Islam In America

While the Islamic fire appears contained, Muslim organizations across the United States are busy and work "stealthily" to change and alter America from within in what is called "Soft Jihad," or "Cultural Jihad.' Soft Jihad is in place where the sword of jihad is not advisable, where Muslims are not powerful enough to unsheathe their sword.

An important tool of soft jihad involves penetration of the US educational system by use and means such as Da'wa-a (a religious duty of each Muslim to convert non-Muslims to strengthen the Islamic Ummah).

Devout Muslim believers are the enforcers, hit men and mercenaries for their god, in order to establish a global Caliphate for their parasitic clergy. Their targets are artificially constructed adversaries. Believers are instructed to fear the "great Satan." and are told that if they do not live up to Allah's calls to Jihad, they themselves are offensive to Allah and to their families. It's a "you're either for me or against me" strategy.

Islam seeks to instill a political regime in all non-Muslim countries and to enforce its provisions. When such a political doctrine declares that "resistance is futile," it is referring to corporeal enforcement by people. Islam believes in the rule of Islam, Caliphate to the Sunnis and Imamate to

the Shi'as. Hence, to Muslims all other forms of government represent the handiwork of Satan and infidels. Therefore, one and all non-Islamic systems of government must be purified by Islamic fire.

In Islamic theocracy, governments are accountable only to Allah and the people must serve at the pleasure of the government. And one can see the result of Islamic total or partial rule in fifty-seven or so countries which rank among the highest nations of the world on every index of misery. However, the road to freedom is perilous. Nothing as worthwhile as freedom can be purchased easily. But the cause is worth it.

We live in a society which worships "experts" and specialists. However, our distorted society of "experts" have continually failed us. Almost nothing they have told us has turned out to be true. Thus, I believe much of what we believe is true is utterly false. Islam is theocracy, the rule of the clerics. It runs from the top to the bottom in a strict hierarchy with Allah at the top, to his Prophet, to the Caliphs or the Imams, to the lesser men of cloth along the chain of command. No one is allowed to contest or dispute the word and actions of the authorities or dispute the verses in the Quran. Islam and democracy, therefore, are inherently irreconcilable.

Jihadists are the army of Allah. The use of violence as an instrument of policy has been and continues to be central to Islam. Muslims war under the firmly-believed and widely-

cherished set of ideas that are rabidly militaristic. No matter which side is killed, Islam is the victor, "You kill them, you go to paradise, you get killed, you go to paradise," are two examples of exhortation to jihadism and war.

Keep in mind that there are also internationalists, dictatorial, globalist forces who actively seek to use the Islamic conflict in order to create an international government and a unification of all religions by the destruction of nationalism, patriotism and individual rights.

We must learn and remember that it is not "fanatical," "radical," or "extreme" Islam that we are fighting, but normal, orthodox, canonical, typical, accepted, traditional Islam, straight from the mouth of the prophet Muhammad. Islam is violent in direct proportion to its mission and scripture. The so-called fanatics are only upholding the truth of their principles. There are those who do not openly engage in terrorism or warfare, but are in support of it, or are working in other ways to spread Islam by force or fraud.

Islam is evil by any accepted definition of the word, and must be seen as such by all rational non-Islamists. There is no such thing as "peace" in Islam except perhaps the peace that comes after a successful war against infidels.

Islam works by brute force and by the lengths to which the believers will go to perpetuate it. Its theology and

practices make it inherently evil and dangerous to all of mankind. It has already spread and infected the world like a cancer. How do you eradicate it? You can't…in fact and most likely, they will eradicate us first. When this happens, all hell will break loose, and most freedoms will be up in smoke.

We must begin to declare Islam evil, not from a sectarian perspective, but from a universal, humanist one. Every encroachment of Islam as a religion must be rejected, harassed and discouraged by all people everywhere.

Any leftist attempts to give aid and comfort to this religion of hate must be denounced and frustrated at every turn.

Today, the greatest threat facing the United States is its own ignorance about Islam. Until citizens of the United States understand the threat of Islam to its society and on its own soil — people will continue to die in these sporadic attacks. Until there is a true understanding of this faith and a means to control it, people will continue to die. The threat of Islam is real. Until all Americans understand that all violent Islamic fundamentalist groups, including al-Qaeda, Hezbollah and hundreds of others are true Muslims and wish to kill all non-believers, we will continue to be at their mercy.
