

Heads Up, Mr. President – There are Saboteurs All Around You, Part 1

By Kelleigh Nelson

November 12, 2024

Be extra careful in the work environment with those who like to maintain their position through charm and being political, rather than getting things done. They are very prone to envying and hating those who work hard and get results. They will slander and sabotage you without any warning. –Robert Greene, author

A false friend is more dangerous than an open enemy. –Francis Bacon, British philosopher and statesman

That people on the political left have a certain set of opinions, just as people do in other parts of the ideological spectrum, is not surprising. What is surprising, however, is how often the opinions of those on the left are accompanied by hostility and even hatred. –Thomas Sowell

Trump's victory is the second in American history where a president skipped a term and was then reelected. The first was Grover Cleveland in 1885 and 1893. "Let's put it over with Grover" was the rallying cry after four years of Benjamin Harrison.

We won the first battle in the war for liberty, but don't go back to sleep thinking all is well. The first stone was thrown, and it took down one communist giant, but there are

thousands of them who wish to rule over the ashes of our nation.

We must stay vigilant.

Between now and January 20, 2025, our newly elected president faces extreme danger. There have been three assassination attempts on his life. We know the Stalinist Party and their followers are seething with rage over Trump's triumph.

General [Michael T. Flynn told Steve Bannon](#), he wants Trump to stay at Mar-a-Lago until inauguration, and not venture into DC. He also wants him to hire his own security people.

Trump would be wise to do both.

It is not just the Left who has promoted hatred and vengeance against President Trump, there are plenty of [neo-con Trotskyites on the right](#) who detest Trump's love of America and her people. Just listen to the vitriol of any RINO – Romney, etc.

As Francis Bacon stated, "A false friend is more dangerous than an open enemy."

On November 5th, we saw a sea of red across America, but never forget, the cheating continued in both the congressional and presidential races.

The American people had had enough. They rose up and ran to the polls, but election fraud still occurred. How many Republicans were winning when mail-in ballots appeared for the opposition. Proof of citizenship and proof of residency must be demanded across the nation for everyone to vote. Mail-in ballots other than for military or incapacitated, must be eliminated. Addresses must be validated at registration. All votes have to be in by the day of voting.

What infuriated me the most was hearing newscasters say, "In

2020, Biden won 20,000 more votes than Kamala in such and such county..." The problem with this statement is that American patriots know in their hearts that the 2020 election was stolen from Donald Trump.

2024 Transition Team

As head of the 2016 transition team, Vice President Mike Pence brought in far too many Trump Derangement Syndrome Republicans.

The 2024 transition team co-chairs are Linda McMahon and Howard Lutnick.

Linda McMahon's husband is Vince McMahon, and the two of them head up World Wrestling Federation/World Wrestling Entertainment. Linda was head of the Small Business Administration for two years during Trump's first term.

After college graduation, her first position was as a receptionist at Covington and Burling Law Firm. Former Obama US Attorney General Eric Holder is a longtime law partner, minus the eight years he spent in the Obama Administration. Covington and Burling originally represented General Michael Flynn, and told him to plead guilty to fraudulent FBI charges.

An October 30, 2024 [article](#) alleges that, "World Wrestling Entertainment co-[founders Vince McMahon](#) and wife Linda are accused of knowingly allowing the grooming, exploitation and sexual abuse of young boys throughout the 1980s and 90s, by WWE's ringside announcer, Mel Phillips, according to a [lawsuit filed](#) on behalf of five alleged victims." Rolling Stone [reported](#) on the lawsuit on October 23, 2024.

Linda McMahon is being considered for Commerce Secretary.

Howard Lutnick was CEO of Cantor Fitzgerald when 658 of the 960 employees were lost, including his brother, in the [September 11 attacks](#). He survived the attack as he was

taking his son Kyle to his first day of kindergarten that morning. He started the Cantor Fitzgerald Relief Fund for the families of employees who perished in the attacks.

Lutnick joined World Economic Forum member, Maria Bartiromo on "Mornings with Maria" at WEF's [January 2024 Davos, Switzerland meeting](#). They discussed interest rates, inflation and Cantor's opportunities in the healthcare industry.

Chief of Staff

As of Saturday, November 9, 2024, Susie Wiles has been chosen as Trump's Chief of Staff. She will be the Gatekeeper, as she was his de facto campaign manager along with Chris LaCivita. Wiles has many cordial relationships with Democrats as well as a cooperative stance with the mainstream media, which will likely help the 47th President. She is known as a "moderate."

[Time Magazine](#), [Newsweek](#), [Politico](#) and countless others love Susie Wiles. They all say she's a great pick for Chief of Staff.

