

If No Longer 'One Nation Under God'; We Will Become a Nation Gone Under

By Frosty Wooldridge

May 15, 2025

The incredible corruption in the Biden regime continues to pile higher and deeper. Whether it was the Green New Deal, or U.S. AID slush fund, or the 15 million illegal aliens he invited into America and/or flew into America in the dark of night, or his son Hunter's bringing cocaine into the White House, or his Alzheimer's Disease that was covered up for four years, or choosing Kamala Harris not for her competency but for her D.E.I. designation--historians will scratch their heads as to how he maintained his fraudulent activities over his life time.

He screwed, cheated and filched billions of dollars out of hardworking taxpayers with his continued U.S. AID, billions in costs for ingesting 15 million illegal aliens with taxpayers paying for food, housing, medical, education, and cell phones; and now, the cost of deporting them, which will take years and years. If we don't deport them, they are changing the "Personality of America" into an international farce. Same thing going on in Canada and Europe. We're simply "Self-Terminating" ourselves by displacing ourselves with the human immigration mob demanding to get into America.

Fellow writer Pamela Keller said, "As soon as Kamala Harris

lost the election, Biden began sending Democrat-aligned NGOs and companies \$1.3 billion per day, almost \$100 billion before Trump took office. In the prior 15 years the same loan office gave out just \$40 billion, just \$8 million a day. This was theft on a scale the world has never seen before. Trump needs to claw this money back.

“The Biden Administration pushed out \$93 BILLION in green energy loans in the three months before President Trump took office.”

Joe Biden deliberately sabotaged Americans, all of us.

DOGE reported: The Biden admin’s last-minute \$93B green loan spree epitomizes everything wrong with DC’s spending addiction. While the previous administration rushed to lock in pet projects, the Department of Government Efficiency has already clawed back \$165 billion in waste through canceled contracts and fraud elimination.

Real energy leadership isn’t shoveling cash out the door – it’s strategic investments like the UAE’s \$1.4 trillion commitment to American AI/energy sectors through stable, growth-focused partnerships. The days of midnight regulatory vandalism are over.

One of the promises on our money system states: In God We Trust.

As a country, as a culture, as a government, and as a civilization, we need to get back to the ethics, responsibilities and common sense of a citizenry that honors, teaches and mandates law and order. Without that, we will become a nation “gone under.”

What can we do? Answer: we need to stand up, speak out, write out, and call out corrupt politicians that “play” the system.

We must demand and mandate “Term Limits.” Whether it’s a

maximum of serving four years or six—that's it! As the British philosopher said, "Power corrupts and absolute power corrupts absolutely." That's how former Speaker Nancy Pelosi became a multi-millionaire--sheer, pure corruption. She knows it, her husband knows it, her family knows it, and fellow corrupt politicians know it. The only way to stop that "corrupts absolutely" is to vote for "Term Limits."

Another thing that's beyond stupid and beyond corrupt: the "Asylum Laws" voted into place a long time ago--that can no longer remain applicable. We simply cannot save the rest of the world's masses. Again, the third world adds 83,000,000 new babies annually, net gain, to the world. They are starving, dying, miserable, uneducated and their line only grows. It is WAY past time to terminate the "Asylum Law" that allows millions to walk into our civilization with no end in sight. Additionally, we cannot continue to import 1,000,000 third world immigrants annually. We're full, bursting, bloated and overwhelmed with their numbers. We need to mandate "Zero" immigration from here on out. How much more crowded do we want to pack ourselves like sardines in a tin?

What else needs to change? How about we have half of the country that wants to degrade the other half of the country to actually speak about "solutions" instead of castigating the current president of the United States. Run on solutions, not on complaints. Start with those two mental midgets AOC and Jasmine Crockett. Good grief...are they intellectually challenged!

The same thing as to our educational systems: we need schools that mandate honoring our society, our governance, our history, our extraordinary U.S. Constitution and our culture. It's not that hard to be proud of America when every single person of every race, color and creed enjoys INCREDIBLE latitude as to personal growth, personal wealth, personal effort and extraordinary enjoyment of "Life, Liberty and the Pursuit of Happiness." You just don't find all of that in SO

MUCH of the world.

We really NEED to come to terms with "Common Sense" when it comes to allowing .0000000001 percent of our citizens who are biological males competing and beating biological females...it's nuts, unfair and dangerous for women. There's a whole bunch of politicians and organizations with their heads screwed on backwards, illogically, irrationally and completely in LaLa Land. It's up to us, the moral, ethical and rational portion of this society to STOP degrading the females of America. Again, as I've said in the past--if transgenders want to compete among themselves, and form their own competitions, they can compete against each other--fairly, squarely and reasonably. Their supporters can cheer them onward. So, create the National Collegiate Transgender Athletic Association. That's the only reasonable and common sense solution. Anything else is pure balderdash.

How about "Fair Trade" instead of "Free Trade"? You buy \$100 billion in goods from us, and we buy \$100 billion in goods from you. Keep it even and fair. Everyone wins!

How about the fact that millions our kids can't read, write, spell or perform simple math? Let's change the educational system to be based on merit, performance and parental responsibility. Let's pay teachers the highest and best salaries because teaching is THE MOST IMPORTANT job in America. We can't keep turning out the more than 800,000 illiterate, homeless Americans that drag this society into the gutter...along with themselves.

It's either we return to "Common Sense" and resulting solutions in America, or we all lose.

It wasn't so many years ago that the Kenyan by birth, Barack Obama, a.k.a., Barry Soeterro, rose illegally into the White House on his silver, duplicitous tongue, and that he said, "America is no longer a Christian nation." Being a Muslim, and

he lied like a snake pretending to be a Christian, he also pledged himself to Islam over America. We need to stand up to anyone who would undermine America. It's our country for heaven sakes.

The one thing that matters: stand up for America in your home, with your kids, with your school, with your college, with your school board, with your city, with your state and with America. Uncle Sam and Aunt Samantha deserve your best; because when you do your best, America will remain in good hands down through time. God bless America.
