

# In America: Distinctly Different Parallel Societies Being Imported

“Islam isn’t in America to be equal to any faith, but to become dominant. The Qur’an should be the highest authority in America, and Islam the only accepted religion on Earth.” Omar Ahmed, director of Council on American Islamic Relations.

In recent weeks, Ann Corcoran, director of [www.RefugeeResettlementWatch.wordpress.com](http://www.RefugeeResettlementWatch.wordpress.com), shared an interview with a Somali immigrant in Minneapolis, Minnesota. The Somali made some sobering, if not dangerous and disturbing predictions as to the future of America.

Ironically, you and I pay for Somali existence here in America with lifetime welfare. Why? They lack educational skills because they drop out of school and lack the intellectual horsepower to learn trades, skills and any abilities to function in a first world nation. The average IQ of an American stands at 100. The average IQ of a Somali stands at 68 or, barely able to function above basic third world levels. ([Source](#)) They lack any interest in becoming Americans, but they don’t mind brutally exploiting our welfare systems.

In Minneapolis, Somalians, at 120,000 of them, created what Americans in the area call, "Somaliland." It's totally distinct and antagonistic to American society.

"Get with the program, miss," he said harshly. "We are here to stay. We never left our Somali heritage or culture. That's what America is missing. Please stop forcing us to your ways. You're old and have very old ideas. Get with the program. I'm trying to have my son to be the first Muslim black governor of the state of Minnesota in next 20 years. He's gonna run as a Democrat. Oh, and on those upgrades at Cedar Riverside.

Dr. Don Boys said, "Practically every media outlet and almost all political leaders declare that "radical" Islam is the enemy; however, that is incorrect. To be sure, radical Islamists are the enemy to all free people but it is disingenuous, duplicitous, and deadly to make the simplistic statement above. The enemy is Islam, period. Terror is only one of the arrows in their quiver to be used when appropriate. When Islam is a small minority, they will condemn terror but will use it when they are strong enough to strike. This principle is revealed in the Arab homily, "Kiss the hand of your enemy until you can cut it off."

The Somalian continued, "They better give us those upgrades and changes if the mayor wants to earn our votes. Or else we can always get another Mayor next time around. You see how being an American works? I told you lady please get with the

program because Somalis are the latest addition to black folks.

“Why should we assimilate? Do you know how stupid you sound? Guess what? We’re here to stay and will transform America for the better. Get that through your thick, ignorant skull. You need to see a doctor. It’s inevitable that Somalis will be taking over and there isn’t anything you can do about it. Again, what’s wrong with Somalis taking over? It is inevitable! This land doesn’t belong to either of us. It is our time to populate it and rule it. Go back to Europe or wherever you’re from if you don’t like it.”

When populations rise, they get cocky. The Quran guides them as they build their Hyjhra or “seeding” of themselves into any host country with one goal on their minds: conquest.

Imam Siraj Wahha, who grew up in a Baptist Church, and is director of the Muslim Alliance in North America declared, “In time, this so-called democracy will crumble, and there will be nothing. And the only thing that will remain will be Islam.” Got that? According to Siraj, “if only Muslims were clever politically, they could take over the United States and replace its constitutional government with a caliphate. If we were united and strong we would elect our own emir and give allegiance to him. Take my word if 8 million Muslims unite in America, the country will come to us.” (Their numbers run from 3.3 million to estimates of 8 million.)

The Somalian arrogantly showed confidence even in light of the fact that Somalia remains a horrible, violent and failed state because they couldn’t manage to govern it without creating a hellhole. They lack the intellectual ability to create a vibrant society, but they can create accelerating damage to American society.

We face this kind of onslaught. Muzammil Siddiqi, chairman of both the Fiqh Council of North America which dispenses Islamic

rulings, and the North American Islamic Trust which owns most of the mosques in the U.S., declared, "As Muslims, we should participate in the system to safeguard our interests and try to bring gradual change, (but) we must not forget that Allah's rules have to be established in **all lands**, and all our efforts should lead to that direction."

Population projects show Moslems growing to over 10,000,000 (million) within the next several decades. It's not going to be pretty for our Constitution and way of life. They will change entire cities into Islamic caliphates.

"Immigrants devoted to their own cultures and religions are not influenced by the secular politically correct façade that dominates academia, news-media, entertainment, education, religious and political thinking today," said James Walsh, former Associate General Counsel of the United States Immigration and Naturalization Service. "They claim the right not to assimilate, and the day is coming when the question will be how can the United States regulate the defiantly unassimilated cultures, religions and mores of foreign lands? Such immigrants say their traditions trump the U.S. legal system. Balkanization of the United States has begun."

Islam's philosophy remains: conquest. Islam's economic-political-religious system means the conquerors live off the bounty of the conquered and look for new people to loot. You see it in Europe today, but Canada, America and Australia grow large in their cross-hairs. You may forget that the Middle East remains a desert, however oil makes its leaders rich, but it's people remain illiterate and poverty stricken. Their oil gives the illusion of functioning economies, but foreign interests run their management of the oil fields. Importing millions of Muslims creates welfare and conflict within a host nation.

America remains on target for Islamic conquest, and by importing millions more of them, we face extinction as a free,

independent and democratic society. Or, if we survive,  
America will become a highly fractured and fragmented America.
