

# Hillary-Merkel: partners in 'invited refugee invasion' crime

German leader Angela Merkel leads the world in refugee resettlement at 2,000,000 (million in 2015). Note that Germany, the same size as New Mexico, USA, houses 82 million people in that already overloaded country.

Without thought or planning, Merkel opened Germany's doors to Islamic terrorists, endless Muslim hordes and accelerating fragmentation of her country's future. She overlooked Paris, France. Merkel evaded the Charlie Hebdo massacre. She forgot 9/11 and the Boston Marathon bombers.

"Germany saw a record two million 'foreigners' arrive in 2015 – more than the number of asylum seekers who came between 1954-1989. According to the head of the Statistics Agency, however, it could be a conservative estimate." Breitbart

On America's side of the pond, Hillary Clinton states that our country must accept another 65,000 Syrian refugees. She advocates for total amnesty for anywhere from 15 million to 31 million illegal aliens. She supports the continued immigration of 1.2 million legal immigrants annually as mandated by the 1965 Immigration Reform Act.

Hillary spits venom at Cruz and Trump for mentioning that we need a "pause" in Muslim immigration because, as Obama said, "It's not who we are." Note that Obama admitted to George Stephanopoulos in a documented interview in 2007 that he followed the Islamic faith through the Qu'ran.

One look at history shows that Charles Martel drove back the Muslims mobs at Poitiers in 722 to save Europe from Islamic barbarism. Thomas Jefferson created the U.S. Navy and Marines

to defeat the Muslim Barbary Pirates from sinking our trading ships off the coast of Africa. Our Marine "leathernecks" coined that moniker because they strapped thick bands of leather around their necks so the Muslims couldn't cut their heads off.

Andre Servier, French historian said, "The deadening influence of Islam is well demonstrated by the way in which the Muslim comports himself at different stages of his life. In his early childhood, when the religion has not as yet impregnated his brain, he shows a very lively intelligence and remarkably open mind, accessible to ideas of every kind; but, in proportion as he grows up, and as, through the system of his education, Islam lays hold of him and envelops him, his brain seems to shut up, his judgment to become atrophied, and his intelligence to be stricken by paralysis and irremediable degeneration."

Exactly what don't Merkel and Hillary Clinton not understand about Muslim refugees after the endless events such as: Muslim shoe bomber, Lockerbie plane bombing, burning prisoners in cages, 10,000 honor killings annually of Muslim women, 9/11, Boston Marathon killers, Fort Hood Muslim murders, Times Square car bomber, Chattanooga, Tennessee Muslim murderer, Paris, France, Charlie Hebdo, endless rapes in Sweden, San Bernardino and the latest in Brussels, Belgium. Oh, at least hundreds of other Muslim killings from Boko Haram to subway bombings in Spain and London.

What do these two women not "get" about Islam? Imam's would have both women beheaded for dishonoring men by becoming leaders. Islam's followers remain rabid in their determination to bring the civilized world to its knees. At this point, demographers show that Muslims make up around 57 percent of Belgium; imam's brag that Belgium will become an Islamic caliphate (new state) within 30 years if not sooner. Muslims marched on the civilized world since the 6th century. Now, they carry C-4 bombs to blast Western countries in horrendous

fear and submission. All the while, they yearn for death to be with 72 virgins in heaven.

Anthony Flew, British philosopher said, "I would never regard Islam with anything but horror and fear because it is fundamentally committed to conquering the world for Islam... it is, I think, best described in a Marxian way as the uniting and justifying ideology of Arab imperialism."

As these two intrepid women sit back in their gated and guarded homes, the rest of the Western world cringes every time its citizens walk into public.

"Islam possesses no work ethic. Islam's philosophy remains: conquest. Islam's economic system means the conquerors live off the bounty of the conquered and look for new people to loot. You see it in Europe today, but Canada, America and Australia grow large in their cross-hairs. You may forget that the Middle East remains a desert, however oil makes its leaders rich, but it's people remain illiterate and poverty stricken. Their oil gives the illusion of functioning economies, but foreign interests run their management of the oil fields. Importing millions of Muslims creates welfare and conflict within a host country."

If Merkel remains Germany's suicide commander and Hillary Clinton reaches the White House, both face history's torrid placard: "Two women who single-handedly destroyed their own countries, cultures, languages and ethos. They displaced their own countries with Islamic barbarism and issued a return the Dark Ages by dislocating their own people in favor of Islam and its barbaric history. May both women rest in hell."
