

How About Separate Stand-Alone Constitutional Bills Instead of a Huge Debt Bomb?

Authored by Devy Kidd not AI

June 16, 2025

I voted for Donald Trump three times and would vote for him again. Should only have been twice but since he was cheated out of a second term, it turned out to be three times. Most of his “advisors” during his first term were a disaster; a great deal of time and money was wasted fighting BS lawsuits to stop him from building a wall to keep out scum, criminals, freeloaders, drug cartels and so forth.

This is his second and final time as president and I believe President Trump has changed quite a bit – for the good. During the illegitimate Biden administration, Trump wasn’t sunning at the beach eating ice cream cones. I believe he finally found out just how rotten and corrupt the U.S. CON-gress (a lot of RINO’s) is right along with agencies like the FBI, CIA and many more.

I believe he was more than determined than ever to get back into office (despite two attempts on his life) and this time bulldoze the rot and expose the corruption. Trump’s first time around based on recommendations by turncoat advisors, the swamp was filled, not drained – especially federal judges and Supreme Court Justice Amy Coney Barrett. It’s different this time around. Not perfect, but he’s only been in office less

than six months.

Unfortunately, Trump's still getting very bad advice (not just from some of his lawyers), but regarding government agencies and cabinets. One outstanding goal is to get rid of the unconstitutional Federal Department of ~~Dumbing Down~~ Education; teacher's unions are the cancer and **every state should have nothing to do with them.** [President of largest teachers union in US defends illegal immigrants during anti-ICE protest in LA](#) – NEA's Becky Pringle speaks at LA rally while Trump deploys National Guard to quell violent immigration protests, June 10, 2025 (Gag me.) One of the reasons I sacrificed so much to keep my daughter in private Christian schools.

Ronald Reagan promised if elected to get rid of the unconstitutional Federal Department of Education and SBA, Small business Administration. Soon as he was elected, those promises blew into the wind. Same promise by Bob Dole, same result; he wasn't elected but it was back to business as usual and today we have tens and tens of millions of legal school children who can't read a comic book.

Eighth graders who can't read a ruler. I know because I was a part-time substitute teacher (at every school in our district where I live) after my husband passed away. I was appalled and sickened at how far behind students from about 7th grade through seniors – so many of them – couldn't read at the 4th grade level. I will say too many had deplorable home situations (druggies and drunks for parents) including child abuse. Heartbreaking. We also had too many illegal aliens and boy could I tell you some stories about them.

No where in Art. 1, Sec. 8 of the U.S. Constitution does it give CON-gress the authority to make loans, i.e., Federal Dept of Education, SBA, foreign governments or banks. Think the rancid USAID, a well-run money laundering black hole operation. And people) wonder why WE owe more than \$36

TRILLION dollars (“national debt” *run up by both parties?*)

Members of the Democrat/Communist Party USA don’t know how to do anything other than lie while they huff and puff. One issue in the misnamed Big Beautiful Bill deals with **Medicaid which Congress has no constitutional authority to fund.** Do NOT underestimate DemonRat House Minority Leader Hakeem Jeffries. While he lies through his teeth, Jeffries is actually a very intelligent man. Too bad he’s one of Satan’s Pimps:

[White House Shuts Down One of the ‘Most Disgusting Lies’ Being Spread About the Big, Beautiful Bill](#), June 3, 2025:

“This bill actually hurts everyday Americans in order to reward billionaires,” Jeffries told host Dana Bash. “It would strip away healthcare from approximately 14 million Americans. Premiums, copays and deductibles for tens of millions more will go up. Actually, if it ever were to be implemented into law, hospitals will close, nursing homes will shut down and people will literally die.”

- **FACT:** Medicaid will be strengthened for the American citizens for whom the program was designed – pregnant women, children, people with disabilities, low-income seniors, and other vulnerable low-income families. By removing at least [1.4 million illegal immigrants](#) from the program, ending taxpayer-funded gender mutilation surgeries for minors, and eliminating waste, fraud, and abuse, the One Big Beautiful Bill will ensure Medicaid better serves the American people.
- **FACT:** [4.8 million](#) able-bodied adults on Medicaid are choosing not to work – and by implementing commonsense, Clinton-era work, volunteer, education, or training requirements, the One Big Beautiful Bill lifts them up to find a better quality of life through the dignity of work. Through work, job training, or part-time volunteering, this requirement will strengthen the

system to better help those most in need of assistance. Work requirements are a bipartisan solution [supported](#) by Joe Biden. (White House)

