

Islam: America's Trojan Horse

Allegorically, a "Trojan Horse" has come to mean any trick or plot that causes a target to summon an enemy into a firmly enduring fortress or place. The Greeks tricked the people of Troy by pretending that they had abandoned the war. Meanwhile, the Greek army rolled a giant wooden horse outside the gates of Troy, and then sailed off to the island of Tenedos nearby. One unarmed Greek stayed behind to convince the Trojans that the horse was indeed a present. Exulted by the gift, Trojans hauled the wooden horse inside the city walls and locked the gates.

Using it as a mental model, we can apply the Trojan Horse story to a range of restraints and situations. As a theory, it can be used for both good and evil.

The Islamic doctrine of *Hijrah* or conquest via immigration is still alive, active and well. The recent arrival of Muslim migrants in Western countries, who don't migrant here to embrace our Western civilization, but to enforce their own barbaric dogma on the host country has been compared to a Trojan Horse.

The Islamic hydra, with Saudi Arabia and the oil-money bloated Emirs and Sheiks of the Persian Gulf lead the Sunni charge from one side and the end-of-the-world bomb-seeking Shiites of the Islamic Republic of Iran along with its proxies of Hamas, Lebanese Hezbollah, Houthis of Yemen and the Sadrists in Iraq

closing from the other side, have the intention of devouring the free world.

Meanwhile, America is under the effect of Islamic subversion, Muslim escapees of the misery of Islamic countries, exhibit such incredible gall and audacity as to shamelessly demand that their benevolent hosts surrender their liberty and legalize and adopt *Sharia* in our society.

The Muslims' presence in countries such as Canada, Great Britain, the Netherlands, Sweden, Norway and Belgium, represent the tip of the sword of the Islamists protruding from the Trojan horse. Once *Sharia* is recognized to any extent, it will reach out to rule, not only on matters that concern Muslims, but also those that may involve a Muslim and non-Muslim. Presently, America is faced with a formidable enemy in a Trojan Horse: Islam.

Islam was birthed by primitives some 1400 years ago and over time invaded much of the world at the point of the sword. Presently, Islamists, with their treasuries flushed with petrodollars, are in a great position to realize their ongoing dream of bringing the world under the rule of Muhammad's *Ummah*. On the one hand, Pakistan is already a nuclear power and the Islamic Republic of Iran aims to be one before too long. On the other hand, Muslim governments and wealthy Sheikhs are funding Islamic schools, centers and front organizations in the West to work from within at the unraveling of non-Islamic democratic systems.

This danger makes it imperative to revisit the First Amendment of the U.S. Constitution and make the necessary adjustments to legally defeat Islam's subversion of our democratic system.

Some people may ask, why others on our planet are not subjected to severe restriction? Because Muslims have been taught to ignore the laws of the host country and never assimilate. To a Muslim there is only one law and that is

Sharia law. Muslims, like other nationalities, do not migrate in order to live in peace and achieve the Western dream. They migrate in order to change the host country in a manner they have been indoctrinated from their childhood. They can't help it. It is part of their identity. Wherever Muslims go, so goes their ethos. This has become a huge problem for the 21st century civilized world.

As more and more Muslims arrive in non-Islamic lands, as they reproduce with great fertility, as they convert the disenchanted and minorities, (Muslims in non-Muslim lands proselytize relentlessly and convert others while any Muslim who leaves Islam is judged as an apostate and automatically condemned to death) and as petrodollar-flush Muslims and Muslim treasuries supply generous funds, Muslims gather more power to undermine the democratic rule of a host country.

The hydra of Islam reveals itself when Muslim jihadist lash out with sophisticated and well-funded lawyers, terrorist groups, and terror-sponsoring governments who have the bomb and those who race non-stop to acquire the ultimate weapon. There is no time to waste. We must steadfastly confront Islam since it is the only way to defeat a fanatical enemy who does not believe in negotiation or compromise. For Islam, it is winner take all. And the way that permissive, oblivious, and well-meaning free societies are reacting does not bode well for liberty.

Islam must be recognized for what it is: a Trojan Horse carrying in its belly what will assuredly slaughter any and all who stand in its way without compunction.
