

How 'they' sell vote fraud as legitimate election totals

"There is in Italy a power which we seldom mention in this House ... I mean the secret societies ... It is useless to deny, because it is impossible to conceal, that a great part of Europe – the whole of Italy and France and a great portion of Germany, to say nothing of other countries – is covered with a network of these secret societies, just as the superficies of the earth is now being covered with railroads." –Benjamin Disraeli, at British House of Commons, July 14, 1856.

Regular readers of my columns for decades know I have written about vote fraud since 1993. As a victim of it when I ran for Congress in 1996, I know all too well how those who run 'our' government from behind the scenes pull it off every two years.

Do you remember the movie, Conspiracy Theory with Mel Gibson? He kept trying to explain to Julia Roberts who 'they' were without coming right out and saying secret societies which are no longer so secret. Like the [Treasonous Council on Foreign Relations](#) and the [Treasonous Tri-Lateral Commission](#) to name two of the most powerful. Both of those are my columns and a third which lists most of them: [The House That evil Built](#). Those three columns are critical in understanding 'who' is behind the curtain and 'they' now have their sights trained right at President Trump.

Another must read is [The Secret Team: The CIA and Its Allies in Control of the United States and the World](#) by the late L. Fletcher Prouty, a truly great American. "L. Fletcher Prouty (1917–2001), a retired colonel of the U.S. Air Force, served as the chief of special operations for the Joint Chiefs of Staff during the Kennedy years. He was directly in charge of the global system designed to provide military support for the clandestine activities of the CIA. " Lt. Col. Prouty was the

shadowy Mr. X in Oliver Stone's movie JFK.

Finally, after all these decades newly sworn in President Trump has unleashed a galactic poop storm against media lackeys in this country who do the bidding of the 'shadow government'. Naturally, anyone exposing the evil doers hell bent on destroying this constitutional republic are slapped with all the worn out labels.

"1987: Then U.S. Attorney General William French Smith blew the whistle on a fairly low ranking Marine officer by the name of Oliver North. According to Smith, Lt. Col. Oliver North directly helped draft a plan in 1984 to impose martial law in the United States in the event of an emergency. This secret plan would suspend the U.S. Constitution and turn over control of the government to the little known agency at that time: FEMA. This plan would appoint military commanders to run state and local governments. Implementation of this plan would have been triggered by violent and wide spread internal dissent, disagreement with government policy or national opposition to any U.S. military invasion abroad. Essentially, it amounted to a complete and total suspension of the U.S. Constitution and Bill of Rights.

"Investigators who uncovered this plan believe that between 1983 – 1986, North's office was the 'central command center' for this informal secret structure which involved more than the illegal sale of arms to Iran and illegal funding of the underground war in Nicaragua under President Ronald Reagan. "Lifers" in the military were shocked, saying at the time that no Lt. Colonel is ever given the kind of power North was apparently given within this secret structure. So great was his authority, he could have the orbits of sophisticated satellites altered to follow Soviet ships around the world or launch high-flying spy aircraft on secret missions. Some even compared this whole operation as eerily similar to the one portrayed in the movie, Clear and Present Danger, starring Harrison Ford (1994).

“North wasn’t alone in this secret structure. Others included Reagan’s closest advisers: U.S. Attorney General Edwin Meese, CIA Director William Casey and National Security Adviser William Clark. Congressional investigators at the time were shocked by how far along this secret structure and planning had progressed. Arthur Liman, who was the chief counsel of the Senate’s Iran-Contra committee stated in a memo that Oliver North was at the center of what he called a **“secret government within a government.”** Prior to those hearings, Liman wrote that a policy decision made at the highest levels during the Iran Contra scandal **“...reveals the whole secret government within a government,** operated from the Executive Office Building by a lieutenant colonel with its own army, air force, diplomatic agents, intelligence operatives and appropriations capacity.”

Over the years many, many individuals have been successfully prosecuted for vote fraud. We know all forms of electronic voting machines and scanners are easily hacked on site and preprogrammed from long distance. I have covered this in minute details in my multitude of columns.

Perception is everything and that’s how ‘they’ get away with selling the American people vote fraud as legitimates totals. Vote fraud is meant to keep constitutionalists like yours truly out of office. In the recent election Dr. Kelli Ward went up against one of the most corrupt political whores in all of Washington, DC – John ‘Juan’ McCain. Despite the manure coming from the MSM, McCain is not so loved in Arizona because of his staunch support of illegal aliens. The alleged vote tally put Juan over the top 51.7% – 39.2%.

If only Dr. Ward had paid for a complete recount by hand and an audit of the vote I absolutely believe the outcome would have been different. I also believe it would show how many illegal aliens in Arizona voted in that primary. While McCain’s final numbers allegedly slipped a bit, the perception is the people of Arizona approve of his voting record on the

issues. Please.