[HHS Secretary RFK Jr. Says Trump's 'Big Beautiful Bill' Includes \\$75/Month Healthcare Plan with 24/7 Concierge Doctor – No Insurance Claims and Surprise Bills, June 13, 2025](#)

“HHS Secretary Robert F. Kennedy Jr. just dropped a healthcare bombshell on *The Story* with Martha MacCallum: President Trump’s “Big Beautiful Bill” is about to revolutionize health care for working Americans. June 13, 2025

“For just \$75 a month, Americans will now be able to access a 24/7 concierge doctor – no copays, no insurance battles, no outrageous surprise bills. This is health care for the people, not for the insurance lobbyists or Big Pharma cronies.

“One of the most groundbreaking parts of the plan is its expansion of Health Savings Accounts (HSAs).

“For \$75 a month, under this bill, you’ll be able to get a concierge doctor who is available 24 hours a day, every day of the week, every day of the year. You won’t get a bill for it. You won’t have to file insurance claims. It’s just like old-style health care—but it’s for \$75 a month.

“We’re also going to allow the creation of onsite medical centers by employers—at factories, at workplaces—where workers can get treated for free. Somebody won’t have to leave work for four or five hours to get a medical checkup. They’ll be able to do that onsite.” Rest at link. I have some very valid problems with that plan I’ll address soon.

Medicaid is an INTERNAL issue **that falls to the states of the Union to make laws** and eligibility regarding any such program and funding:

Joseph Story, Associate Justice, U.S. Supreme Court, said in

the 'Commentaries on the Constitution' (1833):

"Another not unimportant consideration is that the powers of the general government will be, and indeed must be, principally employed upon external objects, such as war, peace, negotiations with foreign powers and foreign commerce. In its internal operations it can touch but few objects, except to introduce regulations beneficial to the commerce, intercourse and other relations, between the states, and to lay taxes for the common good. The powers of the states, on the other hand, extend to all objects, which, in the ordinary course of affairs, concern the lives, and liberties, and property of the people, and the internal order, improvement and prosperity of the state."

Medicaid is not an external object or operation. Tenth Amendment. The amount of money stolen from the Medicaid program is STAGGERING – most of which can't be recovered. Medicaid MUST be taken out of the hands of the incompetent federal government and run solely by each state of the Union. It is far easier to detect the fraud and pursue getting back some of the money stolen through fraud which is epidemic in the Medicaid system:

[Let's Take a Look at Fraud Against State Medicaid Programs:](#)

"In the last few days, we've been discussing the impact of fraud on the federal healthcare programs, but whistleblowers also play an important role in fighting fraud in state healthcare programs like Medicaid. Some experts estimate that fraud accounts for as much as 20 percent of government healthcare spending.[1] This means that, through Medicaid and other programs, the average state may waste as much as 6.4% of its total budget on healthcare fraud every year.[2]

"Imagine if we could stop this wasteful spending. Let's consider Texas, a state with an annual budget of more than \$123 billion.[3] 6.4 percent of Texas' 2021 budget would total nearly \$7.9 billion. This sum would fund the entire state

university system—including community and technical colleges—for a year, with more than \$1 billion left over.[4] \$7.9 billion could cover nearly 70% of the cost of the state’s annual highway development spending,[6] or it could fund the state’s direct services to veterans every year for the next 364 years.[6]

“State False Claims Act enforcement efforts are an efficient use of taxpayer money: in 2019, state Medicaid Fraud Control Units [recovered \\$6.41 for every \\$1 spent](#) on enforcement. Four of the largest healthcare fraud settlements by states demonstrate some of the schemes that lawbreakers use to defraud the government, and the effectiveness of whistleblowers in fighting back:” Rest at link. There is way too much fraud in the Medicare system throughout the states and that can only be solved by strict oversight by state laws and follow-up as to who is abusing and who legitimately needs that helping hand. *This is a perfect example why DOGE should be set up in every state.*

[H.R.1 – One Big Beautiful Bill Act](#) introduced by my U.S. Rep. Jodie Arrington; I voted against him twice in primaries but he always manages to “win”. He doesn’t even know our city exists – just vote for him! Only 1100+ pages so have a good read. Of course, through “reconciliation” there’s been changes, but *how many U.S. Reps and Senators (not their aides) actually read the bill before they voted?*

[‘I am adamantly opposed’: MTG shocked to discover what is in bill she voted for](#), June 3, 2025: “Rep. Marjorie Taylor Greene (R-GA) indicated that she had regrets about not reading President Donald Trump’s “One Big Beautiful Bill” before voting for it.”

