

How Much More Can Congress Keep Ripping Off Americans?

By Frosty Wooldridge

November 17, 2026

After 43 days of the government shutdown, my U.S. Senator John Hickenlooper was asked on national TV if the shutdown was worth it? He said, "Yes, I believe it was worth it."

What an absolute moronic statement to make after the democrats damaged millions of peoples' lives! To add to such stupidity, John Hickenlooper was a "Sanctuary City" mayor of Denver, and Sanctuary Governor of Colorado. He supported open borders as a U.S. Senator that has cost Coloradans and Americans billions and billions of dollars. We are the recipients of the rapes, crimes, drug distribution, overdose deaths into the hundreds of thousands, carjackings, shoplifting and total 200,000 homeless illegal aliens in Colorado.

"Yes, I believe it was worth it," Hickenlooper said.

What kind of a vacant mind, an absolutely mindless comment can come from a man who knows he has violated his oath of office to the U.S. Constitution? What does he use for common sense? What does he use for personal ethics? How in tarnation does he manage such an "absurd" life?

Guess what, we've got dozens of leaders like him. Would you like to list them? Let's start: Ilhan Omar (D-MN) who despises America and our "racist" citizens...even though we Americans plucked her out of her home country of Somalia, where most

victims starve to death, and gave her an incredible life in America.

Then you've got U.S. Senator Bernie Sanders of Vermont who despises Capitalism, and wants to employ Socialism in America so we can all be mutually miserable.

What about that obscene crook and double-dealing former House Speaker Nancy Pelosi who said, "These immigrants (illegal aliens) are the future of America." She said that while she fed her husband insider trading deals on defense contracts that netted that couple over \$120 million.

What about the fraud of Barack "Barry Soetoro" Obama who completely defrauded the American people with a false birth certificate and false Social Security number? And now, his wife (Michael Vaughn Robinson) oh...I mean, Michelle Obama cries because Americans didn't elect Kamala Harris because she was Black. "Michelle" didn't mention that even \$1.5 billion in cash couldn't buy Harris the White House because she was/is unqualified, never put a coherent sentence together, and couldn't answer any question any better than her mentor, Joe Biden, who suffered from Alzheimer's disease.

What about that House Member Eric Swalwell carrying on with a Chinese spy? He's so crooked that he should ride Lombard Street in San Francisco 24/7...it's the crookedest street in the world. I've ridden it on a loaded touring bicycle so I know it's crooked.

What about that total fraud House Member Rashida Tlaib in Detroit, Michigan who represents Islam, the Quran, and only Sharia Law? She wrapped herself in the Palestinian flag once she got elected by her Muslim clan that some moron in the immigration department in Washington DC thought it would be wonderful to flood our country with the most violent religion on planet Earth. She, along with all her Muslim constituents will NEVER abide by or become loyal to our U.S. Constitution.

The Quran mandates that every Muslim must adhere to Sharia Law. They are not here to assimilate. They are here for conquest.

What about that vacant-minded AOC? Every time she opens her mouth, it's like hot air coming out of a blow dryer. She has no idea of what she's talking about. She supported Muslim/Communist/Sharia Law follower Zohran Mamdani. He doesn't know his a** from a hole in the ground, and he despises our entire Capitalistic system without jack-squat understanding what happens when Socialism-Communism takes over...examples are Cuba, China, North Korea, Venezuela, et al. Do you see millions of people migrating to those countries?

What about those two major failures in Congress: Hakeem Jeffries and Chuck Schumer? They created a 43-day shutdown, and then, caved because no one wanted to spend billions of dollars on healthcare for illegal aliens. So, they signed the same bill that they rejected 14 times.

For certain, you've heard the term, "They've got succotash for brains." You get my drift!

How is it that we're saddled with a senator Schumer who has been in Congress for over 40 years? What about Nancy Pelosi who has been in the House for 40 years? Why haven't more honest and rational minds introduced "Term Limits" to stop the incredible corruption now entrenched in Congress?

How is it that California burned to the ground because of the incompetence of Governor Gavin Newsom and LA Mayor Karen Bass? And that joker wants to be the next president of the United States! He would open up our borders worse than Biden, and he would turn his 250,000 homeless into 500,000 homeless.

The numbers are staggering:

"According to a report from Epoch Times, California's spending on health care for illegal aliens through Medi-Cal

is now projected to hit \$10 billion annually. That's \$3.3 billion more than money for the Highway Patrol. It's \$4.5 billion more money than accoladed for Cal-Fire."

No wonder California burned to the ground!

And yet, people vote for such incompetence! Same craziness in New York City. How can THAT many people be THAT stupid.

Now, the entire world gets to watch New York City turn into a disaster Muslim/Communist/Sharia Law Zone. Just like what's happened to Europe.

Does anyone have the guts, the brains and the courage to outlaw Islam and Sharia Law in America? Anyone who demands Sharia Law should be deported. That would put a stop to this nonsense. Because if we don't start protecting ourselves, we're going to end up in the same ditch as Europe.
