

Gun owners want Hillary Clinton to gut second amendment

What? How can you say that?

On April 7, 2012, I wrote a column titled, [Americans Love the IRS and the Income Tax](#). Oh, boy. I got email from people – how can Devvy say that? Well, once they read the column they understood the title.

Obviously not all gun owners in this country support career criminal Hillary Clinton. But, back in 2008 I was floored reading election breakdowns on the staggering number of gun owners who voted for both the criminal impostor in the White House and Hillary.

It is estimated there are about 85 million gun owners in this country. How many actually voted in 2008 is a mystery as I was unable to find any credible numbers on that. However, it is beyond comprehension why ANY gun owner would have voted for Second Amendment haters Obama and Hillary the Hun.

Yes, I am fully aware there are individuals in this country who actually believe the Second Amendment was included in the Bill of Rights to protect Jake's right to go deer hunting. I'm speculating here but I'm guessing it's folks like that who favor gun control and a ban on assault weapons. They are not only ignorant as voters, they are dangerous because they vote.

Hillary Clinton has flip-flopped her position more times on the Second Amendment than cooks at a International House of Pancakes on Sunday morning. [Not to mention how she lies about statistics](#). Hillary tailors her position to the crowd she's speaking to or during debates. But, make no mistake about it. Unwrap the spin and shovel aside the BS: Hillary Clinton wants

to someday see the Second Amendment so gutted only deer hunters would be allowed to own a rifle.

Of course the problem remains the same: The majority of the American people have no understanding of the true meaning of the Second Amendment. Most know nothing, thanks to dumbing down centers called public schools [why Patrick Henry fought so hard for a bill of Rights](#). As I have written before, neither did I until I began reading Dr. Edwin Vieira's critically important columns and books on the issue.

What the majority of gun owners don't know about the Second Amendment is pathetic and you can thank gun groups like the NRA for continuing to ignore the true meaning of that amendment and keeping their 5 million members in the dark. Hey – don't forget to send those donations and membership dues!

I'm not going to rehash what I've already written about the Second Amendment and the constitutional militia. You can read Dr. Vieira's [outstanding and fully researched columns](#) and help educate others so they become knowledgeable about the Second Amendment and why if it weren't for that amendment we'd all be in chains by now.

Christmas is coming and while I hope you purchase a copy of my book, [Taking Politics Out of Solutions](#), I also hope you purchase a copy of Dr. Vieira's short book that is an outstanding primer if you will, on the Second Amendment and what it really means: [Thirteen Words](#).

☒ Gun owners who are going to vote between now and November 8th need to wake up about Clinton and their guns. ANY gun owner who votes for Hillary Clinton must want her to gut the Second Amendment because that's exactly what she will do: [Four ways Hillary Clinton will work to end gun ownership as president](#) by John Lott, June 06, 2016: "From changing the Supreme Court to make it possible to again ban guns in the

United States to making it more costly to own guns, I predict that a President Hillary Clinton will do four things to either ban guns or at least reduce gun ownership, especially for poor people."

[Wikileaks Release: Hillary Clinton Press Sec Says Gun Control to Be Implemented by Executive Order](#), October 7, 2016 – Like that pig she's married to when Billy the serial adulterer and rapist was president, Hillary thinks she can just make an end run around the Constitution.

"The batch of emails released by Wikileaks on October 7 includes one in which Hillary Clinton press secretary Brian Fallon explained that Clinton "would support...closing the gun show loophole by executive order." Fallon also highlighted Clinton's support of universal background checks—which have already failed in California, Colorado, Washington state, and Paris—and her support for a scenario wherein victims of crime would be able to sue gun manufacturers."

Any gun owner who votes for Hillary Clinton is apparently willing to trade the Second Amendment for any or all of the endless promises Hillary Clinton has been making for the past year and a half. She couldn't create a job if her life depended on it. The only thing that witch knows is promising voters the people's purse for their pet causes, constitutional or not. Well, watch out because she is a globalist and the next 'free' trade treaty she signs and if NAFTA and the others aren't repealed it just might be your job shipped to Hong Kong or India.

Think not? Think again. Hillary has been 'outed' as desiring open borders and unfettered 'free' trade even if it means the final destruction of our most important job sectors:

agriculture, manufacturing and industrial.

If the majority of gun owners voted Trump it would almost certainly cinch a loss for that pathological liar, a life long criminal who cares nothing for America or her people – only money and power – who shouldn't even be allowed to run for office because of her 'reckless' handling of classified information (email servers) and she owns Benghazi. Clinton is known around the world as the 'Butcher of Benghazi' for good reason.

I pray gun owners in this country who are thinking about voting for Hillary Clinton stop and really think about what it would mean putting her in the White House. Remember:

[Clinton says she has 'both a public and a private position' on Wall Street: WikiLeaks release](#), October 8, 2016

Clinton told top banking executives that she has "both a public and a private position" on Wall Street reform and is reliant on wealthy donors to fund her campaign, leaked excerpts of the former first lady's speeches seem to show, fueling claims of hypocrisy on the part of Mrs. Clinton at a crucial moment in the presidential campaign.

"The release by WikiLeaks, which the Clinton campaign has said it will not confirm, appears to show Mrs. Clinton discussing how she seeks to "balance" her public rhetoric on Wall Street reform with her actual positions, and with the reality that wealthy bankers and investors must partner with government to enact change. The documents also show the former secretary of state admitting that she's out of touch with average Americans and is "kind of far removed" from the lives of the middle class."

She is a two faced liar.

God forbid Clinton is actually declared the winner, just like

Bill Clinton's two terms, Hillary's time as president WILL be spent fighting off one scandal or another ([Is This Clinton Cash Connection The 'Smoking Gun' That Will Shoot Down Hillary's High Hopes?](#)) as well as continued congressional and FBI investigations. No question. Is this really what the American people want while our country goes to hell?

“‘Pay to Slay:’ Foreign crime family reached Hillary Clinton for immigration favors so they could run a baby parts harvesting business,” the Isaias brothers – Roberto, William and Estefano Sr – “sought asylum in the U.S. in 2008, after looting millions of dollars from an Ecuadorian bank.” They and family members now are listed as principals of the two California companies targeted by prosecutors.

“During that time, the family made hundreds of thousands of dollars in contributions to Democratic and Republican political campaigns. Family members gave roughly \$300,000 to Democrat politicians alone and reached out to Hillary Clinton thru (sic) her aide, Cheryl Mills,” the report said. “In return, the family received favorable treatment from the Obama administration and State Department under Clinton, which expedited their immigration into the U.S.”

[Smoking Gun! Approximately 15% of Bernie's Votes Were Flipped to Clinton in California](#). This analysis was dated July 4, 2016. It is all too familiar to me. Our voting system (I know I sound like a broken record) is beyond broken, it's totally corrupt yet none of the 50 state legislatures ever bother to get it cleaned up so each election cycle it's the same fraud with more and more illegal aliens voting in OUR elections.