Thank she’s the only one? [Remember this](#): “Back in March 2010, House Speaker Nancy Pelosi said out loud what most Democrats would only say in their own heads. In referencing a massive takeover of America’s health care system, also known as

Obamacare, **Speaker Pelosi suggested the House pass the bill so we could all find out what was in it.**

“History certainly does repeat itself. More than a decade later, House Democrats are attempting to ram through a 10,000-page \$3.5 trillion budget reconciliation bill without really knowing what is in it. And how could they? This massive partisan bill changes every day.”

CON-gress is in session, well, not 12 months a year as they get tons of days off with pay. U.S. Speaker of the House, who I can't stand, Mike Johnson, said “they've been working on this BBB for the past 14 months.” Really? Why then do we have to have one bill thousands of pages long where both parties spent the last couple of months before the end of the fiscal year (Sept. 30th) arguing and back door trading to get a final bill – or most common a continuing resolution – done by Sept 30th? President Trump wants his BBB done by 4 July. As the old saying goes, haste makes waste.

There have been so many constitutional bills introduced the past few years that never even got a vote. Now, however, a couple are in this monstrous 1,100 + page bill. Hell, I thought NAFTA was bad (I read all 2400+ pages) or the WTO/GATT disaster treaty (25,000 pages read by ONE senator from Colorado who quit after one term stating he would never vote for that treaty. He read it for a \$10,000 donation to his favorite charity!). I read only parts at the big library in Denver as there weren't many PC's in homes back then.

Each issue like the ones below can easily be done one separate bill per issue. That way all members of CON-gress and We the People can read it and make our voices heard. Then the jackals (with a few exceptions) in both parties can vote yes or no without all the histrionics and BS politics.

[H.R. 3664 \(110th\): Tax Free Tips Act of 2007](#), introduced by

then congressman, Ron Paul: "To amend the Internal Revenue Code of 1986 to provide that tips shall not be subject to income or employment taxes." Simple, easy for even the dumbest in CON-gress to understand.

3 co-sponsors: James Sensenbrenner [R-WI], Mark Souder [R], McCotter, Thaddeus "Thad" McCotter [R-MI]. All are gone from Congress now. The SEIU (Service Employees International Union (SEIU)), did not support the bill.

[No Taxes on Tips](#) By Ron Paul, MD, October 4, 2007. "Many service-sector employers are young people trying to make money to pay for their education, or single parents struggling to provide for their children. Oftentimes, these workers work two jobs in hopes of making a better life for themselves and their families.

"The Tax Free Tips Act gives these hard-working Americans an immediate pay raise. People may use this pay raise to devote more resources to their children's, or their own, education, or to save for a home, retirement, or to start their own businesses. Helping Americans improve themselves by reducing their taxes will make our country stronger. I, therefore, hope all my colleges will join me in cosponsoring the Tax Free Tips Act."

Never even received a vote by all those Republicans and Democrat incumbents who claim to be for the working man and woman.

[Dr. Paul tried again in 2009](#). One co-sponsor, Sensenbrenner. Never even got a vote.

[He tried again, same bill 2011-2013 session](#). As usual it died with no vote.

Those who opposed Dr. Paul's bill session after session said it would hurt badly needed revenue for the bloated leviathan federal government. Instead of abolishing unconstitutional

cabinets, agencies and their out-of-control spending, screw waiters, bartenders, waitresses, sky caps at the airport, luggage assistants at a hotel and others who might receive a tip, like your hairdresser or barber.

[H.R.482 – No Tax on Tips Act](#) introduced Jan. 16, 2025. 23 co-sponsors; 3 Democrats.

Those who support continuing taxing tips say it will bring in needed revenue for the crooks in CON-gress to blow out their rectums on unconstitutional spending (like junkets to 'talk trade') and proxy wars (Ukraine) or useless undeclared wars like Iraq, Afghanistan, Viet Nam.

