

If Fox News Disappoints, Try One America News Network

The further a society drifts from truth, the more it will hate those who speak it. –George Orwell

In most news, if you hear a conservative point of view, that's called bias. We believe if you eliminate such a viewpoint, that's bias. –Roger Ailes

Media bias in editorials and columns is one thing. Media fraud in reporting 'facts' in news stories is something else. ...The issue is not what various journalists or news organizations' editorial views are. The issue is the transformation of news reporting into ideological spin, along with self-serving taboos and outright fraud. –Thomas Sowell

It wasn't long ago that friends were talking about how Fox News had drifted more to the left. Most of us agreed it was because Rupert Murdoch's son Lachlan Murdoch is now the executive chairman and CEO of Fox Corporation. Guests have to be careful of what they say on Fox News...a prime example is Judicial Watch Chris Farrell who was disallowed after he said George Soros was funding the illegal alien caravans. They accused him of being anti-Jewish, anti-Israel because Soros is Jewish!

Fox News isn't the only duck in the conservative news pond. We now have One American News

Network (OAN). It is carried on Direct TV, CH. 347, but unfortunately not on Dish Network. The latter is being

flooded with requests to carry OAN. NewsWithViews' own CEO called Dish Network and asked them when they would carry OAN. He didn't receive a satisfactory answer and so he switched to Dish Network. Yes, there is another choice available.

In our house, we have Dish Network, and I too wanted OAN, so instead of going through the hassle of changing, we bought ROKU and for five extra dollars a month, we are able to tune into OAN and a number of other stations not available on Dish Network.

On May 22, 2019, OAN sent out a press release announcing continued strong ratings as the 2020 Presidential season began to reach top-of-mind awareness with television viewers. In a relatively short period, OAN, which launched its 24/7 cable news network on July 4, 2013, has established itself as a reliable honest source of national and international news with viewers across our nation. Network founder and CEO, Robert Herring, Sr. released the following statement:

Herring Networks, Inc. relies on a custom ComScore measurement solution powered by TV viewing from one Multi-channel Video Programming Distributor (MVPD) partner across 70 U.S. markets. We have been working with ComScore since 2009 and believe its data is the most accurate in our industry, as it uses set-top box data, not sampling. In March 2019, ComScore data shows that of the networks categorized exclusively as Cable, News/ Business/ Info networks, OAN ranked as the fourth-highest service in that genre, behind Fox News Channel, MSNBC, and CNN. OAN outperformed CNN Headline News, Fox Business Channel, CNBC, BBC World News, Fusion, Bloomberg and others, per the same March 2019 data. Also, for the March 2019 period, OAN outranked SyFy, Animal Planet, Nat Geo, Travel, and other well-established channels. Excluding all Broadcast channels, OAN ranked as the 40th national cable channel in March 2019 for the one MVPD included in the custom measurement. These custom rankings will vary from

ComScore's syndicated TV Essentials rankings, which cover ComScore's full set-top box measurement in over 30MM households and 210 local markets.

Early this month, OAN also premiered a late-night comedy program called "**Headlines Tonight with Drew Berquist**," which debuted on May 4th. The new comedy series has earned a regular Saturday night time slot at 10 pm ET with encore presentations at midnight ET.

"Sometimes even the hardest core news viewer needs a break and a laugh. **Headlines Tonight with Drew Berquist** delivers exactly that," stated Robert Herring, Sr., CEO of One America News Network. "Its smart comedy done right. We're thrilled to bring this news-centric comedy program to OAN viewers."

The debut episode can be watched in its entirety [here](#).