Paul 'Rat' Ryan should not have won his primary last year, either. His challenger, Paul Nehlin, ran tough against Ryan who is much hated by a substantial number of Republican conservatives in his district as well as across this country – with good reason. [Paul Ryan Running Scared in Final Days Ahead of Primary Election](#), August 4, 2016: “House Speaker Paul Ryan’s policy record is **collapsing among voters here** under scrutiny from Republican challenger Paul Nehlen, so badly that Ryan is refusing to appear even on the Fox News Channel.”

Yet, come primary night, miraculously the alleged final vote count was 84-15. I almost choked when I saw that number. The perception is – even though Ryan was peeing his pants a week before the primary – the voters of his district overwhelmingly approve of his anti-American worker, anti-Constitution voting record. Rat Ryan supported the job & sovereignty killer, TPP. Nehlin opposed it.

On primary night in my run for the U.S. House, March 26, 1996, despite being behind only 5-7% points (internal polling) behind Rep. Waffle Wally Herger two weeks before the primary and no scandals, my race was called at 8:01 pm – one minute after the polls closed and no votes counted: **86-14** in favor of Herger. The Secty of state stopped counting at around 6:00 am. The numbers never really changed. Additionally, in the **largest county** in the district I went to vote and **my name wasn't even on the ballot!** We had to write in my name. I was in shock; there was nothing I could do.

Check these winners/losers that night (primary March 26, 1996): **85-15, 81-18, 85-15, 81-18, 85-15, 86-14, 87-13, 81-18 and 81-14** which was my race. Those were the results for a few incumbents vs challengers for the U.S. House throughout the state of California. Every incumbent, including Herger all voted for NAFTA. All challengers including me were opposed to that unconstitutional, destructive 'agreement'. Wonder why we

all allegedly lost?

Those house seats were scattered all over the state of California. Unless you're specifically looking at a particular race, in a state the size of California or Texas, **people don't put together the pattern, but it sure as hell is there.** Herger was a low level flunky buddy of NAFTA cheerleader, Newt Gingrich (NAFTA never would have passed without Gingrich and Rush Limbaugh) the voters wanted gone.

The perception in my run was that the voters in that district overwhelmingly approved of Herger's voting record which they did NOT. My support was firm and widespread. The morning after the primary a woman called my office to tell me she worked a precinct in a smaller county. When she came in primary night she observed ballots spread all over the table instead of in sealed boxes which is the law. She was told to mind her own business and go back to work. While my race was called at 8:01 pm, in the second largest county in the district, the county clerk's office didn't even get the ballots until hours later.

The Republican Secretary of State refused to look at my case after I filed a formal complaint. My name wasn't on the ballot in Butte County, in violation of state law ballots were taken out of the secured boxes and he could care less. I didn't have the money at the time to sue. That's when I left the Republican Party and have remained no party since.

BTW: I ran on abolishing the unconstitutional 'Federal' Reserve, getting us out of the United Nations (UN) to keep us from being sucked into a one world government, no 'free' trade and abolishing unconstitutional cabinets like the Federal Dept of Education. THAT's why I allegedly lost by a landslide. The perception being the voters overwhelmingly rejected my message. That simply was not the case.

The only way we are going to get accurate vote counts is to scrap ALL forms of electronic voting and counting (scanning),

period. NO voting over the Internet, overturn the Motor Voter Law of 1993 and crack down on absentee ballots – **those are ripe for fraud**. Paper ballots hand counted in front of the public. If you watch the video below, I explain this further. It's the only way to clean up our elections.

President Trump is justified in opening an investigation on vote fraud. He should gather individuals who are experts in technology who know how it's being done and individuals who have become **experts on massive fraud perpetrated upon we the people simply because we are either victims or have done years and even decades of research**.

Pence has been tapped to head up a commission on this vital issue but unless President Trump invites non-elected officials, I don't believe (1) he will get to the truth and (2) the steps that need to be taken to clean up our elections – that means purging voter rolls, too, which I have written about too many times to count won't happen. [Nearly 2 million non-citizen Hispanics illegally registered to vote](#). That would be illegal aliens so send ICE to pick them up and get them deported.

I guess we shall see what happens but if the mess called our elections isn't cleaned up by January 2018, we will see the same fraud once again because next year (February) begins primaries for Congress which is when the real election starts. If you don't oust the incumbent in the primary you end up with the same crook going back to DC.

WATCH: [A speech I gave on vote fraud in California](#) before I left the state in 2006. You will be shocked and sickened. The precision with which vote fraud is pulled off is even more advanced now.
