

Globalists Never Go Away, They Just Go Underground

By Karen Schoen

January 17, 2025

2025 is a New Year and America is getting a second chance. We still must understand no matter how much exposure communists get, they will never go away unless...We recognize it is up to We the People to take back our power. Donald Trump made a lot of campaign promises but he can't fix America on his own. It will take all of us to expose the corruption that the communist DNC will deny at all costs. We must be the ones to conduct oversight on our legislators. WE have no idea what they do behind the scenes but we must remember what they have done and how they did it. Globalists never retreat, they go underground and march forward.

First Communists/Democrats/Globalists (aka Globalists) came for the Constitution... they call it a living breathing document subject to constant change. They want it replaced with their UN Declaration of Human Rights which claims the Government and UN grants your rights. Whatever man grants, man can take away.

Then the Globalists got patriots to sign away their liberty for security. As a result of the Patriot Act Americans have neither liberty or security.

Then the Globalists got Congress to sell out the American citizens without due process in the name of fighting terror while refusing to name the real terrorists – NDAA

Then the Globalists turned the children on their parents. Reporting is done in school through a series of probing questions on the computer using specific algorithms on the national data base designed for children to report on their parents. The Trans agenda coupled with Common Core learning is designed to keep the people ignorant while destroying the family unit.. Approximately half of Americans are functionally literate.

Then the Globalists came for the Judeo-Christians by demanding they participate in killing their unborn in Obamacare and arresting them for praying in front of abortion clinics. Oppressive power hungry Globalists closed churches due to Covid, the CCPvirus.

Then Globalists are coming after "We The People/Americans" by promoting communism in a fraudulent election.

The Green New Deal (GND) is a copy of Agenda 21/2030 following the UN programs of sustainability (do more for less). It is the goal for the UN take over of the sovereignty of America, causing a loss of American freedom and liberty and elimination of private property. Elimination of the 2nd Amendment is on the menu. UN Agenda 21 is the plan using the environment to control human activity. Pres Trump said NO Way but it is up to us to make sure that Congress is on the same track. One just has to look at California...how are those policies working out for CA?

Another goal of UN Agenda 21 is to depopulate the planet by claiming there are too many humans. Progressives use phony science of man made global warming designed to control human activity not save the planet. If people are guided into believing in warmth, they will not prepare for extreme cold. Crops will freeze, less food will create food shortages which will kill people. Inflation coupled with using corn for fuel caused food prices to escalate. Was CCPvirus designed to kill off the older population (less useless eaters.) Goal

accomplished.

Globalists are atheists and many believe in GAIA, "mother earth is god" They have waged war against all religious groups. They are determined to remove all mention of GOD (you know, the "THING") from every place possible because God must be replaced by your allegiance to the STATE and the UN. They fail to realize that God and morality are part of the soul of America and can not be removed by eliminating mere words. Question should be asked, if there is no G-d, then where do your rights come from?

Globalists are Republicans or Democrats who are cloaked in their new definition of Globalism. Students are taught to repel America and replace America by becoming global citizens. Americans, now are described as the enemy. Will you be silenced by fear? You will be cancelled. Americans are finally realizing the only way Globalists have power is if Americans give it to them.

Globalists want your land for the good of the collective and use unproven, overly expensive central planning (never presented with financial information) for sustainable developments designed to redistribute your wealth and steal your private property through rezoning schemes and conservation easements. With the rise of Nationalism, we learned through this last election Globalists are in the minority. They are comprised of ignorant Americans, mostly young adults and politically ignorant adults assisted by a compliant media carrying the communism message cloaked in warm fuzzy words. Globalists are determined to secure the prize, America, (with all of its natural riches) and transform America into a communist police state.

Bush 41 EO 12803, Executive Order 12803—Infrastructure Privatization allowing countries to purchase American land. Today China, Canada Iran own American farmland and roads. According to the US Constitution, the Federal government

doesn't own land. They hold it for We the People. This unconstitutional Executive Order must be repealed.

We are many, they are few. This election proves that. The only way Globalists can win is by cheating. If you are silent you allow them to control you.

Is America worth saving? What can you do:

Contact your legislator and demand they follow the law. What good are laws if they are not applied equally?

Remember:

Everything is connected

Nothing is random

There are no coincidences

Everything has a plan. ALL PLANS ARE BASED ON LIES.

"I dare hope that all the peoples who have lived through communism will understand that communism is to blame for the bitter pages of their history." —Aleksandr Solzhenitsyn—Source: www.independent.co.uk

Communists never leave, they just go into stealth mode and slide underground. Then like hot lava, it began its spread devouring and destroying everything in its path.

If everything is a lie in the Globalist world, does the truth matter?

I will not comply, will you?

Listen to my radio show called, The Prism of America's Education on the americaoutloud.news network every Saturday and Sunday 7AM or 5PM ET.
