

# I Hope Everyone Had A Happy Thanksgiving

Happy Thanksgiving!

The time has come to take a deep breath, spend time with God, your family and clear your head. Let's say a prayer for ourselves, our families, our troops, America. Then let's make a decision to start now, today, to be Free Americans. Let's stop the great divide and really make the effort to come together.

We know the plan. We have seen it often enough: make the people feel guilty and frightened. The people will give up their freedom and money so the Progressives can live lavish lifestyles.

We know the method the Progressives uses to implement the plan: lie, divide and conquer.

The Progressives lie, call us names, tell us to be politically correct and we put our heads down in shame.

The Progressives thinks we are stupid. They tell us this every chance they get. They tell in the media, at meetings, correspondences and conventions. They have great names for us: sheeple, useful idiots, human capital, worker bees, useless eaters, deplorables..

The Progressives present their factless plan for the global

citizen, Agenda 21/2030, then tell us we will do more for less, they will control everything. We must bend to their wishes, they know best. We should ride bikes and walk while they drive cars and use private jets. We must give up our land so they can live in mansions. They foreclose on our homes so they can get bonuses. We believe what they say and we submit and feel useless.

They tell us that the rocks and trees and animals are our equal. How stupid is that??? Should we teach our dogs to drive and the hamsters to write legislation?

At their behest, pedophilia and immorality has become the norm. Our children have become their manipulated toys, and their slaves incapable of independent thought. Students are only capable of working in the government job selected in advance as their life is now predetermined by technology in the new one size shoe fits all common core indoctrination. And so under their rule just as the populace did in ancient times, we have sacrificed our children. The more things change they more they remain the same.

They tell us the goal is to irradiate hunger and poverty by using propaganda playing on our goodness. We have paid and paid while they get richer and richer. The America people have become the gift that keeps on giving. Think, where is the money for the Ukrainians? The Somalis, Palestinians? Our money went to pay the terrorists who use it to attack Americans. <https://thenationalpulse.com/video/fleccas-talks-podcast-ep-30-8-exposed-somalis-in-mn-are-scanning-your-tax-dollars-to-fund-terrorism/>

We know the goal of sustainability is to destroy rural areas. But did you think of this: Rural areas are Republican. Urban areas are democratic. Yes, Republicans, you are the useful idiots they call you. You are creating your own demise. Sustainability is not about saving the planet, it is about building a bigger democratic base. Just look at a map. What

are you afraid of? WINNING? being called a name. You have a chance to redistrict – Take it.

They tell us there are no facts, there is no truth and the only reality is that which the government tells us to believe. Well, I will not comply with that I know not to be true.

I will not be politically correct. I will talk about politics and religion, I will stop supporting the businesses and industries that are hell bent on destroying America. I will not shop so they can replenish their bank accounts with my money since they donated theirs to buy our legislators.

I will not become a global citizen. I am an American and I am not ashamed.

I will talk to everyone and only speak the truth no matter what name they call me. I will define my words and ask them to define theirs. I will go to meetings and demand facts, costs and ask questions like who pays and who profits (gets the rewards). I will ask for scientific evidence and feasibility studies.

I will refuse to go back to the Roman empire of immorality where the leader fiddled and Senate had orgies. Where sanity was not an option. Where there are no facts, there is no truth and the only reality is provided by the government. I will not join the new world order. I will not comply.

But for now I am thankful and you should be too. I am thankful to be part of a group of Americans who will tell the truth at all costs.

In the last month more attention has been paid to RINOS and the Muslim take over of America. I am Thankful. We can not be fooled into allowing America to be taken over by a cult disguised as a religion.

In segment 1 of this weeks show, Cathie Chamberlain will give

you a clear picture of the evil in the RP0F (Republican Party of Florida). In the somewhat free state of Florida citizens are losing their rights. Recent bills passed eliminate the authority of local governments. Who will control? a group of power hungry , money hungry group of individuals masquerading as statesman.

In Segment 2 Clare Lopez and I will discuss the clear and present danger to America called the Muslim Brotherhood and CAIR (Council on American Islamic Relations). CAIR is working hard in every state while bragging on line how easy it is to conquer America with the stupid Americans inviting them in and giving them money. RINOs want you to believe the enemy is other Americans. Of course since that is what these sheeple are taught in school using our tax dollars.

Believe it or not, everything you just read with very few edits was written Nov 22, 2012. Sadly nothing has changed until now. But there is HOPE I see signs of people waking up. Are you one of them? The only ones who can save America is "We The People".

- ◆ I will not be politically correct. Will you?
- ◆ I will get educated, tell the truth, have conversations and ACT. Will you?
- ◆ I will not buy the lies, I will not comply. Will you?
- ◆ I will unite, will you?

We have a lot to be thankful for. Enjoy your holiday. Rest. Our work has just begun. Remember:

VICTORY is our only option.

God Bless you and God Bless America.