Last month the U.S. House barely passed the Big Beautiful Bill Act which does eliminate taxes on tips and **overtime but seniors[1][2] will still get royally screwed by double taxation**. President Trump posted on X: "The Bill includes MASSIVE Tax CUTS, No Tax on Tips, No Tax on Overtime, Tax Deductions when you purchase an American Made Vehicle, along with strong Border Security measures, Pay Raises for our ICE and Border Patrol Agents, Funding for the Golden Dome, "TRUMP Savings Accounts" for newborn babies, and much more! Great job by Speaker Mike Johnson, and the House Leadership, and thank you to every Republican who voted YES on this Historic Bill! Now, it's time for our friends in the United States Senate to get to work, and send this Bill to my desk AS SOON AS POSSIBLE!"

Yes, less revenues to spend on this – The FDA (Federal Death Administration has been one of the most sadistic agencies right along with the FDA, NIH, Dr. Death Fauci and too any cosmetic manufacturers; if they sell in commie China, animals *must be tortured to convince the God-less CCP the make-up (in all forms) works as advertised*. That is why I only used plant-based cosmetics. I won't even get started on that issue right now; I'd want to take my Glock and shoot this computer.

[Images of week-old puppies convulsing from drug overdoses may finally become a thing of the past. First Dogs, Then Humans.](#)

How about the bills to get us out of NATO which is nothing but a big damn money war machine? Dead every time. A bill to get us out of the communist controlled, corrupt UN. DOA. A separate one-page bill forbidding any companies, corporations, medical suppliers, hospitals, suppliers of electricity for your home to demand your social security number – the key to massive vote fraud. No one in CON-gress or my state legislature was interested in my bill to stop this gateway to your bank accounts and fraud.

A bill to stop all funding which supports the BIG HOAX called climate control. **A bill to abolish the head of the beast:** The (unconstitutional, privately owned) “Federal” Reserve Banking Act of 1913. **READ:** [Rep. Massie Introduces Federal Reserve Board Abolition Act to “End the Fed”](#), March 5, 2025. [Here’s the bill](#). 10 Co-sponsors, all Republicans. Of course, my GOP U.S. Rep. Arrington (who is a staunch supporter of double taxing seniors) is not a co-sponsor.

Great senators like Ron Johnson has suggested going line by line of the BBB so what needs to be vetoed can get thrown out. Well, the clock is ticking so what’s the chances of that happening? With the world on his shoulders, President Trump doesn’t have time to read every word and line in that monster bills. He has to rely on his alleged loyal staff to put together abbreviated overview of what’s in the bill. Then when it all goes to sh*t, the other party can blame Trump or any sitting president. The game hasn’t changed.

The bottom line is all unconstitutional funding must be stopped but only a handful of U.S. reps and senators really understand this. That BBB is a debt bomb. I wish more than anything America can prosper; there is no reason for any legal American to go hungry in this land rich in natural resources.

If you have time, David Stockman has broken down the numbers and it's not pretty. (And please remember I'm the messenger trying to get you the truth so kindly refrain from sending me threatening or ugly email.) You can only put so much air into a balloon before it busts. This is worth the time to study by Former congressman, David Stockman, who was Reagan's OMB director.

[The Trumpified GOP's Great Big Ugly Debt Bomb](#), May 21, 2025: "When it comes to the Donald's Big Beautiful Bill there is one place, and one place alone, to start the discussion. We are referring, of course, to the built-in baseline of revenues, outlays and deficits under current Federal law and policy.

"Needless to say, the latest CBO baseline amounts to a five-alarm dumpster fire. If Congress does nothing about entitlements, tax law or current funding policy for defense and nondefense discretionary programs, the annual Federal deficit will reach nearly \$3 trillion and 6.1% of GDP by the end of the 10-year budget window. Accordingly, total public debt will soar from today's \$37 trillion to more than **\$58 trillion** by 2035."

We can pray for Trump and also that some sanity enters the negotiations of the so-called Big Beautiful Bill. I hope in the future (starting 1 Oct, **the American people demand their CON-gress critters stop with these monster bills and take each constitutional issue one by one, one bill at a time.** These are the ONLY powers the U.S. House and the Senate have, PERIOD: [Art 1, of the U.S. Constitution](#) – socialists (liberals) and communists (progressives) pay particular attention to Art. 1, Sec. 8.

For a thorough, comprehensive education on the Fed, the income tax, education, Medicare, SS, the critical, fraudulent ratification of the Seventeenth Amendment and more, be sure to order my book by calling 800-955-0116 or click the link, ["Taking Politics Out of Solutions"](#). 400 pages of facts and

solutions. Order two books and save \$10.00
