

Import Millions of Third World Refugees: You Become a Third World Country

Nursing student, at the University of Georgia, Laken Riley would be alive and contributing to America today if not for Joe Biden's inviting over 12,000,000 illegal aliens into America. Illegal Venezuelan Jose Ibarra bludgeoned Riley to death while she was out for a run on campus. This is a cautionary tale for the United States of America.

If Biden's handlers continue this invasion for another four years, we could see 24,000,000 illegal third world aliens within our borders. What borders you might ask? In reality, we no longer have borders. It's been said by top historians: no borders, no country.

Biden, who won't be alive to see his legacy of how he destroyed America, continues on this treacherous path with no idea of the consequences. Without a doubt, he is the "Father of the Destruction of America." They might place a statue of Biden next to George Washington, the "Father of our country" at George Washington University. They might drape Palestinian flags and Hamas headscarves around Biden's head. All the Hamas Muslims and Jew haters will praise Biden for aiding and abetting them. Maybe they can sing praises to him like, "Death to America."

As you've seen on the evening news reports, we've got American Antifa Terrorists now joining the Muslim terrorists. We've 10 to 15 police cruisers going up in flames in one city. We've got student terrorists destroying graduation ceremonies. At the University of Michigan stadium, those terrorists stopped the graduation ceremonies with proud parents packing the stadium. Just sickening!

What is the cautionary tale? Every immigration book published shows America has allowed somewhere in the vicinity of 40,000,000 illegal aliens into our country. In her book, *Adios America*, Ann Coulter estimated 30,000,000. Other books show more and some books show a little less. But you can't get around the fact that Joe Biden imported 12,000,000 thus far, so the numbers are beyond comprehension.

And, those numbers, and those terrorists, and those third world intellectual gnats wearing tattoos for full body armor, are beginning to destroy the foundation of our Republic. Come on! We suffer 100,000 fentanyl deaths annually! We see our schools turned into linguistic chaos factories where no one understands anyone. We've got Somalians in Minnesota who cannot spell or write their own name by grade 10! They drop out as soon as age 16. We've got schools in Chicago where kids cannot and do not understand simple math problems. Most of the schools in southern California teach in Spanish.

Without an educated citizenry, and a single language, America faces extinction at the hands of "Diversity, Inclusion and Equity." You can bet we are becoming insanely diverse with ignorance, stupidity, criminals, drug addicts, dropouts, flunkouts, and anti-American morons. We're including refugees from 190 different countries who arrived illegally and are included in welfare rolls that are sucking us into the Black Hole of \$35 trillion in national debt. We're becoming the "equity" country of affirmative action, total loss of standards, total loss of meritocracy for jobs, total loss of standards, and total loss of excellence. They should change it

from D.E.I. in America to America D.I.E.'d

I wrote this book 20 years ago. Ironically, Immigration's Unarmed Invasion: Deadly Consequences by Frosty Wooldridge published in 2004. It showed the eight ways on how to destroy America. Colorado Governor Dick Lamm, my friend, and I never dreamed the destruction of America could or would happen with such blazing speed in only 20 years.

We don't have any U.S. Senators or House Members stopping it. They let DHS terrorist Alejandro Mayorkas skip out of impeachment. They've let Joe Biden continue the invasion at his request. They let "sanctuary cities" continue to pay illegals and house them. They let all those criminals back onto the streets like D.A. Alvin Bragg in New York City. While he created a legal "sh*tshow" against President Trump, he's let real criminals rule the streets.

This is an interesting letter that arrived yesterday. I think it shows how naïve and apathetic our American public:

Mr. Frosty Wooldridge,

I have followed your writings for many years and have enjoyed them very well. My husband and I became more aware of political problems in about the beginning to mid 1980's, and are now in our early 80's. Slow learners you may say and you would be correct. We began by listening to Chuck Harder from White Springs, Florida and supporting Bo Grites for President. We took the message of coming events to every person we were able to cover. Passed out literature, went to people's homes, Malls and stuffed information into car windows. We were "asked" to leave the local collage holding a political hearing. We were called Crazy and Conspiracy theorists. Nothing like that could even happen, but it has and far uglier than I even imagined.

Today we see the same thing only far worse, and still many ears and minds are closed. Our grandchildren have grown well

into adulthood and are raising their own children. I fear for the lives they will have. ..if they even have the time to become adults.

If you choose not to respond with your thoughts of it, that is fine... We all have our private thoughts. I will still read your articles. Thank you, S & B

At this point, the very fact that half the country will vote for Joe Biden shows you the level of stupidity, ignorance, willful liberal partisanship, and a total inability to understand they are voting for the destruction of America. Looks like we'll devolve into a third world country without a whimper. Damn*dest thing I've ever seen in my life. America became a third world country by its own hand.
