder.

I am surprised the percentage in favor of Trump's demise is not higher. If you believe in assassinating an innocent unborn child, why not Trump?

A large segment of the America people are in favor of killing their babies and the opposition candidate. We are living in a sick society where most people cannot even comprehend the depth of the evil in their midst. It is a society in which most people have abandoned God.

By so doing, parents are consigning their kids to a living hell, now called the United States of America, where assassination attempts on a Republican candidate for president are tolerated as business as usual.

Meanwhile, Republicans on Capitol Hill are lost in their own scandals. I see that the disgraced Tennessee Rep. Mark Green of the Homeland Security Committee is making appearances on Fox News, acting offended that he doesn't know anything from the Biden/Harris officials about the latest attempt on Trump's life.

This guy is a piece of work, caught in [a messy divorce](#) in which wife Camilla Green accuses him of having an affair with a 32-year-old woman after being corrupted by his time in Congress, warning that Congress is a cesspool of “power and adoration.”

Before he went to Congress, he was considered a Christian conservative.

His wife wrote, “He is living life greatly deceived. I have offered reconciliation, and he wants nothing of it and has insisted on a divorce. Satan has rewritten our marriage in his mind.”

House Speaker Mike Johnson should boot him out of Congress. Didn’t they expel a member for lying?

If anything, the Democrats are more corrupt. A recent fundraising letter from Maryland Governor Wes Moore, who lied about his military service in a stolen valor incident, asked for money to promote a Democrat for a local office, based on the fact the Republican opponent “has even spoken out against IVF coverage for same-sex couples.”

In other words, the Republican favors traditional marriage between a man and a woman. He wants kids to have a mommy and a daddy. This is now the radical position. Hence, Catholic churches are being [burned down in America](#) and statues of the Virgin Mary are being beheaded. Traditional Catholic teaching is an obstacle to their New Age New World Order.

The Democrat position is that children should be created in laboratories, delivered by surrogates, and then raised by two male homosexuals or lesbians. And the taxpayers ought to pay for it, in the name of equity, of course.

As Green’s wife said, Satan is running wild. He is spitting in our faces.
