

How the Liberals Are Destroying the Foundation of America, Part 3

Democrats always seem to point out what is wrong with the other side of the isle and the other side of the isle dose the same but one of the problems with the Democrats is they accuse conservatives of the results of the Democrat economic policies. Mad Maxine Waters Tweeted her disgust of the conditions in Los Angeles with the homeless and elderly when the problem is California's policies concerning illegals take way too much of the states funds and doesn't leave enough to do anything for the actual citizens of California. ***Homeless families sleeping on the streets; children sleeping in cars, trying to go to school ea. day; and seniors, 70 & 80 yrs old eating out of trash cans. Yes Trump, this is a disgrace. It's shameful for the most prosperous country in the world to tolerate this!*** [1] Then she mentions a bill she is sponsoring to eliminate these problems. ***Support HR 1856.*** Really? Trumps policies have brought us the best economy we have ever seen. California can't benefit from it because it spends \$20 billion on illegals and now, they want to give them free healthcare. What about the real citizens of California? It seems that all the elected officials in California serve the illegals but not the actual citizens. Mad Max, for some reason, thinks these problems are Trumps fault.

We have actual idiots that call themselves professors that teach in our colleges and universities. They have no knowledge of our history and literally indoctrinate our kids with an ideology that teaches them to hate America. Noah Webster stated: ***"Every child in America should be acquainted with his own country. He should read books that furnish him with ideas that will be useful to him in life and practice. As***

soon as he opens his lips, he should rehearse the history of his own country." We no longer do that. We allow these so-called educators to teach our children that all of the worlds problems are caused by America's capitalism when the opposite is actually true. Our kids are taught to hate all that is America. We have seen over the last few weeks a controversy about the Betsy Ross Flag. The has been NFL player convienced Nike to pull a show that had that flag on it from the shelves because it 'represented racism'. No one mentions that when that flag was designed virtually all nations participated in the slave trade, but only America needs to be ashamed that we did. Nobody mentions that even today ***every muslim nation still practices slavery***. Not sure why that is never brought up. One so-called professor at Georgetown University stated that wearing the Betsy Ross flag was equal to the swastika and burning cross in the fashion of the KKK. ***Georgetown professor Michael Eric Dyson compared wearing the Betsy Ross American flag to wearing a swastika, and equated Nike's decision to put it on a shoe to celebrating the Ku Klux Klan burning crosses.***

"Words matter, symbols matter too," he said, asserting PC culture has not gone too far in the case of the Nike shoe. "Why don't we wear a swastika for July 4th? I don't know. It makes a difference. The cross burning on somebody's lawn. Why don't we just have a Nike celebration of the cross? Well because those symbols are symbols of hate." ² Seriously? This fool knows nothing about our history. Yes there were slave owners but participating in slavery was required by England. Washington hated it along with the majority of the Founders. ***When you want to change the perception of someone you attack the character of the leader and that is what has been done with Washington. The revisionist historians dwell on the fact that Washington was a slave owner. He was. He was given the slaves when he was a teenager. He refused to break up the slave families and almost went broke in the process of keeping them together. He was against slavery and did all he could to end it. He lived in a state where you were not allowed to free***

a slave. Upon his death he did free them but many were put right back into slavery because of the states laws. [2]
Notice his slaves were given to him and he never broke up a family. It's too bad that our "educators" are ignorant of history.

Another problem with the liberal, socialists democrats is our immigration laws mean nothing to them. They want open borders because most illegals vote democrat even before they become citizens, if they ever become citizens. The weekend of our celebration of independence Democrat Cory 'Sparticus the gropoer' Booker escorted five illegals across our southern border. ***Never to be outdone, Booker upped the ante three days later by traveling to the same city and, not only speaking with alleged asylum seekers, but also reportedly escorting five of them into the United States in possible violation of federal immigration laws. According to independent reporter Andrew Kimmel, the asylum seekers had been sent back to Mexico after applying for asylum as per the Trump administration's Migrant Protection Protocols (MMP) program, which mandates that asylum seekers wait in Mexico as their asylum claims are processed.***

Launched earlier this year, the program is designed to disincentivize asylum fraud, which even anti-Trump CNN host Fareed Zakaria has admitted is a problem, and also lessen the crowding at U.S. Customs and Border Protection's overcrowded detention facilities. [3]

In May of this year the Democrats in the House, after complaining about so-called Russian interference in our elections, voted to allow illegals to vote: ***House Democrats voted Friday to defend localities that allow illegal immigrants to vote in their elections, turning back a GOP***

attempt to discourage the practice.

The vote marks a stunning reversal from just six months ago, when the chamber – then under GOP control – voted to decry illegal immigrant voting.

“We are prepared to open up the political process and let all of the people come in,” Rep. John Lewis, a Georgia Democrat and hero of the civil rights movement, told colleagues as he led opposition to the GOP measure.

The 228-197 vote came as part of a broader debate on Democrats’ major legislative priority this year, HR 1, the “For the People Act,” which includes historic expansions of voter registration and access, as well as a major rewrite of campaign finance laws. [4]
