

How Patriots Can Effectively Resist Tyranny Without Direct Confrontation, Threats, or Danger

By Andrew C. Wallace

February 18, 2023

The duty of all citizens is to resist unconstitutional government in a legal manner that is effective, and ideally does not put the citizen at risk. I guarantee that all who read this paper can do their duty to resist actions even under the “Color of Law”, and if you are harmed, it will be because we are already in a Civil War!

Face it, most people are victims of a very effective Communist education system and a Communist media (modeled after Adolf Hitler), controlled by Enemies of the People. Pity these victims who are ignorant of simple Economic and Constitutional facts. They will remain ignorant and loyal Communists until faced with starvation. Lenin called them his “Useful Idiots”; who else would support their own destruction?

Most people only have a vague idea of their true Enemy’s identity. The Enemy of the people in the United States and indeed the world is the Parasitic Super-Rich Ruling Class (PSRRC), the wealthy families who control the ‘woke’ corporations that bribe our government officials in both parties. Since 2020, the top 1% got two-thirds of all new wealth. Their motto for the rest of us is that “You will own

nothing and be happy.”

Before you can RESIST Unconstitutional laws, Administrative Laws and Presidential Executive Orders you must understand their Jurisdiction...or lack of it.

1. Administrative laws and regulations are written by unelected bureaucrats with no authority to enact legislation. Books are written on abuses of the “Administrative State” which is responsible for much of our sad state of affairs.

2. Presidential Executive Orders are binding on federal employees while at the job. Executive orders have no authority over citizens in the states. Executive orders do have power over people residing in DC, property owned by the government, the possessions and territories of the United States. Executive orders must in all cases comply with the Constitution (most don’t).

3. Constitutional Laws in the states are THOSE FEW enacted by the legislature and signed by the president that are Constitutionally authorized by the “Enumerated Powers”. Simply stated these are Foreign Relations, Defense, Immigration, Commerce, Post Office, Census, Courts, The Mint, Patents, Copyrights, etc. Unless you are counterfeiting or an illegal Invader, it is hard to see many citizens violating federal laws that are Constitutional. You can’t question the legality of these enumerated departments.

4. Unconstitutional laws in the states are passed by the legislature and signed by the president, but do not comply with the “Enumerated Powers” so they have no legitimate authority in the states. But they do have authority in DC, possessions and property owned by the federal government. A majority of our laws are unconstitutional having no legitimate jurisdiction in the states. Many of these laws are unconstitutional usurpations of state powers to concentrate theft and money laundering in Washington.

RESIST! RESIST! RESIST! RESIST! RESIST! Many Americans have been prosecuted, are in prison or lost everything for violating a "law" that is not a law. We can never forget the political prisoners of January 6th who were denied all Constitutionally-protected rights and framed by the FBI. The FBI does only two things well: the framing of citizens, and public relations. The FBI must be abolished because it will be impossible to have a Constitutional Republic as long as they exist.

The most corrupt and despicable people in the country are our legislators who pass one unconstitutional law after the other to impoverish citizens, use our money to enrich the Military Industrial complex with no-win wars for profit, while killing millions of innocent people. Our state Governors are just as corrupt because they allow the federal government to usurp state powers for profit.

I want to make this clear. I am not advocating the use of force against faux government authority even when it acts "Under the Color of Law". I am a firm advocate of peaceful resistance as the best way to overwhelm the faux government so it can't persecute us as it is now doing. I also strongly believe that failure to RESIST will lead to Civil War, for I have no faith in the court system and even less in the election process.

Many people, mostly women, both religious and not, do not believe in self- defense with firearms, even knowing that for most people, effective police protection does not exist. They don't even realize that "gun-free zones" are killing fields! I want to quote the following for these future victims:

Luke 22:35-39

King James Version

35 And he said unto them, When I sent you without purse, and scrip, and shoes, lacked ye any thing? And they said, Nothing.

36 Then said he unto them, But now, he that hath a purse, let him take it, and likewise his scrip: and he that hath no sword, let him sell his garment, and buy one.

These are future victims who refuse to defend themselves against criminals, and are ignoring the teaching of Jesus Christ and our Founding Fathers. They live in a 'utopia' that doesn't exist. This does not directly relate to the subject-matter of this article, but it was too important to ignore.

Paul Engel recently reported in newswithviews that there were 108 federal agencies operating in the states, with only 12 of them authorized by the Constitution and another 15 that may be Constitutional. This is where it becomes obvious that most federal agencies and their related edicts are unconstitutional usurpations of state powers!

Here are some obvious Unconstitutional Agencies for which you could have conflicts. You should write all of them requesting proof of Constitutional Jurisdiction (they have none!). If enough citizens question them and expose them, you take away their faux power to govern.

1. Director Rochelle Walensky, Centers for Disease Control, 291 Peachtree St., Atlanta, Ga 30329
2. Secretary Marty Walsh, Department of Labor, 200 Constitution Ave. NW, Washington, DC 20210
3. Secretary Tom Vilsack, Department of Agriculture, 1400 Independence Ave. SW, Washington DC 20250
4. Secretary Xavier Becerra, Department of Health and Human Services, 200 Independence Ave. SW, Washington DC 20201
5. Secretary Miguel Cardona, Department of Education, 400 Maryland Ave. SW, Washington DC 20202
6. Secretary Jennifer Granholm, Department of Energy, 1000 Independence Ave. SW, Washington DC 20585
7. Secretary Pete Buttigieg, Department of Transportation, 1200 New Jersey Ave. SE, Washington DC 20003

8. Secretary Marcia Fudge, Department of Housing and Urban Development, 451 7th ST. SW, Washington DC 20410
9. Chairman Jerome Powell, Federal Reserve Bank, 20th St. and Constitution Ave NW, Washington DC 20551

Remember that the Federal Government is forbidden in the Constitution from exercising or supervising police powers in the states. Police powers are defined as Health, Education, Welfare, Family Affairs, Police Protection and damn near everything else. Legitimate powers of Federal Government are very limited by "Enumerated Powers".

If you are truly a Patriot, you can afford 9 stamps and the time to send form letters to the Secretaries of each department. You should never contact anyone but the Secretaries, or top official.

If a department initiates a (complaint) letter to you or contact of a personal nature (not associated with this effort) respond with identical form letter, but send it certified. If the secretary's response does not absolve you of their initial complaint, contact an attorney.

Every initial letter you send, regardless of circumstance, should be identical to the letter in the addendum.

If enough Patriots get off their asses, send these 9 letters and encourage others to do the same, it will have a powerful effect on the usurpers ruling our country. Note that I gave you the addresses.

God Bless Our Constitutional Republic.

Re. Request for proof of Jurisdiction.

Dear Secretary Walsh,

This is a demand pursuant to federal law, Title 4 US Code, Section 72,[1] and the Enumerated Powers set forth in Article 1 Section 8 of the Constitution.

4 USC 72 clearly stipulates such power/authority must be granted you and your agency pursuant to a law passed by Congress that complies with the Enumerated powers of the Constitution. Therefore, again this is a request for your written proof of said jurisdiction to exercise any and all authority within the 50 states of the Union and upon the state citizens therein.

I am aware of the legislative and Enumerated Powers requirements for your department to have jurisdiction in the states, which I find that you don't now possess and can never have without an amendment to the United States Constitution.

Jurisdiction, once challenged, requires jurisdiction to be proven,[2] Your jurisdiction is hereby and herein "challenged".

Realizing that your schedule is quite busy, I shall afford you thirty (30 days), holidays excepted, to reply. If you require additional time to reply, please request in writing to establish a record.
