

# Illegal Aliens Invasion Far Exceeding U.S. Birthrates

By Frosty Wooldridge

December 4, 2023

At this juncture in December 2023, the U.S. State Department reports that 50,000,000 (million) foreign born immigrants now inhabit America. That number constitutes the largest percentage of legal immigrants to the general population of citizens in the history of our country.

Not mentioned in the report: none of the 20 to as high as 30 million illegal immigrants and their children were counted.

The [report](#), issued by Chairman Mark Greene (R-TN), shows the number of illegal alien encounters at the southern border under Biden outpace annual U.S births, where close to four million are born every year.

John Binder, reporter for Breitbart News said, “Since President Joe Biden took office in January 2021, there have been about 6.5 million illegal aliens encountered at the United States-Mexico border, according to a report from Republicans on the House Homeland Security Committee.”

“It may be a new fiscal year, but we’re still stuck in the same historic border crisis,” Green said.

Binder continued, “Under Biden and Department of Homeland Security (DHS) Secretary Alejandro Mayorkas, 6.5 million illegal aliens have been encountered at the southern border, while nearly two million are considered “known got-aways,”

those illegal aliens who are known to have successfully crossed the border undeterred by Border Patrol agents. Several more millions, reported as unknown got-aways, have breached America's borders."

What should be frightening to all American citizens stems from the fact that not only are we being invaded by the hands of our own Joe Biden, DHS Chief Mayorkas and the entire U.S. Congress—but they are doing it on purpose to change the entire demographic of America.

Altogether, about 7.8 million illegal aliens have been encountered at U.S. borders since Biden took office. Millions of those encountered at the nation's borders have been directly released into American communities by the DHS thanks to the administration's expansive [catch and release](#) network. In other words, a total negation of our laws on the books: Article IV, Section 4 of the U.S. Constitution. Also, U.S. Code 8, Section 1324. What's even more disgusting stems from the fact that U.S. corporations hire those illegals to create even more incentive to break our laws. It's like those corporations want to destroy America's foundation of laws. One look at the nightly news of \$100 billion in annual shoplifting from our mercantile stores shows that the criminal world succeeds far beyond what the mainstream media reports.

Binder said, "Estimates from June suggest that nearly 17 million illegal aliens now reside across the U.S., costing American taxpayers \$163 billion annually. This amount, though, does not factor in the higher cost of housing, unpaid hospital bills, lower wages, and lost jobs that Americans are on the hook for as a result of illegal immigration."

Nor does the fact that all legal and illegal immigrants give cash transfers of over \$100,000,000,000.00 (billion) to their home countries, annually. In other words, they are not here to be loyal, patriotic American citizens. They are thieves, liars, cheats and criminals.

And you can bet that among those millions of illegals, we are facing thousands of terrorists that will ultimately destroy our water systems, our electrical systems, our transportation systems and, ultimately, destroy the "rule of law" that has held this country together for 240 plus years.

What happens when foreign birthrates exceed 100,000,000 people not from our country? What happens when all those cultures, languages and world views clash with our standards, our ethics, our world view?

Do you understand right now that American universities are teaching our kids to hate America, to counter the Capitalistic system, to promote Critical Race Theory, to confront and disobey law enforcement? Do you understand that critical educational programs promote racial conflict?

For instance, do you see on TV ads where we should stop Asian-hate, Black-hate, Islamic-hate, Jewish-hate, LGBTQ-hate, and Transgender-hate? Who do you think they are targeting in their ads? Answer: the majority demographic of America, which is Caucasian people. In other words, white people are blamed for all the hate in America. How do you combat such organized racism against the majority of Americans?

How did all those pro-Hamas demonstrators marching all over our country get to dismiss that those Hamas Muslims' prime directive was/is to exterminate every last Jew on this planet? Those Hamas terrorists just killed 1,400 Jews in a barbarian slaughter of innocent Jews on October 7, 2023. And, yet with their Islamic world view driven by the Qur'an, it was justified. Now, they are pissed because Israel is taking the fight back to Gaza's front door. How stupid or evil is Hamas? Answer: pretty damned evil and really stupid.

What does all this international and national violent event show us? Answer: different incompatible racial, religious, ethnic, linguistic tribes should not intermix.

What are the majority of American citizens facing? Answer: we're headed into the same violent quagmire as Israel, UK, Germany, France, Spain, Sweden, Norway, Finland, Denmark, Canada, New Zealand and Australia. Read: **War on the West** by Douglas Murray. When we allow barbaric/uneducated people from barbaric cultures infiltrate our country, we will see our country torn apart at the seams. You can see it coming as surely as the dawn.
