

Immigration: Americans Are Losing This War At Our Borders

Frosty Wooldridge

“Immigration is a form of war in which the violence is delayed.” –Martin Van Creveld

This week, movie theaters opened with one of the most epic sea battles of World War II: **Midway**. It’s a heart wrenching movie depicting the lives of men fighting off a carrier and flying into Japanese anti-aircraft guns. It’s about the brutality of war. It’s about them killing us and us killing them. We turned the tide against Japan at Midway.

As a service brat of a United States Marine who served in the Marshall Islands during WWII, I walked into the movie with dread. I lived on Navy bases; I lived on Marine bases and I lived the military life my first 18 years. It gets into your gut as the son of a U.S. Marine. You feel pride and patriotism like few others.

You stop and stand for the flag being lowered at dusk. You place your hand over your heart. You stand at ball games while singing the National Anthem. When I entered Boot Camp at Fort Benning, Georgia in 1968, I crawled through the mud, muck, chiggers, gnats and ticks. I learned what every combat soldier faced from the Revolutionary War all the way to

Vietnam. War proves itself a dirty, nasty, God-forsaken, and a violent expression of animal nature. And yet, humans war against each other every day on this planet.

We won WWII. We pulled out of Vietnam after losing 58,220 men and 150,000 wounded. That war started the drug invasion of America that has caused thousands of deaths and ruined families. For the past 18 years, we've lost Afghanistan and Iraq—but our Congress keeps funding those ridiculous wars. Even if we won, we lost. We lost young kids and \$6 trillion. If you count the 6,500-war dead, it's painful. If you count the 70,000 suicides from active duty and veterans—it's totally insane why Congress funds those wars that accomplish nothing.

What makes this column so poignant? I'm writing it on Veteran's Day 2019. This day commemorates the incredible sacrifices of our men and women from Valley Forge to Afghanistan-Iraq. Yet, we're being betrayed by our own congressional leaders and presidents as to securing our borders as a sovereign nation, culture, language and ethos.

The Single Most Important War We Are Losing: Our Borders

Sobering fact: the one greatest war in our nation's history—we're losing—the legal and illegal immigrant invasion of our country. That's the one war that eventually will kill, and in fact, is killing our country at this moment in history.

This ongoing, insidious and complete disregard for our borders undermines our way of life, our culture, our language, our heritage and our future.

Our own leaders facilitate it from House Speaker Nancy Pelosi (D-CA) to Senate Majority leader Mitch McConnell (R-KY) to all the senators and House members who sit by watching the invasion with passive denial.

Our own major corporations like Marriott Hotels, McDonalds, Hormel Foods, Tyson Chicken, Monfort, Holiday Inn, Chipotle's

and dozens of others employ illegal migrants by the millions. And they grease the hands of Congress to make sure our laws never see enforcement. Talking about our own citizen cutting our own citizens' throats!

The leaders of Congress encourage open borders that allowed into our country over 1.1 million illegal immigrants in 2019. (Source: US Border Patrol, "Illegal Entries") Over 25 million illegals according to the Yale Report of 2018. They allowed over \$150 billion in drugs to cross our borders by not doing anything to stop it. (Source: www.Rand.org) They twiddle their thumbs as 300,000 pregnant women violate our borders annually to birth their baby on American soil—to gain a free ride paid for by you. (Source: US Border Patrol) Entire "birth tourism" websites facilitate pregnant women from India, China, Mexico, Brazil, and dozens of other countries to cheat the American people as to citizenship. Congress gives a free ride to 50,000 'Diversity Visa' recipients unqualified for anything, annually who enjoy a free ride once onto our shores. Oh, it's not free! You pay for them.

Both legal and illegal immigrants send \$150 billion back to their home countries annually. (Source: www.FAIRUS.org) You, the American taxpayer shell out \$113 billion annually across 15 federal agencies to educate illegals' kids, medical care, and feed them in school K-12. (Source: www.FAIRUS.org)

In 2019, our 125,000 Somalian refugees in Minneapolis, MN, discovered how to defraud EBT cards and Cash Welfare handouts to swindle the American taxpayers out of \$100 million. They flew it back to Africa in suitcases while you paid their airline tickets. Millions of refugees, now at 93 percent, remain on welfare as a lifestyle. You pay for it. Congress facilitates it.

