

# Hell Yes, We're Going to Take Your Freedom

JD Pendry

***“Hell Yes, we’re going to take your AR-15, Your AK-47.”  
–Presidential candidate Robert Francis O’Rourke***

Robert Francis O’Rourke meant to say take away your freedom. Not take away your Armalite Rifle (AR) 15. Your weapon of war. Robert might be surprised to know my Army basic combat training Drill Sergeants, all recent Vietnam Combat Veterans, taught me that every piece of equipment I carried was a potential weapon of war with which to kill the enemy complete with demonstrations. Are you coming for my entrenching tool (shovel) next?

*For I know the plans I have for you,” declares the Lord, “plans to prosper you and not to harm you, plans to give you hope and a future. [Jeremiah 29:11](#)*

People, mostly politicians offer promises of hope and visions of a utopian future. False hope mostly, but collectively we Americans are proven slow learners. It’s false hope because it’s always proven fallacious, but usually after Americans bought it hook, line and sinker. False hope through misleading promises always leaves us problems more serious than the problem we *hoped* to solve. Will gun control or gun confiscation under whatever misnomer make us safer? Or will it leave us defenseless in our homes and in public? Or will

it leave us defenseless against a tyrannical government? The very purpose for the 2<sup>nd</sup> Amendment. Did prohibition make us sober or safer? Nope. It only created a highly profitable bootlegging black market for the likes of Al Capone. Then it was repealed and everyone got drunk legally. So, when they come to take our guns is the offered hope of safety the goal? Hell no, O'Rourke, it isn't. The goal is to remove our means of protecting ourselves and the ability to defend our God-given and Constitutionally guaranteed freedom all under the pretext of making us safer.

There's lots of false hope spread around. Sugar candy for the ignorant. Free Medicare for all. Do you know what that means? Every working person my age was government forced into Social Security and Medicare. We paid for it all of our working lives to cover the senior citizens of our time. What's next Comrade Sanders? A social security check for everyone? Yang has a plan I hear. Bottom line, it takes away every American's freedom to choose. That's the goal comrade. Isn't it? By the way comrade, while you contemplate taking away my healthcare only to be followed by my Social Security check and probably military pension, how was it that you became a millionaire owning multiple homes while never holding a job other than civil service. Your role model Karl Marx was a bum also.

Open borders will make us more diverse and vibrant. We'll end racism. No, not really, but we will end America. The actual goal.

The biggest false hope. The most dangerous. Most of us do not believe that loss of freedom is a possibility. Not in America. Let me run this by you? Do not believe that every member of the United States Armed Forces will stand by their oaths to support and defend the Constitution of the United States regarding the right to keep and bear arms and protection against illegal search and seizure. Always

remember. Presidents decide who the flag officers are. The men and women that command the major elements of the military. Their influence ripples down from the Commander in Chief through the chain of command. Many will obey a command to knock on your door and confiscate weapons accompanied by your local, in some cases sanctuary state, police forces.

*Just as man cannot give you integrity, dignity, courage, your values or cannot determine whether you live honorably, neither can he give you freedom.*

*It is for freedom that Christ has set us free. Stand firm, then, and do not let yourselves be burdened again by a yoke of slavery. [Galatians 5:1](#)*

*As Americans, we can continue as the guardians of freedom or our citizenry can submissively slip the yoke of slavery around its neck.*

Freedom cannot be taken. It can only be forfeited. We must stand firm.