Donald Trump has said that Susie Wiles is the number one person responsible for his election victory. That may well be true, but we all know that President Trump is a class act showman. The second Butler rally, Madison Square Garden, McDonalds, driving the garbage truck, all may have been Susie Wiles' ideas, but I have a hunch it was Donald's! Either way, it was magnificence on display. Remember Trump's SOTU speeches and how glorious they were. Every one of them made us proud of what he accomplished and how much he loves our country and her people. He always made us happy!

Trump may be right, maybe Susie is the catalyst, but I also think the people of America should take a bow for listening to the Dan Bonginos and the conservative talking heads who told everyone to get ten people and take them to early voting.

Thank you, Americans, you gave us the victory.

So, why are some people not thrilled with Wiles as Trump's new Chief of Staff. Surely, she is far better than Reince Priebus, John Kelly, Mick Mulvaney and Mark Meadows.

Stephen Miller has been named as Deputy Chief of Staff, so if Trump decides Susie isn't right for the job, he has never had a problem saying, "You're fired."

Susie Wiles spent years as a DC lobbyist and is still listed as the co-chair of the Florida and Washington, DC offices of Mercury, a national lobbying firm. When asked if she would step away from her position at Mercury, the transition team gave no answer.

At Mercury, Wiles represented a subsidiary of the tobacco company Swisher International as recently as 2023, according to [Open Secrets](#). She has funded Mitt Romney, Jeb Bush and John McCain. She is a businesswoman and as such will work for a variety of people to help them, just as she has done with Trump.

In 2022, I wrote an [article](#) about President Trump's advisors regarding the Republicans he was backing. Particularly disheartening was his promotion of Dr. Mehmet Oz over Kathy Barnette. A small set of advisors, led by longtime counselor Susie Wiles, vetted candidates seeking Trump's endorsement. The group included Bill Stepien, who managed Trump's 2020 campaign; Brian Jack, the White House political director under Trump; and Donald Trump Jr.

I realize that in any political campaign, we must endorse the Republican most likely to win when seeking a majority in the house or senate, but Oz didn't represent the Republican Party.

Attorney and political commentator, Tom Renz is well respected for testifying at Sen. Ron Johnson's roundtable about the adverse effects our military experienced from the Covid injections. Thus, when Renz' [Substack video](#) regarding Susie Wiles started making the rounds, people took notice.

Renz is not a Wiles fan.

Susie has been with Trump since 2015. She's seen him through three campaigns and he won two out of three. She is Trump's "scheduler" and she holds the keys to anyone getting close to Trump.

Renz provides critical information on her background.

Wiles is a co-chair at [Mercury LLC](#), a subsidiary of [Omnicom](#), a global leader in marketing communications that makes money through its relationships with Ford Foundation, Uber, Kaiser Permanente, United Nations Foundation, Pfizer, Gilead and Bill Gates' GAVI. They promote the Uniparty Deep State narrative. Omnicom is a partner with the World Economic Forum, promoter of DEI, controls 1,500 marketing and communications agencies and provides brand and advertising services to over 5,000 clients in more than 100 countries.

Wiles has spoken openly about being pro-trans and in favor of open borders. According to [The Florida Times Union](#), she was a source of information for Jack Smith's special counsel investigation of Donald Trump's role in the January 6th "insurrection" and his alleged mishandling of government records. Wiles is **not MAGA** or America First and has ties to CCP-compromised Mitch McConnell. The former majority leader is promoting neo-cons Thune and Cornyn rather than Rick Scott as the new Senate majority leader.

In the past, Wiles has influenced Trump on the vaccines and has been responsible for suggesting candidates that he should endorse, including his questionable support for Dr. Oz, a Turkish-U.S. dual citizen who promoted transgenderism, including surgery for children, sought the upholding of Roe v. Wade, supported Obamacare, opposed gun ownership, and advocated for CRT. In 2022, Mike Pompeo called Dr. Oz a potential security threat over his ties to the Turkish government. He is a dual citizen and voted in both Turkey and

American elections. There have been other dubious candidates that Wiles suggested to Donald Trump.

Susie Wiles is a strong operative who will be the first female Chief of Staff in Trump's second term. Susie has effectively served as Trump's Chief of Staff for three of the years he's been out of office. Much of the reporting about Wiles frames her as a grandmother who avoids the spotlight, whose hobbies include [baking and birdwatching](#). She's also, clearly, a savvy political operator.

Marine veteran Edd said it best, ""She is like a political mercenary and will fight hard for whomever pays her. There's little reason to doubt she will fight for Trump, given her past work with him."

Trump likes and trusts her. We have to give kudos to the woman who helped him achieve his goals. MAGA folks trust Trump, so love her or hate her, Susie Wiles is an integral part of the new administration.