MS-13 gangs thrive with their drug distribution networks because your Senators and House member fail to do anything to secure the borders. Result: drug addiction deaths accelerate

dramatically annually.

Along this treacherous path, Congress saturates America with millions of incompatible refugees, legal immigrants and jihadists that proclaim their intentions NOT to subscribe to our culture, language and national ethos.

“Most non-terrorist Muslims cringe when Muslim leaders speak, but the non-terrorists keep quiet lest they get their throats cut by “peaceful Muslims.” Such professing Muslims are not committed Muslims. Not only do true Muslims advocate terror, they clearly have plans to make America a Muslim nation and will use terror if necessary! They plan to conquer America by sperm, speech, and sword. They will use one or all to accomplish their goal—world caliphate!” Boyd

What exactly will happen to us if we allow Congress to force us into accepting another 110 million legal immigrants and upwards of another 30 to 50 million illegal migrants?

This will happen to us for starters: “Diversity within a nation destroys unity and leads to civil wars,” said social scientist Garret Hardin. “Immigration, a benefit during the youth of a nation, can act as a disease in its mature state. Too much internal diversity in large nations has led to violence and disintegration. We are now in the process of destabilizing our own country. The magic words of destabilizers are ‘diversity’ and ‘multiculturalism’.”

Finally, what about our environment and quality of life? Can you imagine what another 110 million foreigners means to our national character? Our English language? Our Constitution? Our ability to water, feed ourselves and maintain energy to live?

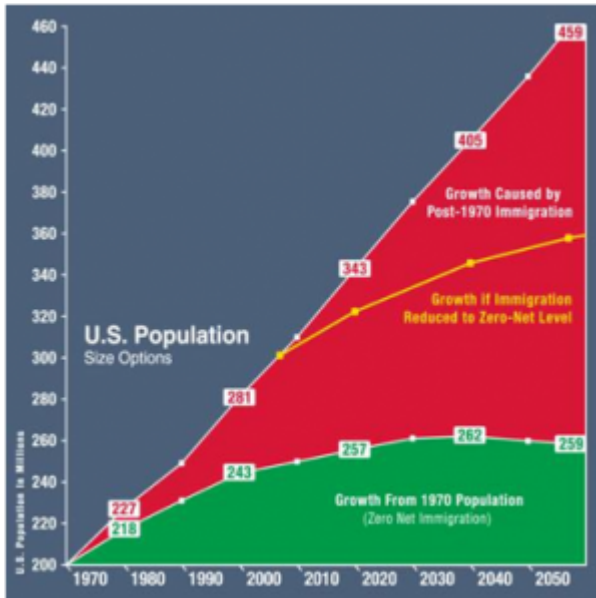

One writer on FB said, "If you want to experience a front row seat on the loss of the core American identity, I recommend taking a ride on public transportation in any major metropolitan area, especially New York City, Detroit, Miami, Chicago, Los Angeles, San Francisco, etc. The lack of intelligible English spoken in public spaces will truly astound you.

Former MLB pitcher John Rocker knew something was up when commenting about riding on the 7 Train to Shea Stadium in Queens, NYC twenty years ago."

Once you lose the cohesive glue of a common language and culture, you lose your country. That's what's coming and that's the final war we must win, or we will simply lose our country. No if's, and's or but's.

Call your senators and House rep: 1 202 224 3121 or 1 888 995 2086. Demand a stop to all immigration.

- We need to rescind the 1965 Immigration Reform Act. Simply stop all immigration.
- If that sounds too harsh, how about "Egress Equals Ingress"? If 50,000 people leave the USA in a year, we import 50,000 with skills and viable abilities to remain off welfare, and WANT to become Americans.
- Stop all 300,000 anchor babies annually by amending the 14th Amendment to NOT give instant birthright citizenship to pregnant illegal alien mothers. It's costing us trillions of dollars.
- Stop 50,000 Diversity Visas given out each year. We cannot save the world, but we can destroy our country.
- Stop all visas overstays with biometric tracking technology.
- Stop all employers of illegal aliens by enforcing our laws on the books.
- Mandate E-Verify for all new employees with prohibitive fines and jail time for employers who cheat.
